Comment: please perform hydrant flow test map 258A #6 static and 258A #16 residual flow per Sandy Bradbury 727-443-2869

*C. Gordon* ✓ 63601 - 1hr

*A. Brown* ✓ 163601 - 1hr

*I. Tingjera-Pena* ✓ 64091 - 1hr

*A. Reedy* ✓ 64091 - 1hr

Ran a flow test on Hydrants # 6/#16  
in grid 258A -  
and took just the static reading on both

**CITY OF CLEARWATER**  
**FIRE HYDRANT FLOW TEST**  
**STANDARD OPERATING**  
**PROCEDURE**

**GENERAL INFORMATION**

Hydrant flow Test Request Department *Northside Engineering Services, Inc*  
Grid#: *258-A*  
Primary Hydrant Address: *630 Bay Esplanade*  
Date: *6/4/25*

**FIELD VERIFICATION AND HYDRANT INFORMATION**

Residual Fire Hydrant (ID): *16*

Flow Fire Hydrant (IDs): *6*

General Comment (I.E. Uses XXX-Dechlorination Method):

**RESIDUAL HYDRANT (UPSTREAM)**

Time: *8:30 am*

Static Reading (psi): *72*

Pressure drop greater than 10 psi? (Yes, record residual pressure/ No, open more hydrants)

Time: *8:35 am*

Residual Reading (psi): *60*

**FLOW HYDRANT (DOWNSTREAM)**

Hydrant Test No/ ID	ID (inches) <sup>1</sup>	$C_d$ <sup>2</sup>	Pitot (psi)	Flow(gpm) <sup>3</sup>
1/ <i>16</i>	<i>2.5</i>	<i>,9</i>	<i>20</i>	<i>698</i>
2/				
3/				
4/				
5/				
TOTAL				

