Note to Applicants: Applicants who have submitted one application will have three minutes to present and applicants with multiple applications will have five minutes to present. One minute for questions and answers is built into the schedule for each applicant although Q & A timing may vary which may throw us off schedule as the meeting advances. This schedule has been prepared so applicants do not need to be in the meeting room the entire time and will help us to maintain social distancing standards. If you are called prior to your scheduled time and you are not present, you will be called upon to present later during the meeting.
