What are we buying?

Renewal and combining current contracts into one

1. Renewal - combined Quote SmartCover & SmartCare \$203,374.64
2. SmartCover & SmartCare – continued Labor warranty, using SmartCare service: system troubleshooting and routine maintenance of all installed SmartCover systems in manhole of the gravity system. for two years.
3. Potential 30 new SmartCover subsonic system components -System parts warranty 1-year, extended parts warranty 1-year, power pack warranty 2-year, active site management 2-year, smartrain ASM 2-year, installation & labor, labor warranty prorated, & shipping cost. (quoted Cost \$235,024.00)

How do you intend to use the product/service?

1. SmartCover Continue provided coverage for the online application of mapping and monitoring services of at live condition, continued notifications of prevention of SSO overflows
2. Each SmartCare unit installed - System troubleshooting, routine proactive maintenance and adjustments, parts and battery replacement and disposal, quick response from vendor to make necessary repairs.
3. Potential purchase 30 SmartCover units - Public Utilities will utilize these new units to monitor the wastewater collection systems through using these unit placed with manholes to measure sewage level heights to send alert when sanitary sewer overflows (SSO) may be developing prior to the actual occurrence of spill and regulatory impacts.

Estimated cost/timeframe?

\$203,374.64 02-01-2026 through 01-31-2028 / 30 potential new units \$235,024.00

What is the benefit for the agency/city/public?

SmartCover System provides Public Utilities with water levels and or flow data in the sewer collection system. These new units will assist in being able to prevent SSO (sanitary sewer overflow) in a proactive way rather than Reactive of cleanup after the fact of SSO spills. This will protect the public's health and reduce the potential for regulatory violations and fines. Data is collected and transmitted via satellite network by providing 24-hour user access.

PUBLIC UTILITIES REQUISITION REQUEST FORM

What about this vendor making them a single source?

Hadronex Inc. DBA SmartCover System are the only manufacturers that provide equipment and services of this kind, especially targeted to you and design for the wastewater utilities industry utilizing satellite radio data transmission for live data transmitting. Public utilities currently use these services.

What is unique about the product?

Currently in use by Public Utilities, providing Monitoring services, maintenance from vendor of site locations, maintain constant system uptime and for repairs to units.

Is there an alternative available?

No, the system is protected by registered trademarks and international patents.

If so, why is not acceptable?