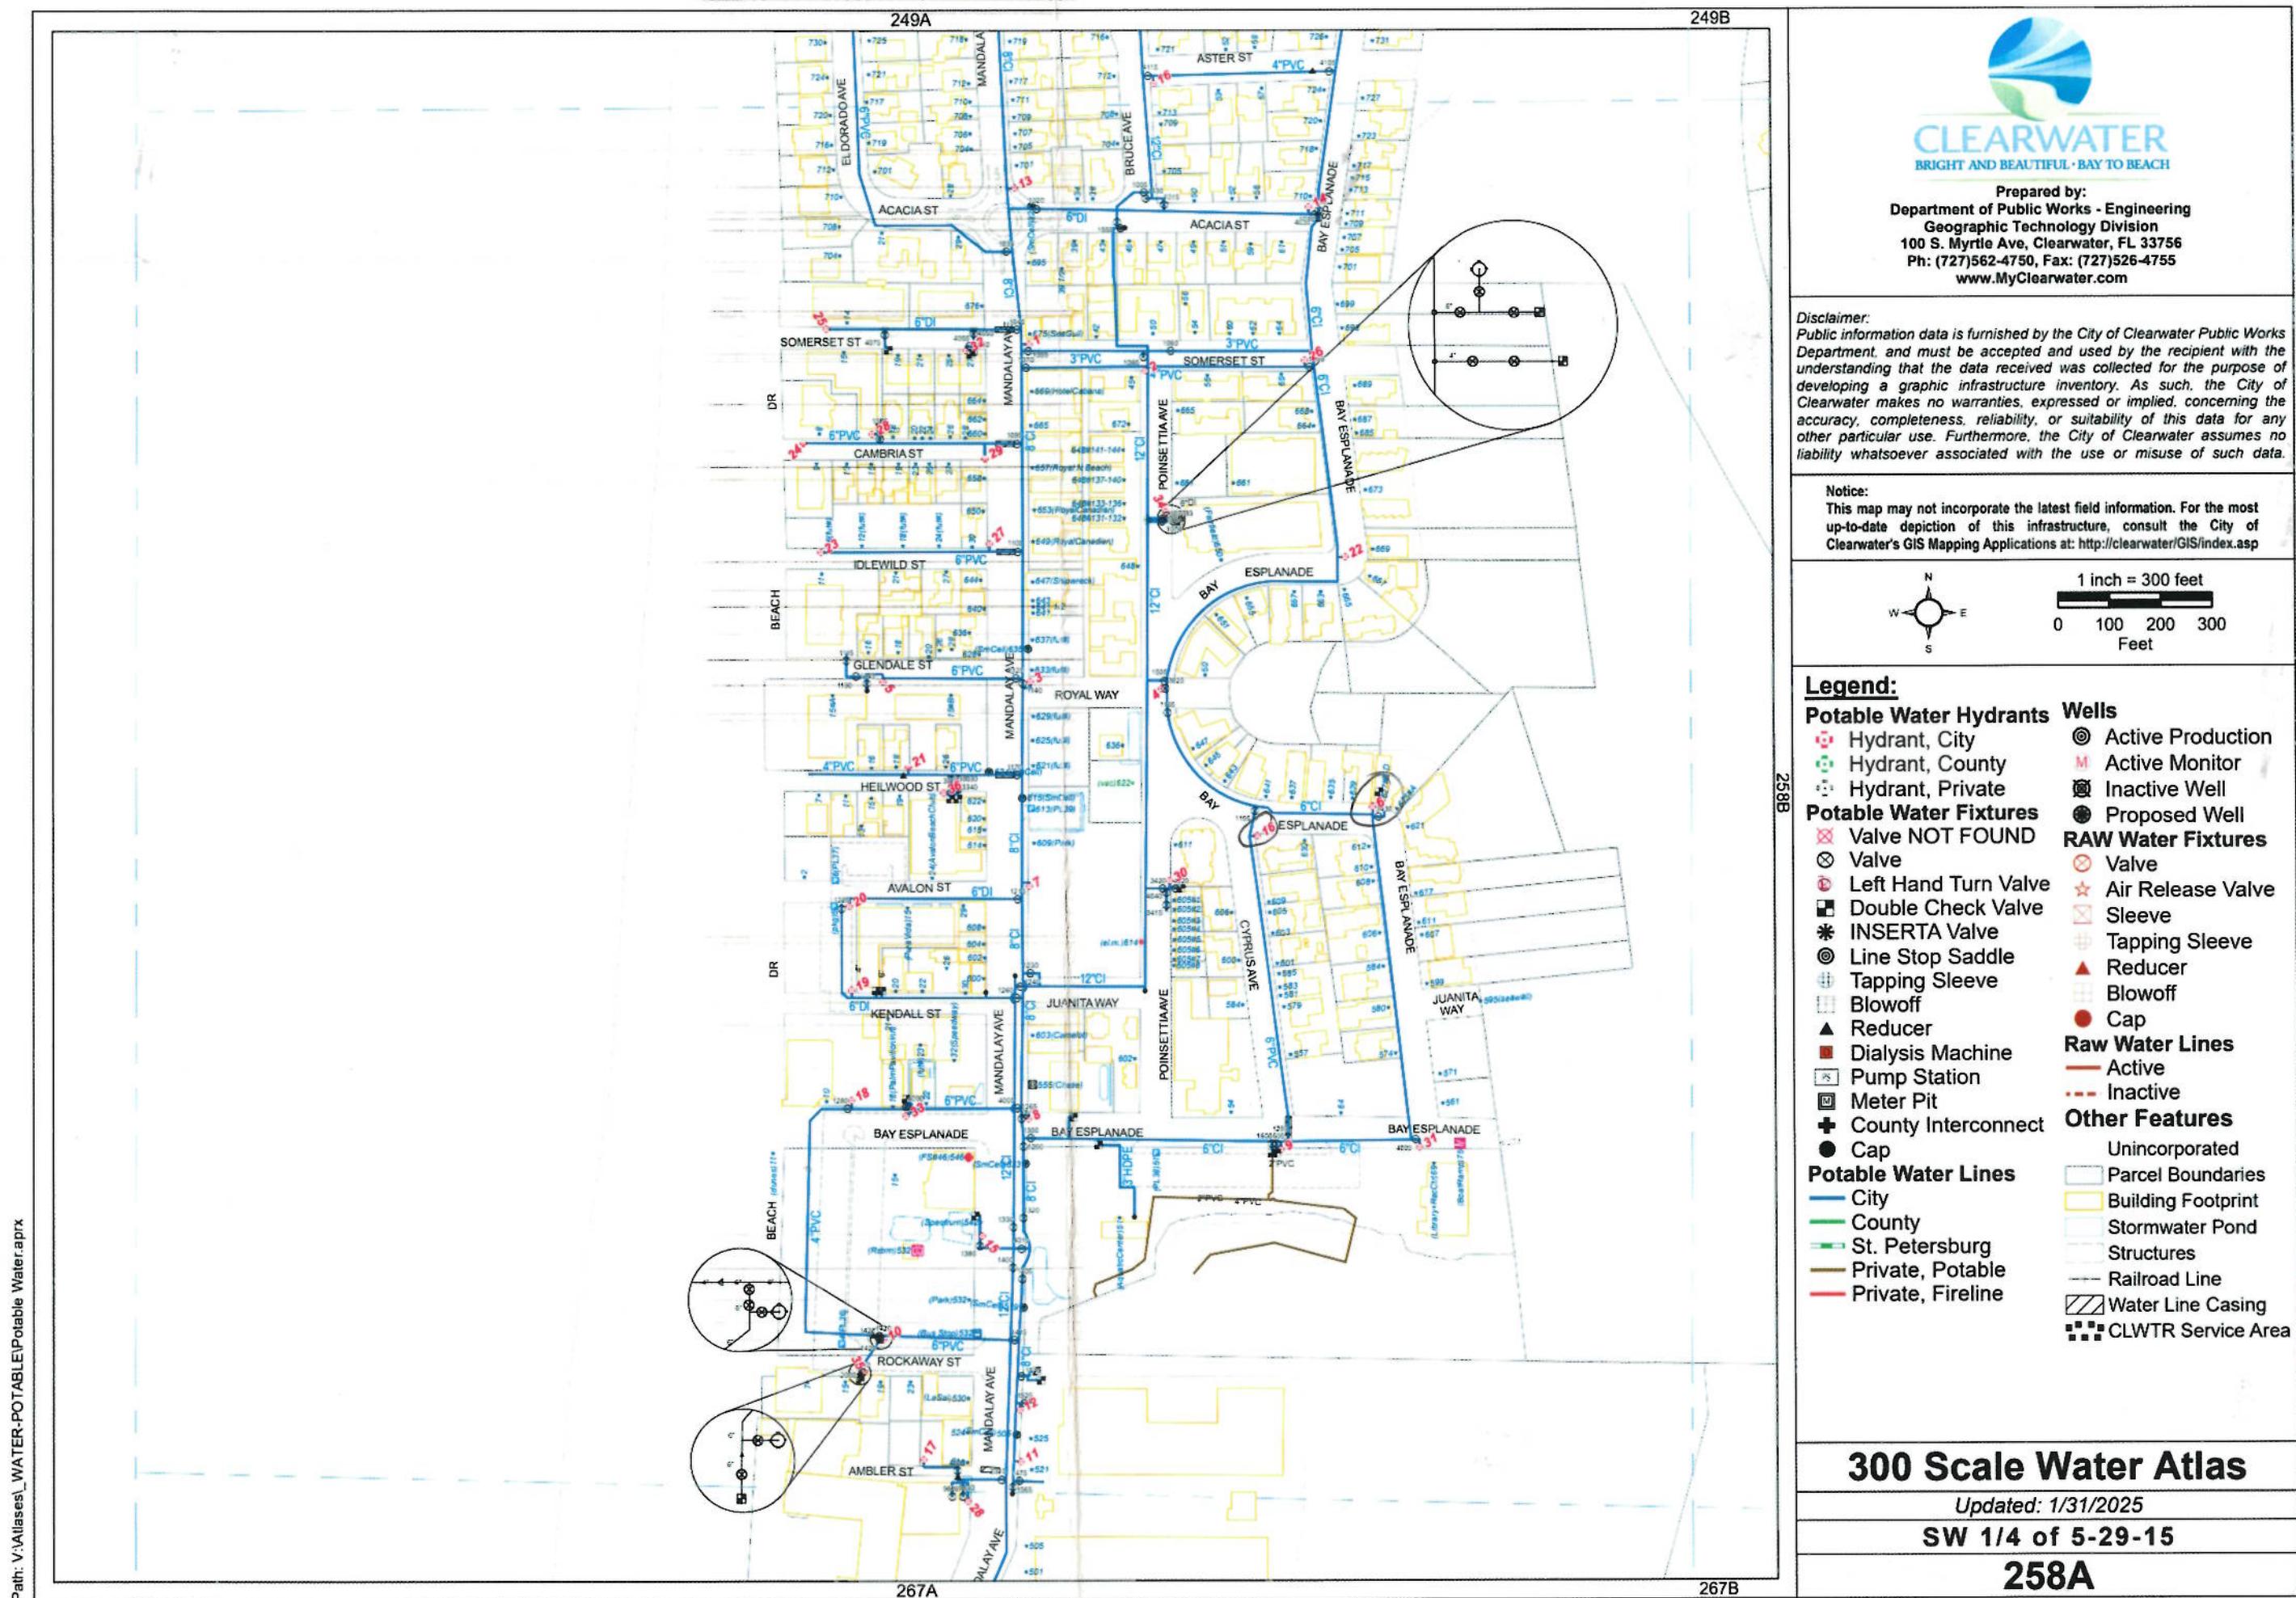

**NOTES/CALCULATIONS**

1. ID is inner diameter of hydrant outlet, genera Hy 2.5"

2.  $C_d$  is discharge coefficient. Rounded Smooth= 0 .. 9, Square Sharp= 0.8, Square and into barren= 0.7

3. Flow (gpm) =  $29.84 * C_d * ID^2 * Pressure^{0.5}$

## 2024 Tax Information

Do not rely on current taxes as an estimate following a change in ownership. A significant change in taxable value may occur after a transfer due to a loss of exemptions, reset of the Save Our Homes or 10% Cap, and/or market conditions. Please use our **Tax Estimator** to estimate taxes under new ownership.

**THIS WARRANTY DEED**, made effective the 31<sup>st</sup> day of January, 2020 by IRENE DEBENEDITTIS, Individually and as Personal Representative of the ESTATE OF MARIE DEBENEDITTIS, deceased, herein called the grantors, to OGAND, LLC, a Florida limited liability company, whose post office address is 47-05 104TH STREET, CORONA, NY 11360, hereinafter called the Grantee:

*(Wherever used herein the terms "grantor" and "grantee" include all the parties to this instrument and the heirs, legal representatives and assigns of individuals, and the successors and assigns of corporations)*

**W I T N E S S E T H:** That the grantors, for and in consideration of the sum of TEN AND 00/100'S (\$10.00) Dollars and other valuable considerations, receipt whereof is hereby acknowledged, hereby grants, bargains, sells, aliens, remises, releases, conveys and confirms unto the grantee all that certain land situate in PINELLAS County, State of Florida, viz.:

**Lot Eleven (11), Replat of Block 79, MANDALAY UNIT #5, a subdivision according to the plat thereof recorded in Plat Book 20, Page 27, of the Public Records of Pinellas County, Florida.**

**SUBJECT TO EASEMENTS, COVENANTS, RESTRICTIONS OF RECORD (NONE OF WHICH ARE RE-IMPOSED HEREBY) AND TAXES FOR THE YEAR 2020 AND SUBSEQUENT YEARS.**

**THIS PROPERTY IS NOT NOW NOR EVER HAS BEEN THE HOMESTEAD PROPERTY OF EITHER OF THE GRANTORS.**

**TOGETHER**, with all the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining.

**TO HAVE AND TO HOLD**, the same in fee simple forever.

**AND**, the grantors hereby covenant with said grantee that the grantors are lawfully seized of said land in fee simple; that the grantors have good right and lawful authority to sell and convey said land, and hereby warrant the title to said land and will defend the same

Warranty Deed, page 2

against the lawful claims of all persons whomsoever; and that said land is free of all encumbrances, except taxes accruing subsequent to December 31, 2019.

IN WITNESS WHEREOF, the said grantors have signed and sealed these presents the day and year first above written.

Signed, sealed and delivered in the presence of:

## DRAINAGE NARRATIVE

### Bay Esplanada Suites, Clearwater, FL.

#### LOCATION:

612 Bay Esplanada, Clearwater, FL

#### PROPOSED ACTIVITY:

Construction of a six story Overnight Accommodation.

#### DESIGN CRITERIA:

Clearwater Drainage Criteria Manual

For Re-Development projects, use a factor of C = 0.50 for existing impervious.

For Detention Areas Without Out Fall, use 50 year storm – one hour storm.

For the rational method, the rainfall intensity shall be found on the FDOT Zone 6 IDF curves.

#### OFF SITE CONNECTION:

The off site connection for the project's stormwater management system is a Bubbler. Which leads to a valley gutter. The grate elevation is 4.0 ft. .

#### PRE DEVELOPMENT CONDITION:

Area = 8,677 sq.ft. 0.2 acre

Design Storm = 50 year C1 = .33 Tc = 60 Min

Intensity = 4.0 in/hr ( Zone 6 FDOT Rainfall – Intensity Curve)

Pre Condition Discharge = 0.26 cfs

#### PROPOSED CONDITION:

Area = 8,677 sq.ft. 0.20 acre

Design Storm = 50 year C2 = 0.70 Tc = 60 Min

Intensity = 4.0 in/hr ( Zone 6 FDOT Rainfall – Intensity Curve)

Required Attenuation Volume = 1061.4 cu.ft.

## MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service

Web Soil Survey URL:

Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Pinellas County, Florida

Survey Area Data: Version 17, Jun 9, 2020

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Jan 8, 2020—Jan 27, 2020

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

## Pinellas County, Florida

### 16—Matlacha and St. Augustine soils and Urban land

#### Map Unit Setting

*National map unit symbol:* 134ch

*Elevation:* 0 to 80 feet

*Mean annual precipitation:* 48 to 56 inches

*Mean annual air temperature:* 70 to 77 degrees F

*Frost-free period:* 335 to 365 days

*Farmland classification:* Not prime farmland

#### Map Unit Composition

*Matlacha and similar soils:* 33 percent

*St. augustine and similar soils:* 32 percent

*Urban land:* 31 percent

*Minor components:* 4 percent

*Estimates are based on observations, descriptions, and transects of the mapunit.*

#### Description of Matlacha

##### Setting

*Landform:* Ridges on marine terraces

*Landform position (three-dimensional):* Interfluve, rise

*Down-slope shape:* Convex

*Across-slope shape:* Linear

*Parent material:* Sandy mine spoil or earthy fill

##### Typical profile

*C - 0 to 42 inches:* sand

*A/Eb - 42 to 80 inches:* fine sand

##### Properties and qualities

*Slope:* 0 to 2 percent

*Depth to restrictive feature:* More than 80 inches

*Drainage class:* Somewhat poorly drained

*Runoff class:* Very low

*Capacity of the most limiting layer to transmit water (Ksat):* High (2.00 to 6.00 in/hr)

*Depth to water table:* About 24 to 36 inches

*Frequency of flooding:* None

*Frequency of ponding:* None

*Calcium carbonate, maximum content:* 5 percent

*Maximum salinity:* Nonsaline to very slightly saline (0.0 to 2.0 mmhos/cm)

*Sodium adsorption ratio, maximum:* 4.0

*Available water capacity:* Low (about 3.7 inches)

##### Interpretive groups

*Land capability classification (irrigated):* None specified

*Land capability classification (nonirrigated):* 6s

*Hydrologic Soil Group:* B  
*Forage suitability group:* Forage suitability group not assigned (G154XB999FL)  
*Other vegetative classification:* Forage suitability group not assigned (G154XB999FL)  
*Hydric soil rating:* No

