BOARD QUESTIONNAIRE

1. What is your understanding of the board's duties and responsibilities? The Board provides guidance to Council for remediation and redevelopment of abandoned vacant sites that were previously used for industrial uses. Redevelopment of brownfield sites provides a benefit to public health, the environment and economic development in the City.

2. Have you ever observed a board meeting either in person or on C-View, the City's TV station?

No.

3. What background and/or qualifications do you have that you feel would qualify you to serve on this Board?

During my time as City Planner for the City of Charles Town, WV, I assisted with the Charles Town & Ranson WV brownfield redevelopment projects in the Commerce Corridor project. This project received a Phoenix Award at the 2013 Brownfields Conference. I prepared the staff reports and recommendations for the Planning Commission and Board of Zoning Appeals meetings that were required for the review and approval of the project's first major redevelopment, a 40,000 ft² academic center for American Public University Systems.

4. Why do you want to serve on this Board?

I see the importance of remediating former brownfield sites because it is the right thing to do for public health and the environment. The economic benefits that can result from remediation and subsequent redevelopment of these sites can be great for the economy of the local community.
