### *SCULPTURE PROPOSAL*

## ABOUT MGA

MGA Sculpture Studio is Mark Aeling's studio located within the Warehouse Arts District of St Petersburg, Florida. For the last 25 years, MGA has been making large-scale art for the public to freely enjoy.

Driven by the process of investigation and inspired by patterns in nature, the spatial relationship of elements, and even a play on words, Aeling creates elegant works of art that are both sophisticated and visually stimulating. His work is a mixture of style and structure that challenges the mundane and superficial. His contemporary style explores themes of community, culture, and the natural world, while nudging the viewer's imagination toward its own discoveries.

All of MGA's work is done in-house, from design to fabrication to install. This means MGA can deliver exactly what is promised, on-time and within budget, all while supporting a staff of 8 full time artists and fabricators.

## RECENT WORKS

**ACUMEN**

**NURTURE**

2021

*Altamonte Springs, FL*

**ILLUMINATION**

2021

*Northglenn, CO*

## SCULPTURE CONCEPTS - “RADIANT LOOP”

Suspended in air, Radiant Loop captures the eternal flow of light and motion. Its golden form reflects both the continuity of civic life and the boundless horizon of Clearwater—where sky and sea meet in constant renewal. Like the shifting play of light across water, the sculpture is never static; it changes as you move, revealing new perspectives within its infinite curve. Radiant Loop becomes a beacon of clarity and optimism, a reminder that the work of community is ongoing, luminous, and without end.

## DIMENSIONS

LONGER SIZE ---- **4' x 3' x 15.5'**

WIDER SIZE ---- **6' x 4' x 12'**

## MATERIAL

Frosted Acrylic w/ Gold leaf edge, as seen in below sample of a piece currently in fabrication for Miami University in Dayton, Ohio.