### Description of St. Augustine

#### Setting

*Landform:* Ridges on marine terraces, rises on marine terraces  
*Landform position (three-dimensional):* Interfluve, rise  
*Down-slope shape:* Convex  
*Across-slope shape:* Linear  
*Parent material:* Sandy mine spoil or earthy fill

#### Typical profile

*A - 0 to 8 inches:* sand  
*C1 - 8 to 33 inches:* loamy fine sand  
*C2 - 33 to 48 inches:* fine sand  
*C3 - 48 to 63 inches:* sandy loam  
*C4 - 63 to 80 inches:* sand

#### Properties and qualities

*Slope:* 0 to 2 percent  
*Depth to restrictive feature:* More than 80 inches  
*Drainage class:* Somewhat poorly drained  
*Runoff class:* Very low  
*Capacity of the most limiting layer to transmit water (Ksat):* High to very high (2.00 to 20.00 in/hr)  
*Depth to water table:* About 18 to 36 inches  
*Frequency of flooding:* None  
*Frequency of ponding:* None  
*Calcium carbonate, maximum content:* 5 percent  
*Maximum salinity:* Nonsaline to very slightly saline (0.0 to 2.0 mmhos/cm)  
*Sodium adsorption ratio, maximum:* 4.0  
*Available water capacity:* Low (about 3.9 inches)

#### Interpretive groups

*Land capability classification (irrigated):* None specified  
*Land capability classification (nonirrigated):* 7s  
*Hydrologic Soil Group:* A  
*Forage suitability group:* Forage suitability group not assigned (G154XB999FL)  
*Other vegetative classification:* Forage suitability group not assigned (G154XB999FL)  
*Hydric soil rating:* No

### Description of Urban Land

#### Setting

*Landform:* Marine terraces  
*Landform position (three-dimensional):* Interfluve, talf

*Down-slope shape:* Linear  
*Across-slope shape:* Linear  
*Parent material:* No parent material

#### **Interpretive groups**

*Land capability classification (irrigated):* None specified  
*Forage suitability group:* Forage suitability group not assigned (G154XB999FL)  
*Other vegetative classification:* Forage suitability group not assigned (G154XB999FL)  
*Hydric soil rating:* Unranked

#### **Minor Components**

##### **Wulfert**

*Percent of map unit:* 2 percent  
*Landform:* Tidal marshes on marine terraces  
*Landform position (three-dimensional):* Talf  
*Down-slope shape:* Linear  
*Across-slope shape:* Linear  
*Other vegetative classification:* Forage suitability group not assigned (G154XB999FL)  
*Hydric soil rating:* Yes

##### **Kesson**

*Percent of map unit:* 2 percent  
*Landform:* Tidal marshes on marine terraces  
*Landform position (three-dimensional):* Interfluve, talf  
*Down-slope shape:* Linear  
*Across-slope shape:* Linear  
*Other vegetative classification:* Forage suitability group not assigned (G154XB999FL)  
*Hydric soil rating:* Yes

**Planning Review**

**Melissa Hauck-Baker**

**melissa.hauckbaker@myclearwater. 727-444-8769  
com**

Prior to CDB: Disclaimer (Acknowledge)

Please note that additional comments may be generated at or after the Development Review Committee (DRC) meeting based on responses to DRC comments. Substantial redesign or unresolved issues will delay the ability to receive a Development Order and another DRC meeting may be required prior to proceeding to the Community Development Board (CDB).

All plans and supporting documents must match. Additionally, any changes to plans, elevations, and other supporting documents must be coordinated for consistency across all documentation to move forward.

Pursuant to Fla. Stat. § 166.033, "Within 120 days after the municipality has deemed the application complete, or 180 days for applications that require final action through a quasi-judicial hearing or a public hearing, the municipality must approve, approve with conditions, or deny the application for a development permit or development order. Both parties may agree to a reasonable request for an extension of time, particularly in the event of a force majeure or other extraordinary circumstance."

In order to be reviewed by the Community Development Board (CDB) on November 18, 2025, electronic version of all updated materials must be submitted no later than 12:00pm on October 10, 2025.

**Response: Acknowledged.**

Prior to CDB: TDR Deed, Beach by Design and CDC Responses

1. The application did not include a draft TDR deed, which is the document that will legally transfer the unit, must be reviewed by the Legal Department prior to CDB.

**Response: Please find a copy of the draft TDR Deed.**

2. Provide the proposed project compliance with Section A. Density, Beach by Design, Design Guidelines.

**Response: Please see revised narratives.**

3. Ensure that the responses provided to CDC Sections 4-1402 and 4-1404 accurately detail how the request meets with all CDC requirements.

**Response: Please see revised narratives.**

4. Remaining DRC comments are contained within companion case FLD2025-07017.

**Response: Acknowledged.**

## **Urban Forestry Solutions, llc**

**727.224.2818      [UFSLLC@VERIZON.NET](mailto:UFSLLC@VERIZON.NET)**

**By:** Rick Albee

ISA Certified Arborist, SO-0989A

ISA Tree Risk Assessment Qualified (TRAQ)

## Tree Inventory

The following Arborist's Report is a Level 2, Basic Assessment, submitted by Urban Forestry Solutions, LLC, and includes findings that I believe are accurate based on my over 30 years of education, experience and knowledge in the field of Arboriculture. I have no interest personally or financially in this property and my report is factual and unbiased.

The following Tree Inventory Report will identify each tree by its size, species and overall condition rating with accompanying notes justifying the Condition Rating. The Tree Survey indicates the location of the tree on the site by the tree identification number. This tree identification number corresponds to the number on the Tree Inventory Report.

## Methodology

Tree evaluations can be performed at different levels of intensity:

**Level 1: Limited Visual Assessment** – A visual assessment performed, typically on foot, to identify obvious defects.

**Level 2: Basic Assessment** – A detailed visual inspection of a tree and the surrounding site. This assessment may include the use of simple tools. A Level 2 Assessment requires the tree risk assessor to walk completely around the tree trunk, to exam any surface roots above ground, the trunk, and the branches.

**Level 3: Advanced Assessment** – An assessment performed to provide detailed information about specific tree parts, defects, targets, or site conditions. Specialized equipment, data collection and analysis, and/or expertise are usually required.

## Arboricultural Glossary

The following are arboricultural terms used in tree inventories. A basic understanding of these terms will help the reader understand a tree problem.

**DBH:** The diameter of a tree measured at breast height or 4.5' above grade.

**Co-dominant trunks or branches:** A condition when two or more trunks or branches emanate from the same position and are essentially the same size.

**Included bark:** This condition occurs when the bark in the crotch of a co-dominant trunk or branch grows inward and becomes embedded in the crotch and prevents the formation of a branch bark ridge. This condition is a structural defect and may lead to failure.

**Structural root plate:** Basically, it is the pedestal on which the tree sits on to insure structural stability of the tree. The general rule for determining the size of the root plate is multiplying the trees DBH by 5. Severing or restricting structural roots within this distance may dispose the tree to failure.

**Topping cut:** An improper pruning cut used to reduce the height or width of a tree. The cut indiscriminately removes the upper portion of a large branch leaving a wound open to decay.

**Dieback:** A condition in which the branches in the tree crown die from the tip toward the center. This typically indicates decline from root loss, damage and/or disease.

**Phototropism:** The growth of a plant in the direction of its light source. This typically occurs when younger trees grow under the canopy of a larger older tree. These younger trees typically do not form scaffold branches and are a leggy single stem tree with poor live crown ratio and poor crown density.

**Live crown ratio:** A measurement of the percentage of live foliage measured vertically. Typically caused by over elevating the tree.

## Tree Inventory Data

A tree inventory is a written record of a tree's condition at the time of inspection. Problems not apparent upon visual observations from the ground cannot be noted and were not noted. A tree inventory is also a valuable tool to prioritize tree maintenance and/or removal of trees with problems that could lead to failure and cause personal injury or property damage. The following is an explanation of the data used in the inventory:

**Tree# - location** - Each tree is assigned a number for reference in the inventory that corresponds with a number on the Tree Survey that identifies the location of the tree in the field.

**Size** – Diameter at breast height (DBH) is the size of the tree's trunk measured at 4.5' above grade. If there is a fork in the trunk at that point, the diameter is measured at the narrowest area below the fork. Palm species are measured in feet of clear trunk (C.T.). Palm trees <10' are not protected.

**Species** – Each tree is listed by its common and botanical name the first time it is listed in the inventory. For simplicity, the tree is listed by its common name thereafter.

**Condition Rating** – The Condition Rating is an assessment of the tree's overall structural strength and systemic health.

**Elements of structure include:** 1) the presence of cavities, decayed wood and/or split, cracked, or rubbing branches etc., 2) branch arrangements and attachments (i.e., well-spaced branches vs. several branches emanating from the same area on the trunk; co-dominant trunks vs. single leader trunks; presence of branch collars vs. included bark).

**Elements of systemic health** relate to the tree's overall energy system measured by net photosynthesis (food made) vs. respiration (food used). A tree with good systemic health will have a vascular system that moves water, nutrients and photosynthate around the tree as needed. If a tree is said to be Chlorotic (yellowing) it is lacking nutrients or fertilizer. Indicators of a healthy systemic system used in the overall condition rating include: 1) live crown ratio (the amount of live crown a tree has relative to its mass), 2) crown density (density of the foliage). Poor density typically indicates a declining tree and/or the tree's crown does not have adequate space to develop, generally due to competition from adjacent trees, 3) tip growth (shoot elongation is a sign that the tree is making and storing energy.) The overall condition rating also takes into consideration the species, appearance and any unique features. The rating scale is 0-6 with 0 being a dead tree and 6 a specimen. Increments of 0.5 are used to increase accuracy. Examples of the tree rating system are as follows:

0- A dead tree

1- A tree that is dying, severely declining, hazardous, harboring a communicable disease. A tree with a rating of #1 should be removed as it is beyond treatment and is a threat to cause personal injury or property damage.

