

**CLEARWATER PASS DREDGING
CLEARWATER, FL. 33767**

GENERAL SCOPE OF WORK -

To dredge 3.9 acres (14,400 cubic yards) of sediment via hydraulic dredge from a shallow draft barge within the Clearwater Pass federal navigation channel, east of Clearwater Point, in Section 17, Township 29 South, Range 15 East, Clearwater, Pinellas County, Florida.

The channel will be dredged to -8 feet below mean lower low water with an overdredge of 2 feet. All dredge material is to become the responsibility of the contractor for beneficial reuse.

The pre-dredge sampling results show the dredge material to be beach compatible, and therefore there is no severance fee due to the State of Florida as long as materials are placed on adjacent eroding beaches, permitted to accept such material.

NOTE:

Contractor will abide by standard Manatee Protection procedures for in-water work.

The pay item is to be lump sum including all equipment, labor and materials necessary to complete the work.

DEBRIS DISPOSAL - All debris is to be disposed of in accordance with all regulatory requirements. Contractor to take control of and dispose of all dredged material.

CONSTRUCTION TIME – Work will commence following Labor Day 2016.

PROJECT SAFETY - The Contractor is cautioned that the project is located in an area with frequent watercraft traffic. The Contractor is to take any and all safety precautions necessary to protect the general public and to keep the general public away from the work at all times.

REPAIR OF DAMAGED APPURTENANCES - The Contractor is responsible for repair or damage to any city or adjacent property.

EROSION CONTROL - The City desires to prevent the movement of sediments into adjacent travel ways and storm systems. The Contractor will be required to place sediment traps, around all storm inlets within the scope of the project and to maintain them until the work is completed.

PERMITS AND LICENSES - It shall be the responsibility of the Contractor to be properly licensed. All necessary permits have been obtained by the City. Contractor to abide by any and all permit conditions, including post dredge as-built certification. These permits include:

- 1) FDEP Exemption, No. 52-0335250-001 Granted: 06-17-15. With no expiration date.
- 2) Pinellas County Water & Navigation Permit No. DF2511-16 Issued 02-29-16. Expires 02-28-17
- 3) ACOE Permit No. SAJ-2015-01929 (LP-JLC) Issued 01-13-16. Expires 01-13-21.

NOTIFICATIONS OF WORK PROGRESS AND INSPECTIONS - The Contractor will notify the City of Clearwater Engineering Department when work is to be started and when work is completed to obtain final inspections and approval of work completed. One final invoice billing will be processed on this project.

DIRECTION TO CONTRACTOR - The Contractor is cautioned to only take project direction from the Engineering Department project representative unless specifically instructed in writing otherwise. This is particularly important where the Contractor may expect an increase in contract price. The Contractor is to only proceed with work which will increase the contract price with written direction from the City. A 10% contingency will be available if necessary, pending city authorization.

PROJECT CONTRACT/INFORMATION - Please contact Mr. Ed Chesney, P.E. Environmental Manager at (727) 562-4742.
