LEGISLATIVE SRVCS DEPT**

## BOARD QUESTIONNAIRE

### 1. What is your understanding of the board's duties and responsibilities?

It is my understanding that the advisory board reviews Brownfield related activities and provides planning and decision making regarding projects in Brownfield designated areas of the City. The Board also submits Brownfield-related proposals and projects to the City Council.

### 2. Have you ever observed a board meeting either in person or on C-View, the City's TV station?

Yes, I have.

### 3. What background and/or qualifications do you have that you feel would qualify you to serve on this Board?

I am an environmental geologist by profession and I am currently employed as an Environmental Specialist for the City of Clearwater. I have performed a variety of professional services for several Brownfield sites in Florida.

---

### 4. Why do you want to serve on this Board?

I believe that the Brownfields Program is a great way to redevelop and use sites that have been abandoned or may be being underused due to past history. It is also an effective way to remedy contaminated sites for future uses.

---