2 – A tree exhibiting serious structural defects such as: co-dominant stems with included bark at or near the base; large cavities; large areas of decayed wood; extreme crown dieback; cracked/split scaffold branches; etc. Also included is a tree with health issues (low energy, low live crown ratio, serious disease or insect problems, nutritional deficiencies or soil pH problems). A tree with a rating of #2 or 2.5 should be removed unless the problem(s) can be treated. A tree with a #2 Condition Rating will typically require a considerable amount of maintenance to qualify for an upgrade of the Condition Rating.

3- A tree with average structure and systemic health, minor crown dieback and problems that can be corrected with moderate maintenance. A tree with a co-dominant stem not in the basal area that can be subordinated, cabled and braced or a co-dominant stem that will soon have included bark can be included as a #3. A tree with a rating of #3 has average appearance, crown density and live crown ratio and should be preserved if possible.

4- A tree with a rating of #4 has good structure and systemic health with minor problems that can be easily corrected with minor maintenance. The tree should have an attractive appearance and be essentially free of any debilitating disease or insect problem. The tree should also have above average crown density and live crown ratio. Mature trees exhibiting scars, old wounds, small cavities or other problems that are not debilitating can be included in this group particularly if they possess unique form or other aesthetic amenities relating to their age. A tree with a rating of #4 is valuable to the property and should be preserved.

5 – A tree with very high live crown ratio and exceptional structure and systemic health and virtually free of insect or disease problems or nutritional deficiencies. A tree in this category should have a balanced crown with exceptional aesthetic amenities. A tree in this category should be of a species that possess characteristics inherent to longevity and withstanding construction impacts. A tree with a #5 rating lends considerable value to the site and should be incorporated into the site design. A tree with a #5 rating is worthy of significant site plan modification to ensure its preservation.

6 – A specimen tree. A specimen tree is a tree that possesses a combination of superior qualities regarding systemic health, structural strength, crown density, live crown ratio, form (balanced crown), overall aesthetic appeal, size, species, age and uniqueness. A great effort should be made to preserve a specimen tree including shifting structures that would adversely impact the tree. A specimen tree should have an undisturbed growth area equal to its drip line (equal to the branch spread). Only an experienced and competent International Society of Arboriculture (I.S.A.) Certified Arborist should be allowed to perform maintenance work on a specimen tree.

## **TREE INVENTORY REPORT**

Please note: Trees are living organisms, and with all living organisms, certain degrees of stress may be experienced when they are disturbed in any way. It must be pointed out that it is not humanly possible to entirely ascertain the full extent of stress that the tree may experience. Nor is it possible to assure with 100% probability that the trees will survive. However, with professional arboricultural consulting, it is hoped that the stress factors can be held to a minimum and that the trees will continue to thrive during and following construction.

<b>TREE #</b>	<b>SIZE</b>	<b>SPECIES</b>	<b>RATING</b>
1	45"	Southern Red Cedar ( <i>Juniperus virginiana</i> )	2.0
		<ul style="list-style-type: none"><li>• Severely restricted structural root plate. Surrounded by a brick wall and asphalt parking lot.</li><li>• Uplifting adjacent wall and parking lot.</li><li>• Topped lower scaffold and lateral branches and stubs.</li><li>• Multi-dominant scaffold branches with 2' of included bark from grade.</li><li>• Moderate tip dieback.</li><li>• Broken, dead lateral branches and stub.</li></ul>	
2	16' CT	Queen Palm ( <i>Syagrus romanzoffiana</i> )	2.0

Note: Queen palms are on the Florida Exotic Pest Plant Council's (FLEPPC) list of invasive plant species, category II, and is recommended for removal by the FLEPPC.

- Minor nutrient deficiencies.
- Severely restricted upper trunk from over pruning.

3 11' CT Sabal Palm (*Sabal palmetto*) 4.5

- Minor nutrient deficiencies.

4 14' CT Sabal Palm 3.0

- Moderate phototrophic lean to the west.
- Severely restricted canopy on the east side.
- Minor nutrient deficiencies.

5 12' CT Sabal Palm 3.5

- Minor phototrophic lean to the northeast.
- Minor nutrient deficiencies.

6 5" Carrotwood (*Cupaniopsis anacardoides*) 1.5

Note: Carrotwood trees are on the Florida Exotic Pest Plant Council's (FLEPPC) list of invasive plant species, category I, and is recommended for removal by the FLEPPC.

- Poor live crown ratio.

7 41' CT Washington palm (*Washingtonia robusta*) 2.5

Note: Washington palms are on the Florida Exotic Pest Plant Council's (FLEPPC) list of invasive plant species, category I, and is recommended for removal by the FLEPPC.

- Minor phototrophic lean to the west.
- Minor nutrient deficiencies.

8 13' CT Sabal Palm 4.0

- Minor nutrient deficiencies.

9 5",5",4",4" Sea Grape (*Coccoloba uvifera*) 3.0

- Multi-stem.

10 10",8",4",4",4" Sea Grape 3.0

- Multi-stem.

**SPECIAL WARRANTY DEED  
TRANSFER OF DEVELOPMENT RIGHTS**

**THIS INDENTURE** made this    day of   , 2024, by and between Clearwater JV II LLC, 5391 Lakewood Ranch Boulevard, Suite 100, Sarasota FL 34240-8622, a Florida for profit corporation, Seller, and OGANDM LLC, whose mailing address is: 47 05 104<sup>th</sup> Street, Corona, NY 11368 a New York for profit corporation, Purchaser:

**W I T N E S S E T H:**

That the said Seller, for and in consideration of the sum of Ten Dollars (\$10.00) to it in hand paid by the said Purchaser, the receipt and sufficiency whereof is hereby acknowledged, has granted, bargained and sold to the said Purchaser, its successors and assigns forever, the following described development rights, situate, lying and being in the County of Pinellas, State of Florida, to-wit:

One (1) Resort Attached Dwelling density units on property located at 692 Bay Esplanade, Clearwater, Florida 33767, more fully described in that certain Transfer of Development Rights Application filed with the City of Clearwater Planning Department on or about June 30, 2024 which is attached hereto as Exhibit "A" (herein collectively called the "Property").

THIS CONVEYANCE is as to the development rights only and does not serve as a conveyance of any other interest in the subject real property.

TO HAVE AND TO HOLD, the same in fee simple forever.

AND the Seller hereby covenants with the Purchaser that it is lawfully seized of said land in fee simple; that it has good right and lawful authority to sell and convey said development rights, that it hereby fully warrants the title to said development rights and will defend the same against the lawful claims of all persons claiming by, through or under the said Seller but not otherwise.

IN WITNESS WHEREOF, the said Seller has hereunto set its hand and seal the day and year first above written.

Signed, Sealed and Delivered  
in Our Presence:

## TOURIST ZONING DISTRICT SPECIFIC CRITERIA SUPPLEMENTAL RESPONSE

Subject to flexing, *Bay Esplanade Resort Attached Dwellings*, is permitted in, and consistent with the requirements of, the Tourist Zoning District as set out in Clearwater Community Development Code, as follows:

Permitted Uses:	Resort Attached dwellings
Proposed Uses:	Resort Attached dwellings
Maximum Density:	30 Resort Attached dwellings/Acre
Proposed Density:	30 Resort Attached dwellings/Acre
Maximum ISR:	0.95
Proposed ISR:	0.67
Minimum Lot Size	5,000 s.f.
Actual Lot Size	8,677 s.f.
Minimum Lot Frontage	50'
Actual Lot Frontage	182'

	<u>Required</u>	<u>Provided</u>
Front (East)	15'	15'
Front (North)	10'	10'
Side (South)	10'	10'
Side (West)	20'	10'
Maximum Height:	65'	
Proposed Height:	53'	
Parking Required:	1.5 spaces/unit	
Parking Provided:	1.5 spaces/unit	

Flexibility Criteria:

Section 2-803 (Table 2-803) establishes the criteria for flexible development with a Level 2 review. *Bay Esplanade Resort Attached Dwellings*, complies with these criteria as follows:

1           –     Resort attached uses are a permitted use on lots of at least 5,000 square feet with  
2            at least 50 feet of street frontage, not requiring flex as to the lot size;  
3           –     The maximum height is 50 feet, with adjustments for architectural features and for  
4            amenities, again not requiring flex;  
5           –     Building setback requirements are superceded by *Beach by Design*, as set out in  
6            the BBD analysis; and  
7           –     Parking is required at 1.5 spaces per unit; parking is provided at 1.5 spaces per  
8            unit.

9  
10          Section 2-803 L establishes flexibility criteria for resort attached uses under the flexible  
11         development process. *Bay Esplanade Resort Attached Dwellings*, complies with these criteria, as  
12         follows;

13  
14          1. Lot area and width: *No reduction in lot area or width is requested.*  
15          2. Height: *No increase in height is requested, subject to the interpretation of height*  
16            *exceptions for architectural features and for amenities and subject to an increased*  
17           *stepback.*  
18          3. Front setback: *A decrease in front setback is requested as set out in the Analysis of*  
19           *Beach by Design compliance.*  
20          4. Side and rear setbacks: *No reduction in side or rear setbacks is requested, See Table*  
21           *on the preceding page for the required and proposed setbacks.*  
22          5. Off-street parking: *Off-street parking is entirely within the footprint of the residential*  
23           *building and is designed and constructed to create a street level façade comparable to*  
24           *the architectural character and finishes of a residential building without parking on the*  
25           *ground level. No reduction in the required number of spaces is requested.*  
26          6. Design: *The design of the building complies with the Tourist District design*  
27           *requirements.*  
28          7. Accessory uses: *There will be no accessory uses.*

F

Bay Esplanade Resort  
Attached Dwellings  
Beach by Design<sup>1</sup> Compliance<sup>2</sup>

In addition to the Clearwater Comprehensive Plan, Clearwater Beach is governed by *Beach by Design*, a special area plan governing in detail, Clearwater Beach. In *Beach by Design*, the subject site is in the “Old Florida” sub-area, which is primarily a residential area intended for preservation and renovations at limited densities, (pp. 5 - 6).

