

**CITY OF CLEARWATER/CGS ENERGY**  
**DEVELOPER AGREEMENT FOR NATURAL GAS DISTRIBUTION SERVICE**

This Agreement is entered into this \_\_\_\_ day of February, 2026 between the City of Clearwater, Florida, a municipal corporation organized and existing under the laws of the State of Florida, d/b/a CGS Energy, hereinafter called "CGS" and JEN Tampa 14, LLC a Florida Limited Liability company, hereinafter called the "DEVELOPER".

RECITALS

A. DEVELOPER is developing land for sale and plans to include, among other things, approximately one-hundred and thirty-nine (139) platted lots for single family homes (the "Project") to be known as Soleta at Starkey Ranch located in Pasco County, Florida, as more particularly described in Exhibit "A" attached hereto and incorporated herein, and as will be recorded in the Official Records of the Clerk of the Circuit Court, Pasco County, Florida.

B. DEVELOPER, for itself and on behalf of the future owners of residences in the Project, desires to have natural gas service available within the Project.

C. CGS desires to install a natural gas distribution system within the Project, at its expense, upon completion of and final approval of CGS'S feasibility report and DEVELOPER has agreed to engage CGS to install such a system within the Project, pursuant to the terms and conditions hereinafter set forth.

NOW, THEREFORE, in consideration of the mutual covenants set forth herein, and for other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, CGS and DEVELOPER hereby agree as follows.

1. Recitals. The foregoing Recitals are true and correct and are incorporated in and form a part of this Agreement.

2. Gas Distribution System.

21 Installation of Gas Distribution System. CGS agrees to design and install a natural gas distribution system within the Project, including all necessary distribution lines, meters and ancillary facilities (collectively, the "System") necessary to provide natural gas service up to the meter of each residence constructed during the term of this Agreement as a Gas Compliant Residence in conformity with Section 3. The design of the System shall be subject to DEVELOPER's review and approval prior to CGS's commencement of construction thereof, for purposes of integration of the System into the Project. CGS shall control design of the System for gas operations purposes. The System does not include any facilities past the meter and CGS has no obligation to install or maintain such "behind the meter" facilities. DEVELOPER and CGS agree to reasonably cooperate with respect to the design and construction of the Project infrastructure, including without limitation, the System. Such cooperation shall include, without

limitation, providing responses to requests for information required for development permits, plat approvals, and similar authorizations within fourteen (14) days of either parties' receipt of a request for any such information from the other party. The parties agree to use all commercially reasonable efforts to cause the System to be designed and constructed in coordination with the other Project infrastructure, so that (i) commencement of construction of the System can commence in concert with the commencement of construction of the other Project infrastructure; and (ii) each phase of System can be completed simultaneous with completion of the other infrastructure located within the same phase of the Project.

22           Preparation for Installation and Easements. DEVELOPER represents that it owns and has legal title to the real property on which the Project will be constructed and has the authority to develop the Project and to enter into this Agreement. DEVELOPER shall provide or cause to be provided to CGS, and its employees, agents and subcontractors, adequate physical and legal access including recorded, assignable non-exclusive easements and/or rights of way to all reasonably necessary areas of the Project in substantially the form attached hereto and incorporated herein as Exhibit "B", and/or by recorded, platted easements, all as reasonably necessary for the installation, operation, maintenance, repair and replacement of the System. With respect to such easements, DEVELOPER shall secure the consent and joinder of all necessary parties.

DEVELOPER reserves the right to relocate any easement made available hereunder if necessary for the development of the Project, provided that construction of the portion of the System subject to any such relocated easement has not yet been commenced, and suitable easements and access for the System to all portions of the Project are maintained and provided. In the event that DEVELOPER desires to modify any easement relating to any portion of the System after installation, then DEVELOPER must obtain CGS'S advance written consent to any easement modification, such consent not to be unreasonably withheld, and DEVELOPER shall reimburse CGS for design, materials, construction and other costs associated with any relocation of the System and shall provide reasonably acceptable substitute easements.

23           Installation Schedule. CGS agrees to cooperate with DEVELOPER with respect to the construction of the System and to use commercially reasonable efforts to minimize interference with DEVELOPER'S construction of the Project. If so requested, CGS shall furnish System plans, excepting any proprietary information, to DEVELOPER. DEVELOPER agrees to establish and reasonably manage a Project construction schedule that provides CGS with reasonably sufficient time and access to construct the System within the Project.

