**EXHIBIT A**  
**Capital Project Scope of Work**  
**Clearwater Beach Municipal Marina**

The Clearwater Beach Municipal Marina Replacement Project will replace the existing, deteriorating timber docks and associated utilities with a reconfigured and expanded footprint. This new design will make the marina fully ADA accessible and provide easy access to other attractions on Clearwater Beach. It will improve pedestrian flow and make the Clearwater Beach Municipal Marina a walkable destination and attraction for our visitors that more cleanly ties into Clearwater Beachwalk.

The following improvements are some of the major improvements that are part of this Project:

- Replacement of the existing fixed dock marina with a combination of fixed docks for the commercial slips and floating docks for the recreational, transient, fuel, and ferry slips.
- Replacement of the overwater marina utilities (water, sewer, fire water, electrical, fuel) with code-compliant utilities serving the needs of modern recreational vessels.
- Seawall replacement along the west and north sides of marina basin and raising the seawall to be above the City's minimum seawall elevation of +5.12' NAVD (+6.0' NGVD, MSL).
- 5,300 cubic yards of maintenance dredging.
- Sidewalk replacement and improvements along the northern and eastern edge of the marina property with landscaping, hardscaping, and lighting to activate "Marina Walk" – a pedestrian-friendly waterfront promenade that extends the full length of the marina's northern and western shoreline, connecting Beach Walk to the restaurants and retail along the marina property, the commercial boating operations, and the Memorial Causeway Bike Trail and bridge underpass at Mandalay Channel.
- Relocation of the existing overwater kiosks for the commercial fleet to the uplands in a plaza-type setting.
- The creation of a plaza to support the kiosk operations and to reduce sidewalk congestion requires the reduction of 38 parking spaces within the existing marina parking lot.
- In a separate project, the City of Clearwater intends to build a parking garage to support the commercial operations parking needs and upland support needs at an estimated expense of \$36mm.
- Replacement of the existing over-water fuel office building with a floating building of equivalent size.
- ADA compliant docks in accordance with the Florida Building Code for Accessibility and the ADA Guidelines for Recreational boating facilities.