The proposed development is generally consistent with, and supported by, *Beach by Design*, as follows:

*Bay Esplanade Resort Attached Dwellings*, will assist in the desired revitalization of Clearwater Beach, (pp. 1-2). With respect to the Old Florida district, *Beach by Design* establishes the following policies:

The Old Florida District, ... is an area of transition between resort uses in Central Beach to the low intensity residential neighborhoods to the north of Acacia Street. The mix of uses primarily includes residential, recreational, overnight accommodations and institutional uses. Given the area's location and historical development patterns, this area should continue to be a transitional District.

To that end, Beach by Design supports the development of new overnight accommodations and attached dwellings throughout the District ...

To ensure that the scale and character of development in Old

---

<sup>1</sup> City of Clearwater *Beach by Design*, as amended through Ordinance 9340-19.

<sup>2</sup> In the original submittals the following narrative was included in the Project Narrative. The City, in May, 2025, DRC comments requested that compliance with *Beach by Design* be treated in separate document and this document has been prepared and updated in response to that request.

1 Florida provides the desired transition between the adjacent tourist  
2 and residential areas, enhanced site design performance is a  
3 priority. Beach by Design contemplates greater setbacks and/or  
4 building stepbacks and enhanced landscaping for buildings  
5 exceeding 35 feet in height. (*Ibid.*)  
6

7 *Bay Esplanade Resort Attached Dwellings*, complies with these policies in that it:

8 – aids the transition of the Old Florida District;  
9 – includes resort attached uses;  
10 – employs enhanced site design; and  
11 – provides enhanced landscaping.

12  
13 *Beach by Design* establishes the following design parameters with which the proposed site plan  
14 comports.

15  
16  
17 Section II A 1.c

18 As clearly shown on the revised site and architectural plans, the proposed height of *Bay*  
19 *Esplanade Resort Attached Dwellings*, has been carefully designed, and reconfirmed, to conform  
20 with the height design requirements of *Beach by Design* as set out in this Section with respect to  
21 the various design/height requirements. The criteria outlined in the DRC Action Agenda are  
22 acknowledged. No shade structures, including umbrellas, will be installed on the elevated pool  
23 deck area.

24  
25  
26  
27 Section II A 2 a-b

28 No flexibility from yard requirements is sought.

29  
30  
31 Section II A 3 a-f

32 As clearly shown on the revised site and architectural plans, the proposed height, setbacks and

1 stepbacks of *Bay Esplanade Resort Attached Dwellings*, have been carefully designed, and  
2 reconfirmed, to conform with the design requirements of *Beach by Design* as set out in this  
3 Section with respect to the various design/height/setback/stepback requirements. In particular,  
4 the criteria enumerated on pages 7, 8 and 9 of the DRC Action Agenda are acknowledged and are  
5 fulfilled in the project design. Balconies overhang 24" into east setback and are being shown in  
6 both floor plans and elevations. There are no other encroachment into any required yard.

7

8

9 **Section II A 4 a-b**

10 The reduction in the required north setback to be achieved through the flexed design is offset as  
11 required by *Beach by Design* by with height, setback and stepback design configurations as  
12 shown on the site and architectural plans. These configurations will result in an improved design  
13 and appearance, particularly by improving uniformity and design in the north yard, along the  
14 north property line and in relationship with the south right-of-way line of Bay Esplanade. The  
15 east landscape buffer has also been increased to 15 feet.

16

17

18 **Section II A 6 a-b**

19 The proposed sites plan **fully and completely complies with all landscape requirements of**  
20 ***Beach by Design*** and all other City codes and requirements. Therefore, no Comprehensive  
21 Landscaping Program application is required. In particular, the criteria enumerated on page 7 of  
22 the DRC Action Agenda are acknowledged and are fulfilled in the project landscape design.

23

24

25 **Scale**

26 **Beach by Design, p. 64, Item Bulk 1**

27 *Bay Esplanade Resort Attached Dwellings*, promotes redevelopment which is in scale with the  
28 character and function of Clearwater Beach. In particular, the original maximum density  
29 permissible for resort attached for this site is 30 units per acre or six units. Thus, *Bay Esplanade*  
30 *Resort Attached Dwellings*, fits perfectly into the scale of its surroundings.

31

32 No Transfer of Development Rights (TDR) is known to have occurred with respect to the subject

1 site but TDR of one unit is sought (TDR 2025-07001) concurrently herewith.

2

3 Infrastructure

4 Beach by Design, p. 64, Item Bulk 2

5 Public infrastructure in the vicinity of *Bay Esplanade Resort Attached Dwellings*, is adequate to  
6 serve the proposed development. Potable water, reclaimed water, sanitary sewer, natural gas,  
7 power, telephone service and cable television are available to the site and are adequate to serve  
8 the proposed resort attached development.

9

10 Additional stormwater runoff will be retained and treated onsite in full compliance with the City  
11 of Clearwater's stormwater management requirements.

12

13 Police, fire, and emergency medical services are all available to, and adequate for, the proposed  
14 development. As a resort attached development, the project will have little, if any, impact on  
15 services such as schools, parks and libraries.

16

17

18 Compatibility

19 Beach by Design, p. 64, Item Bulk 3

20 *Bay Esplanade Resort Attached Dwellings*, is compatible with the existing development in the  
21 area. The project has a footprint of less than 5,000 square feet: therefore the *Beach by Design*  
22 Design Guidelines are inapplicable. See also the discussion of the project scale, above.

23

24 The site design provides adequate setbacks and landscape areas to meet design challenges. The  
25 Old Florida District requires a 10-foot landscape buffer along the street frontage of Bay  
26 Esplanade, which this proposal meets and exceeds by increasing the east landscape buffer to 15  
27 feet. The landscape buffer along the Bay Esplanade street frontage will be planted with palm and  
28 accent trees, shrubs and ground covers to soften the facade of this building and enhance the  
29 visual appeal of this site to pedestrians and vehicular traffic (See Sheet L1.1). Therefore, the  
30 proposed *Bay Esplanade Resort Attached Dwellings*, proposal comports with this criterion.

1      Character

2      Beach by Design, p. 64, Item Bulk 4

3      The Design Guidelines require that the height and mass of buildings be correlated to: (1) the  
4      dimensional aspects of the parcel and (2) adjacent public spaces such as streets and parks. The  
5      adjacent Bay Esplanade right-of-way width is 60 feet. The closest point of the building to the  
6      front property lines is 15 feet. The surrounding area is developed with attached and detached  
7      tourist and resort dwellings. Therefore, this provision is supported by this proposal.

8

9

10     Wall Effect

11     Beach by Design, p. 64, Item Bulk 5

12     This criterion does not apply to the inland *Bay Esplanade Resort Attached Dwellings*.

13

14

15     Diversity

16     Beach by Design, p. 64, Item Bulk 6

17     The design of *Bay Esplanade Resort Attached Dwellings*, also promotes diversity in the scale,  
18     mass and height of buildings. The building design is distinctive from other buildings in the Old  
19     Florida area, in part because of its height. The exterior finishing of the building is also  
20     distinctive, thereby further adding to the diversity created by the development. In particular, as  
21     evidenced by the architectural elevations, the building resembles the stern of a river boat,  
22     particularly appropriate in the Old Florida context.

23

24

25     Sidewalks

26     Beach by Design, p. 64, Item Bulk 7

27     New concrete sidewalks will be constructed to code on the Bay Esplanade frontage of the site.  
28     There are no measurable onsite sidewalks. Sidewalks and landscape treatments will conform and  
29     meet all requirements under the Old Florida District by *Beach by Design*

30

31

32     Height

1 Beach by Design, p. 64, Item Bulk 8

2 The height of the *Bay Esplanade Resort Attached Dwellings*, is relative to, and in scale with, the  
3 width of public places in the vicinity. For the subject site the maximum permitted height is 53  
4 feet measured from the design flood elevation, with up to 16 feet of mechanical equipment  
5 exempt from the height calculation. No flexibility from this criterion is sought. See, also, above.  
6

7 It is acknowledged that any structure placed on the roof to accommodate an active use of the roof  
8 must be below the maximum height and that this standard cannot be flexed.  
9

10 The proposal includes a building height of 53 feet (to top of roof deck from DFE) for the flat  
11 roofed building. The elevator and stairs provide access to the sun and pool deck for sunbathing.  
12 The proposed resort attached building height complies with the maximum height permissible in  
13 the Old Florida District, meeting this Guideline.  
14

15 Architecture

16 Beach by Design, p. 64, Item Design 1

17 As evidenced by the plans, *Bay Esplanade Resort Attached Dwellings*, is designed with  
18 aesthetically pleasing architecture in a tropical vernacular. In particular, as evidenced by the  
19 architectural elevations, the building resembles the stern of a river boat, particularly appropriate  
20 in the Old Florida context.  
21

22 Street Level

23 Beach by Design, p. 64, Item Design 2

24 While this requirement is more applicable to the core area of Clearwater Beach where there is  
25 very significantly more pedestrian traffic, *Bay Esplanade Resort Attached Dwellings*, does  
26 comply with this criterion. The architectural design of *Bay Esplanade Resort Attached*  
27 *Dwellings*, creates a human scale place at street level. The setbacks of the building, which fully  
28 comply with the Community Development Code as flexed and with *Beach by Design*, as flexed,  
29 keep the building at the prescribed distances from the adjacent sidewalks.  
30  
31

1 Form and Function

2 Beach by Design, p. 64, Item Design 3

3 The design of *Bay Esplanade Resort Attached Dwellings*, enhances the integration of form and  
4 function. Vehicular access from Bay Esplanade into the building functions smoothly while the  
5 form of the project, described above, is in keeping with the character and intensity of Clearwater  
6 Beach, particularly the Old Florida area; is compatible with its area; promotes diversity in  
7 building design; and is at an appropriate height. Further, the project design is aesthetically  
8 pleasing at a human scale.