24           Ownership of Gas Distribution System. The components of the System located on the supply side of each gas meter (and including each such meter) shall remain the exclusive property of CGS at all times during and following the expiration or earlier termination of this Agreement. CGS'S operation of the System is not governed by the terms of this Agreement; rather, CGS shall operate the System in accordance with the City of Clearwater's Code of Ordinances, City policy and the requirements of applicable regulations and law. In the event the Project is not completed and/or the gas facilities and service are for any reason abandoned by DEVELOPER or its successors, and the System, or any part thereof, is no longer required to serve the Project, CGS may at its election remove readily removable, non-essential components of the System, purge and cap any components to be left in place, and restore any disrupted surface areas of the Project.

3. Gas Appliance Requirements. In recognition of the substantial investment made by CGS in constructing the System, DEVELOPER agrees that eighty percent (80%) of the homes in the Project will be built with a gas water heater or gas home heating system, and a secondary gas appliance (“Gas Compliant Residences”). In consideration of DEVELOPER constructing the Gas Compliant Residences, DEVELOPER will be entitled to an Energy Conservation Allowance as defined and provided for in paragraph 4. DEVELOPER agrees that each "MODEL" residence in the Project will be a Gas Compliant Residence. These appliances must be connected or have the necessary gas piping to connect to the appliance at the time the Certificate of Occupancy is issued. Further, DEVELOPER agrees to make a reasonable effort to utilize natural gas and natural gas appliances and equipment in common areas of the Project such as community club houses, community fitness centers, community pools, street lamps, community laundries and central water heating systems. Additionally, DEVELOPER agrees to make a reasonable effort to require natural gas for any commercial portions of the Project where economically feasible and as applicable.

4. Energy Conservation Allowance. DEVELOPER may be entitled to Energy Conservation Allowance payments for each home constructed in the Project that meets the requirements of CGS Energy Conservation Allowance Program (the “Program”), as may be amended from time to time by the Clearwater City Council. A summary of the allowance payments presently allowed under the Program is attached hereto as Exhibit “C”. In the event the Clearwater City Council rules or otherwise determines that the energy conservation allowance payments referenced above, or any portion thereof, may not be recovered by CGS through the Energy Conservation Adjustment, or that the entitlements under the Program shall be changed, then CGS’S obligation to thereafter make said allowance payments will be bound by such City Council directive and, as such, said allowance payments shall be adjusted to conform to such Council directive or terminate, as applicable, upon completion of construction of any homes then under construction in the Project (which homes shall remain eligible for allowance payments without such adjustment). During the term of this Agreement, CGS shall have the right to inspect any residence for which a claim for an allowance has been made, at reasonable times and upon notice to DEVELOPER and the applicable landowner. DEVELOPER shall be entitled to the Energy Conservation Allowance upon verification that the requirements of each Gas Compliant Residence have been met and a Certificate of Occupancy has been issued for that Residence.

5. Insurance Requirements for City/CGS: The City/CGS shall, at its own cost and expense, acquire and maintain during the term with the Developer, through self-insurance, insurance, and/or excess insurance, sufficient insurance to adequately protect the respective interest of the parties. Purchased insurance coverage shall be obtained with a carrier having an AM Best Rating of A-VII or better.

10. Failure to Meet the Minimum. DEVELOPER acknowledges that CGS is making a substantial investment in installing the System as provided in this Agreement. In the event DEVELOPER fails to construct at least eighty percent (80%) of the residences (residences) of the Project as Gas Compliant Residences, CGS will suffer substantial damages that will be difficult to ascertain. DEVELOPER therefore agrees to pay to CGS liquidated damages as set forth below to partially compensate CGS for DEVELOPER'S failure to meet its obligation hereunder. Accordingly, if the DEVELOPER fails to complete the minimum percentage of the Gas Compliant Residences during the Term of this Agreement; then, DEVELOPER shall pay to CGS liquidated damages in the amount of three-thousand five-hundred and thirty-two dollars (\$3,532.00) for each residence below the minimum eighty percent (80%) requirement.

Whenever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under applicable law, but if any provision of this Agreement or the application thereof to any party hereto or circumstance is prohibited by or invalid under applicable law, that provision shall be effective only to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement or the application of the same. This Agreement may be executed in any number of counterparts, and all the counterparts taken together shall be deemed to constitute one (1) and the same instrument.