9  
10 The applicable minimum required setbacks, as established in the Old Florida District pursuant to  
11 *Beach by Design*, and as established in the "T" Zoning District, and the setbacks actually  
12 provided are shown on the table on page 2 of the Project Narrative submitted herewith.

13  
14 Landscaping along the north and east sides will be planted with trees, shrubs and ground covers  
15 to soften the building facade and enhance the visual appeal of this site from the adjacent  
16 properties. A detailed landscaping plan is shown on Sheet L1.1 and landscape details are found  
17 on Sheet L1.2.

18  
19 Beach Community

20 Beach by Design, p. 64, Item Design 4

21 As an resort attached use, *Bay Esplanade Resort Attached Dwellings*, will cater to tourists.  
22 Those tourists will avail themselves, by car and on foot, of the numerous community amenities  
23 available on Clearwater Beach, including restaurants, shopping and amusement facilities.

24  
25  
26 Landscaping Materials

27 Beach by Design, p. 64, Item Design 5

28 As illustrated on the landscape plans, the called-out landscape materials will differentiate  
29 Clearwater Beach from other beach areas and intensely developed places in Pinellas County.

1 Surface Parking

2 Beach by Design, p. 64, Item Design 6

3 There is no onsite surface parking. Please refer to sheets A403 & A404 for the proposed 42"  
4 maximum landscape hedge, which will serve as the required landscape treatment of not less than  
5 3' and not more than 3.5' in height. This landscape hedge separates parking areas from the public  
6 rights of way at both the north and east facade as required. Also, an aluminum slat system is  
7 being used to shield and separate the parking area from the public right of way.

8

9 Pedestrian Friendly

10 Beach by Design, p. 64, Item Design 7

11 The addition of sidewalks to the area makes the ground level of the site pedestrian friendly,  
12 providing access to the building via a new 42" sidewalk along the south side of the building.  
13 Because of its location, the project is not expected to see a great deal of pedestrian traffic.

14

15 Density

16 Beach by Design, p. 65, Item A

17 At six resort attached uses units the density of the project is 30 resort attached dwellings per acre.  
18 Thus, *Bay Esplanade Resort Attached Dwellings*, is within the density limits imposed by *Beach*  
19 *by Design*. The Transfer of Development Rights (TDR) is from other property located within the  
20 Clearwater Beach Redevelopment District, and does not exceed the maximum permitted density  
21 for residential development. Therefore, there is no increase in density.

22

23 Height

24 Beach by Design, p. 66, Item B

25 See above.

26 The floorplate is significantly less than 25,000 square feet.

1      Design, Scale and Mass

2      Beach by Design, p. 68, Item C

3      Applicant respectfully states that the building falls into the “good” category on the “good, bad or  
4      ugly” spectrum and is to be constructed in compliance with these *Beach by Design* requirements  
5      as set out below. See above. Further, the materials and color of the building enhance the  
6      comparability of the development with its natural surroundings. In particular:

- 7            1.      No more than two of the three building dimensions in the vertical or horizontal  
8            planes are equal in length;
- 9            2.      No plane of a building continues uninterrupted for more than 100 feet;
- 10           3.      At least 60% of all elevations are covered with windows or architectural  
11           decorations;
- 12           4.      The height and mass of the building is correlated to the dimensional aspects of the  
13           parcel proposed for development and to adjacent public and semi-public spaces  
14           such as streets and parks; and
- 15           5.      No mix of use is proposed.

16      As set out on the table on page 2 of the Project Narrative, the proposed *Bay Esplanade Resort*  
17      *Attached Dwellings*, development complies with the required separation criteria.

21      Setbacks and Stepbacks

22      Beach by Design, p. 69, Item D

23      The developer has requested a reduction in the north setback from 15 feet to 10 feet. This  
24      requires a stepback on the east of 10 feet. All other setbacks on the site are at least 10 feet.  
25      Additionally, due to the building height above 35 feet, 7.2 feet will be added to the stepback on  
26      the east. As shown in the drawings, a stepback of 17.2 feet on the east has been accounted for as  
27      required.

28      The Design Guidelines provides that no more than 60 percent of the theoretical maximum  
29      building envelope located above 45 feet will be occupied by a building. As shown on the  
30      architectural plans, the building design complies with this criterion.

1

2 Street Level Facades

3 Beach by Design, p. 72, Item E

4 As illustrated on the Architectural plans, all facades are at a human scale, with strong aesthetic  
5 appeal, and with the transparency envisioned by *Beach by Design*. Parking utilizes landscape  
6 and an aluminum slat system to improve the human scale and aesthetic appeal of the facades as  
7 well as shielding parking from a public street. Goods for sale will not be displayed outside of the  
8 building, and the building entrance features an inviting, well-lit sign that matches the building's  
9 aesthetic

10

11 In particular, there are no overly long runs of structure walls; no unbroken features that dominate  
12 the design; no monolithic structures; no "wall" or "canyon" effects caused by the building; and  
13 no "seas of asphalt," that would tend to make habitants feel out-of-place within the project. All  
14 architectural features are of sizes, shapes, forms, materials and colors that are easy for an average  
15 person to use and with which an average person would be comfortable.

16

17

18 Parking

19 Beach by Design, p. 73, Item F

20 All parking is provided within the principal structure of the resort attached project and there are  
21 no separate parking structures. Interior elements of Level 1 will be as consistent as possible with  
22 the balance of the building recognizing the automobile related function of Level 1.

23

24 There is no parking that is not within the building's footprint

25

26

27 Signage

28 Beach by Design, p. 74, Item G

29 Separate sign applications will be filed with signage design complying with *Beach by Design* in  
30 that it will be creative, unique, simple and discrete.

31

32

1 Sidewalks

2 Beach by Design, p. 74, Item H

3 Sidewalks will be constructed to code on Bay Esplanade and will be landscaped with palm trees,  
4 spaced to a maximum of thirty-five feet (35') on centers, in compliance with the sidewalk  
5 landscaping requirements of *Beach by Design*. Improvements to sidewalks within public rights-  
6 of-way will be constructed to City specifications.

7

8 Street Furniture and Bicycle Racks

9 Beach by Design, p. 75, Item I

10 Because of the location of the project, no street furniture is proposed to be installed on Bay  
11 Esplanade. A bicycle rack is proposed as shown on the site plan.

12

13 Street Lighting

14 Beach by Design, p. 75, Item J

15 Because of the location of the project, not a lot of pedestrian traffic will be present. Nonetheless,  
16 the developer will work with the City and Duke Energy to ensure the provision of street lights  
17 compliant with *Beach by Design*.

18

19 Fountains

20 Beach by Design, p.76, Item K

21 No exterior fountains are proposed on or adjacent to the subject site.

22

23 Materials and Colors

24 Beach by Design, p. 76 Item L

25 The building colors will be muted and are in a coastal theme in accordance with the  
26 recommended color palatte. No bright colors, awnings, glass curtain walls, or street furniture are  
27 proposed.

1 Please refer to sheets A403 & A404 for the proposed exterior building materials and colors.  
2 Proposed sidewalks width of 42" will be implemented as required by *Beach by Design*.

3

4

5 Accordingly, the proposed development of *Bay Esplanade Resor, Attached Dwellings*, both  
6 complies with the design standards of *Beach by Design*, and also affirmatively advances the  
7 goals, objectives and policies of *Beach by Design*.

8

RE: FLD2025-07017 -- 612 BAY ESPLANADE-- Letter of Incompleteness

Dear Sandra Lee Bradbury:

The Planning Staff has entered your application into the Department's filing system and assigned the case number: FLD2025-07017. After a preliminary review of the submitted documents, staff has determined that the application is Incomplete with the following comments.

1. Completeness Review #1

1. The uploaded FLD application is the outdated version, please utilize the copy available on the website which is eleven pages long and has a revision date of May 30, 2025.

**Response: Please see revised/new FLD Application.**

2. Beach by Design - Old Florida, Section II.A.1.c. Maximum Building Heights. Sheets A403-A404, Color Building Elevations, detail that Level 6 begins at 40 feet (DFE), however, Sheet A116 details that Level 6 has two floor areas which are separated by a set of seven stairs and assuming the riser is 7" and tread is 11" would equal a floor height difference of +/-4.08 feet between the upper/lower portions of Level 6. This is not included in the building elevation measurements which also impacts the calculation of the required step-backs. Based on this Level 6 (upper portion) would begin at +/-44.08 feet (DFE) and the proposed building height will exceed 50 feet (DFE) as noted on Sheet C1.1. Revisions are required and must be consistent throughout the entire submittal before the project can move forward.

**Response:** The raised platform at the pool deck is an auxiliary structure which has no impact on the structural level indicated as Level 6. The 40' DFE measures to the top of the structure at this level and the next structural element above is the roof structure at 50' DFE. There is no structure located above the raised deck and as such this has NO IMPACT on the overall height of the building.

3. Beach by Design - Old Florida, Section II.A.2.a.-b. Minimum Required Setbacks. Sheet C1.1, Site Data lists the proposed north setback of 15 feet (Front N/E) and 10 feet (Side S/W) however, Sheet C3.1, Site Plan, shows that there are parking spaces and buffer wall encroaching into the north setback. The proposed front setback along the north elevation is 10 feet and the 5-foot setback reduction impacts the calculation of required step-backs. Revisions are required and must be consistent throughout the entire submittal before the project can move forward.

**Response:** Per the 5' setback reduction along the north property line, 10' have been added to the east step back. All parking spaces and green wall (landscape hedges) are located outside of the front setback along the north elevation.

# CITY OF CLEARWATER

PLANNING & DEVELOPMENT DEPARTMENT  
POST OFFICE BOX 4748, CLEARWATER, FLORIDA 33758-4748  
MUNICIPAL SERVICES BUILDING, 100 SOUTH MYRTLE AVENUE, CLEARWATER, FLORIDA 33756  
TELEPHONE (727) 562-4567 FAX (727) 562-4576

4. Beach by Design - Old Florida, Section II.A.3.a.-f. Required Building Step-backs or Alternative Increased Setbacks for Buildings Exceeding 35 feet in Height. The right-of-way is 60 feet which requires a step-back or setback/height ratio of 1 foot for every 2.5 feet of building height above 35 feet (DFE). Sheet C1.1, Site Data lists maximum proposed height of 50 feet (DFE) and due to the issues raised regarding Level 6, the revised building height of +/-54.08 feet (DFE) would increase the required step-back +/-7.63 feet in addition to the required step-back for the reduced front yard setback of 10 feet along the north property line. Revisions are required and must be consistent throughout the entire submittal before the project can move forward.

**Response:** The step-back is based on the actual height of the finished roof, and as such is consistent with the drawings which show 50'-0" DFE. As noted above in response to paragraph 2, the raised pool deck does not create any change to the height of the roof as there is no structure above the raised portion of Level 6. The setback plus step-back (per ratio of 2.5:1) shall be 16'-0".

5. Beach by Design - Old Florida, Section II.A.4.a.-b. Flexibility of Setbacks/Step-backs for Building in Excess of 35 feet in Height. The proposed building fronts along a right-of-way that runs east and west, as well as north and south. As presently designed the project does not include a setback greater than the minimum required. The maximum setback reduction of 5 feet may be possible if the decreased setback results in an improved site plan, landscaping areas in excess of the minimum required and/or improved design and appearance which has not been addressed in the narrative. Additionally, the setback can be decreased at a rate of 1 foot for every 2 feet in additional step-back. The proposed reduced north setback from 15 feet to 10 feet would require a 10-foot step-back which is in addition to the required step-back of +/-7.63 feet in Section II.A.3, resulting in a required step-back of 17.63 feet. Revisions are required and must be consistent throughout the entire submittal before the project can move forward.

**Response:** Per the 5' setback reduction along the north property line, 10' have been added to the east step back. Step back on east property line to be 16' (10' per north setback reduction; 6' per step back/height ratio 1' for every 2.5' of building above 35'). Also, 5-feet of additional landscape buffer has been provided along the front east elevation. Additionally, please see response to paragraph 4 regarding required step-back per building height.

6. Beach by Design - Old Florida, Section II.A.6.a-b. Landscape Buffers. A 10-foot landscape buffer is required along the north and east property lines. However, the requested front yard setback reduction along the north property line requires that the proposed landscaping must be in excess of the minimum required. This is not detailed in the submitted plans and application. The submittal did not include a Comprehensive Landscaping Program application.

**Response:** 5-feet of additional landscape buffer has been provided along the front east elevation. Refer to sheet A101 Ground Floor Plan.

Section 4-1008 of the Community Development Code states that if an application is deemed incomplete, the deficiencies of the application shall be specified by Staff. No further development review action shall be taken until the deficiencies are corrected and the application is deemed complete. Please re-submit by August 8, 2025, at NOON. Failure to do so will result in the application being withdrawn.

If you have any questions, please do not hesitate to contact me at 727-444-8769 or melissa.hauck-baker@myclearwater.com.

Sincerely yours,

Melissa Hauck-Baker

1.

Completeness Review #2 8-11-25 (TDR2025-07001-Companion)

1. Beach by Design - Old Florida, Section II.A.1.c. Maximum Building Heights.

Permitted maximum building height for attached dwellings is 65 feet (DFE) and the project is proposed at 50 feet (DFE). There are unresolved issues regarding the height. Specifically, the transition between Level 6 and the Pool Deck. Sheet A403, has been revised to show the Pool Deck at 43.5 feet (DFE). However, the proposed floor area of the Pool Deck encroaches 12 feet into the proposed floor area and railing/window for Level 6, this includes the ADA lift. Additionally, the railing/window height on Level 6 does not accommodate the ADA lift or the portion of the Pool Deck where the proposed railing/window height is approximately 5 feet in height. Anyone taller than 5 feet will be able to hang over the side of the railing/window at a height of four stories. Finally, the railing/window height on Level 6 is 8.6 feet in height and is 6.25 feet on the Pool Deck, something here doesn't make sense. Ultimately, these issues may impact the proposed height of the building which is permitted up to 65 feet (DFE) which may also impact the required building stepbacks.

1. *Per our conference Teams call, it was determined that the raised pool deck does NOT increase overall building height. Proposed building height is 50' (DFE). Please refer to sheets A403 & A404.*

2. Beach by Design - Old Florida, Section II.A.2.a.-b. Minimum Required Setbacks.

The required front setback is 15 feet and the side setback is 10 feet. Sheet A101 shows the correct front (north) setback of 10 feet. The proposed side (south) setback was 10 feet and now shows the a parking space encroaching into the setback reducing it to approximately 7 feet. Reduced setbacks directly impact the required stepbacks.

2. *Please refer to revised sheet A101. Parking space has been relocated and is no longer encroaching into the south setback.*

3. Beach by Design - Old Florida, Section II.A.3.a.-f. Required Building Stepbacks or Alternative Increased Setbacks for Buildings Exceeding 35 feet in Height.

The right-of-way is 60 feet which requires a stepback or setback/height ratio of 1 foot for every 2.5 feet of building height above 35 feet (DFE). The current height of 50 feet (DFE) requires a base stepback of 7.5 feet.

3. *Per required setback calculation = 50' - 35' = 15' / 2.5 = 6' has been accounted for and incorporated into the east stepback.*

4. Beach by Design - Old Florida, Section II.A.4.a.-b. Flexibility of Setbacks/Stepbacks for Building in Excess of 35 feet in Height.

The proposed building fronts along a right-of-way that runs east and west, as well as, north and south. As presently designed the project does not include a setback greater than the minimum required. The maximum setback reduction of 5 feet may be possible if the decreased setback results in an improved site plan, landscaping areas in excess of the minimum required and/or improved design and appearance. A setback can be decreased at a rate of 1 foot for every 2 feet in additional stepback. The proposed reduced front (north) setback from 15 feet to 10 feet would require an additional 10-foot stepback for a total required 17.5-foot stepback. The proposed stepback of 16 feet as shown on Sheet A110 is not correct.

Additionally, the proposed reduced side (south) setback from 10 feet to 7 feet would require an additional 6-foot stepback for a total of 23.5 feet.

4. *The north setback reduction from 15' to 10' requires 10' east stepback. 6' will be added (see response narrative #3) for total of 16' east stepback. South setback to stay at 10' so no further additions to stepback required.*

5. Beach by Design - Old Florida, Section II.A.6.a-b. Landscape Buffers.

The reduced setbacks require that the proposed landscaping be in excess of the minimum required. The project does not include increased landscape buffers and the resubmittal did not include a Comprehensive Landscaping Program application.

5. *East landscape buffer has been increased from 10' to 15'.*

Section 4-1008 of the Community Development Code states that if an application is deemed incomplete, the deficiencies of the application shall be specified by Staff. No further development review action shall be taken until the deficiencies are corrected and the application is deemed complete. Please resubmit by September 1, 2025 at NOON. Failure to do so will result in the application being withdrawn.

If you have any questions, please do not hesitate to contact me at 727-444-8769 or melissa.hauck-baker@myclearwater.com.

## **AFFIDAVIT AS TO TRANSFER OF DEVELOPMENT RIGHTS**

Before me, the undersigned authority, personally appeared \_\_\_\_\_, as Officer/Director of CLEARWATER JV II LLC, (Seller) in connection with that certain Purchase and Sale Agreement dated \_\_\_\_\_, 2025, who, after being first duly sworn, deposes and says, under oath:

1. That Affiant is familiar with the sale of the following property (Property): One (1) Resort Attached Dwelling density units on property located at 692 Bay Esplanade, Clearwater, Florida 33767, more fully described in that certain Transfer of Development Rights Application filed with the City of Clearwater Planning Department on or about \_\_\_\_\_, 2025, which is attached hereto as Exhibit A (herein collectively called the Property).
2. That the rights to such Property reflected in the instrument of conveyance have not been previously transferred, assigned or conveyed by Seller to another person or entity.
3. That the Property has not previously been used or exercised by Seller or any other person or entity.

FURTHER AFFIANT SAYETH NOT.

CLEARWATER JV II LLC,  
BY \_\_\_\_\_  
Its \_\_\_\_\_

STATE OF FLORIDA  
COUNTY OF \_\_\_\_\_

The foregoing instrument was acknowledged  
before me this \_\_\_\_\_ day of 2025, by

who is personally known to me or who has  
produced a \_\_\_\_\_  
as identification and who did take an oath.

\_\_\_\_\_  
Notary Public

My Commission Expires:

## **PURCHASE AND SALE AGREEMENT**

**THIS PURCHASE AND SALE AGREEMENT** (this “Agreement”) is made by and between **OGAND, LLC**, a New York limited liability company, (“Purchaser”), and **CLEARWATER JV II LLC**, a Florida limited liability company, (“Seller”).

In consideration of the mutual covenants and representations herein contained, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller and Purchaser agree as follows:

### **ARTICLE 1 PURCHASE AND SALE**

1. **Purchase, Sale, and Transfer of Development Rights.** Subject to the terms and conditions of this Agreement, Seller hereby agrees to sell and convey to Purchaser, and Purchaser hereby agrees to purchase from Seller, the Seller’s assignable and transferable right, title and interest in one (1) Resort Attached Dwelling density unit on property located at 692 Bay Esplanade, Clearwater, Florida, more fully described in that certain Transfer of Development Rights Application to be filed with the City of Clearwater Planning Department on or about July 31, 2025, which is attached hereto as Exhibit “A” (herein collectively called the “Property”).

### **ARTICLE 2 PURCHASE PRICE**

2. **Purchase Price.** The purchase price (the “Purchase Price”) for the Property shall be TEN AND NO/100 DOLLARS (\$10.00) and shall be paid in cash by Purchaser to Seller at the Closing (as defined herein) by hand.

### **ARTICLE 3 CONDITIONS TO CLOSING**

3. Purchaser and Seller shall have the right to terminate this Agreement after the Purchaser’s appeal of a denial of that certain Transfer of Development Rights Application and/or that certain Flexible Development Application which is attached hereto as Exhibit “A” has been resolved or after the Purchaser, the City, or any interested party’s right to appeal has expired. Seller shall have the right to terminate this agreement in the event the Purchaser does not close on the sale of the transferred development rights per the terms of this Agreement. Purchaser shall have the right to terminate this Agreement in the event it does not close on the purchase of the property located at 612 Bay Esplanade (the “Receiving Site”) and does not take title to the Receiving Site.

### **ARTICLE 4 CLOSING**

**4.1     Closing.** The Closing (the “Closing”) shall be held at the office of the Seller on or before ten (10) calendar days following the City of Clearwater’s non-appealable approval of the Transfer of Development Rights Application attached hereto as Exhibit “A” (the “Closing Date”) and the Purchaser’s closing on and taking title to the Receiving Site, unless the parties mutually agree in writing upon another place, time or date.

**4.2     Seller’s Obligations at the Closing.** At the Closing, Seller shall deliver to Purchaser or the Title Company the following:

- (a) Evidence of Authority. Such organizational and authorizing documents of Seller as shall be reasonably required to evidence Seller’s authority to consummate the transactions contemplated by this Agreement.
- (b) Assignment and Assumption of Development Rights. An Assignment and Assumption of the Property as more fully described in Exhibit “A.”

**4.3     Purchaser’s Obligations at the Closing.** At the Closing, Purchaser shall deliver to Seller the following:

- (a) Purchase Price. The Purchase Price in cash.
- (b) Assignment. The Assignment executed by Purchaser.
- (c) Evidence of Authority. Such organizational and authorizing documents of Purchaser as shall be reasonably required to evidence Purchaser’s authority to consummate the transactions contemplated by this Agreement.

## **ARTICLE 5** **MISCELLANEOUS**

**5.1     Notices.** All notices, demands and requests which may be given or which are required to be given by either party to the other, and any exercise of a right of termination provided by this Agreement, shall be in writing and shall be deemed effective either:

- (a) on the date personally delivered to the address below, as evidenced by written receipt therefor, whether or not actually received by the person to whom addressed;
- (b) on the third (3<sup>rd</sup>) business day after being sent, by certified or registered mail, return receipt requested, addressed to the intended recipient at the address specified below;
- (c) on the first (1<sup>st</sup>) business day after being deposited into the custody of a nationally recognized overnight delivery service such as Federal Express Corporation or UPS, addressed to such party at the address specified below; or
- (d) on the date delivered via electronic mail to the electronic mail address below, as evidenced by printed confirmation with the successful electronic transmission of the message.

For purposes of this Section 5.1, the addresses of the parties for all notices are as follows

(unless changed by similar notice in writing given by the particular person whose address is to be changed):

To Purchaser:           OGDAN, LLC  
                          47 05 104<sup>th</sup> Street  
                          CORONA, NY, 11368

To Seller:              CLEARWATER JV II LLC  
                          5391 LAKEWOOD RANCH BLVD STE 100  
                          SARASOTA FL 34240-8622

**5.2   Entire Agreement.** This Agreement embodies the entire agreement between the parties relative to the subject matter hereof, and there are no oral or written agreements between the parties, nor any representations made by either party relative to the subject matter hereof, which are not expressly set forth herein.

**5.3   Amendment.** This Agreement may be amended only by a written instrument executed by the party or parties to be bound thereby.

**5.4   Headings.** The captions and headings used in this Agreement are for convenience only and do not in any way limit, amplify, or otherwise modify the provisions of this Agreement.

**5.5   Time of Essence.** Time is of the essence of this Agreement; however, if the final date of any period which is set out in any provision of this Agreement falls on a Saturday, Sunday or legal holiday under the laws of the United States or the State of Florida, then, in such event, the time of such period shall be extended to the next day which is not a Saturday, Sunday or legal holiday.

**5.6   Governing Law.** This Agreement shall be governed by the laws of the State of Florida and the laws of the United States pertaining to transactions in such State.

**5.7   Successors and Assigns and Assignment.** This Agreement shall bind and inure to the benefit of Seller and Purchaser and their respective heirs, executors, administrators, personal and legal representatives, successors and permitted assigns. Purchaser shall not assign Purchaser's rights under this Agreement without the prior written consent of Seller except to an entity owned and controlled by Purchaser or its principals.

**5.8   Invalid Provision.** If any provision of this Agreement is held to be illegal, invalid or unenforceable under present or future laws, such provision shall be fully severable; this Agreement shall be construed and enforced as if such illegal, invalid or unenforceable provision had never comprised a part of this Agreement; and, the remaining provisions of this Agreement shall remain in full force and effect and shall not be affected by such illegal, invalid, or unenforceable provision or by its severance from this Agreement.

**5.9 Attorneys' Fees.** In the event it becomes necessary for either party hereto to file suit to enforce this Agreement or any provision contained herein, the party prevailing in such suit shall be entitled to recover, in addition to all other remedies or damages, as provided herein, reasonable attorneys' fees incurred in such suit.

**5.10 No Broker or Agent.** No broker, finder, agent or similar intermediary has acted for or on behalf of either Party in connection with this Agreement or the transactions contemplated hereby, and no broker, finder, agent or similar intermediary is entitled to any broker's, finder's or similar fee or other commission in connection therewith based on any agreement, arrangement or understanding with either Party or any action taken by either Party.

**5.11 Multiple Counterparts.** This Agreement may be executed in a number of identical counterparts which, taken together, shall constitute collectively one (1) agreement; in making proof of this Agreement, it shall not be necessary to produce or account for more than one such counterpart with each party's signature.

**5.12 Effective Date.** As used herein the term "Effective Date" shall mean the last date either party executes this Agreement, not including the title company (whether in counterparts or not).

**5.13 No Recordation.** Seller and Purchaser hereby acknowledge that neither this Agreement nor any memorandum or affidavit thereof shall be recorded of public record in Pinellas County, Florida, or any other county. Should Purchaser ever record or attempt to record this Agreement, or a memorandum or affidavit thereof, or any other similar document, then, notwithstanding anything herein to the contrary, said recordation or attempt at recordation shall constitute a default by Purchaser hereunder, and, in addition to the other remedies provided for herein, Seller shall have the express right to terminate this Agreement by filing a notice of said termination in the county in which the land is located.

**5.14 Merger Provision.** Except as otherwise expressly provided herein, any and all rights of action of Purchaser for any breach by Seller of any representation, warranty or covenant contained in this Agreement shall merge with the Assignment and other instruments executed at Closing, shall terminate at Closing and shall not survive Closing.

**5.15 Jury Waiver.** To the extent permitted by applicable law, purchaser and seller do hereby knowingly, voluntarily and intentionally waive their right to a trial by jury in respect of any litigation based hereon, or arising out of, or under or in connection with this agreement, the documents delivered by purchaser at closing or seller at closing, or any course of conduct, course of dealings, statements (whether verbal or written) or any actions of either party arising out of or related in any manner with this agreement or the property (including without limitation, any action to rescind or cancel this agreement and any claims or defenses asserting that this agreement was fraudulently induced or is otherwise void or voidable). This waiver is a material inducement for seller to enter into and accept this agreement and the documents delivered by

purchaser at closing and shall survive the closing or termination of this agreement.

## 2024 Tax Information

 Do not rely on current taxes as an estimate following a change in ownership. A significant change in taxable value may occur after a transfer due to a loss of exemptions, reset of the Save Our Homes or 10% Cap, and/or market conditions. Please use our **Tax Estimator** to estimate taxes under new ownership.

ARE AFFIXED HERETO.

**WARRANTY DEED**

**This Warranty Deed** made this 15th day of March, 2022, by and between **Sunset Cottages, LLC**, a **Florida limited liability company**, whose address is 501 Mandalay Ave., #303, Clearwater, Florida 33763, hereinafter called the "Grantor", and **Clearwater JV II, LLC**, a **Florida limited liability company**, whose address is 5391 Lakewood Ranch Blvd., Suite 100, Sarasota, Florida 34240, hereinafter called the "Grantee", for the Grantor's undivided interest in the property described below:

(Whenever used herein the terms "Grantor" and "Grantee" include all parties in this instrument and their heirs, legal representatives and assigns of individuals, and the successors and assigns of corporations, trusts, and trustees).

**WITNESSETH**, that the Grantor, for and in consideration of the sum of Ten and 00/100 Dollars (\$10.00) and other valuable consideration, receipt whereof is hereby acknowledged, hereby grants, bargains, sells, conveys, remises, releases, and transfers unto the Grantee, all of its interest the following described property situate in Sarasota County, Florida (the "Property") to wit:

**SEE EXHIBIT "A" ATTACHED HERETO.**

**Parcel ID: 05-29-15-54756-083-0010**

**SUBJECT TO** valid reservations, restrictions, and easements of record.

**TOGETHER** with all the tenements, hereditaments, and appurtenances thereto belonging or in anywise appertaining.

**TO HAVE AND TO HOLD** the same in fee simple forever.

**AND** the Grantor hereby covenants with the Grantee that the Grantor is lawfully seized of the Property in fee simple; that the Grantor has good right and lawful authority to sell and convey the Property, and hereby warrants that title to the Property and will defend the same against the lawful claims of all persons whomsoever; and that the Property is free of all encumbrances, except taxes accruing subsequent to December 31, 2021.

IN WITNESS WHEREOF, the Grantor has signed and sealed these presents the day and year first above written.

Signed, sealed, and delivered in our presence:
