

## City of Clearwater, FL

# FY 2024 Solid Waste & Recycling Revenue Sufficiency Analysis – Final Report

August 20, 2024

August 20, 2024

Mr. Jay Ravins  
Finance Director  
City of Clearwater  
100 S. Myrtle Avenue  
Clearwater, FL 33756

Re: FY 2024 Solid Waste & Recycling  
Revenue Sufficiency Analysis – Final  
Report

Dear Mr. Ravins,

Stantec Consulting Services Inc. is pleased to present this Final Report of the FY 2024 Solid Waste & Recycling Revenue Sufficiency Analysis that we have completed for the City of Clearwater, Florida (City) and its Solid Waste/Recycling Department. We appreciate the excellent assistance provided by you and all the members of City staff who participated in this Study.

If you or others at the City have any questions, please do not hesitate to call me at (813) 269-6010 or reach me by email at [leticia.doohaluk@stantec.com](mailto:leticia.doohaluk@stantec.com). We appreciate the opportunity to be of service to the City and look forward to working with you again in the near future.

Sincerely,

*Leticia Doohaluk*

# 1. INTRODUCTION

Stantec Consulting Services Inc. (Stantec) has conducted the FY 2024 Solid Waste & Recycling Revenue Sufficiency Analysis (RSA) for the City of Clearwater's Solid Waste and Recycling Enterprise Fund (Utility or Fund). This report describes the objectives, data, and assumptions, as well as the conclusions and recommendations of the RSA.

## 1.1 BACKGROUND

The City regularly retains Stantec to evaluate the sufficiency of the revenues provided by the City's current solid waste and recycling charges to meet the projected cost requirements of the Utility. In 2019, Stantec completed a Revenue Sufficiency Analysis update to the FY 2017 RSA. The FY 2019 RSA recommended annual rate adjustments of 3.75%, which were approved by City Council as a 5-year plan of annual rate increases through FY 2024. In the spring of 2021, Stantec completed the FY 2021 RSA, which confirmed the adequacy of the 3.75% increase thru FY 2024.

In the spring of 2024, after the last 3.75% rate increase was implemented, the City again engaged Stantec to perform a new revenue sufficiency analysis and identify a new level of multi-year rate adjustments that will meet projected cost requirements of the Solid Waste & Recycling Utility.

## 1.2 OBJECTIVES

The principal objectives of this FY 2024 RSA Study were as follows:

**Conduct a Revenue Sufficiency Analysis** – To evaluate the sufficiency of current solid waste and recycling service revenues to generate the level of revenues necessary to satisfy the Utility's projected requirements through FY 2034, including 1) operating expenses, 2) capital improvement program (CIP) costs and 3) adequate operating reserves; and develop a level plan of future rate revenue adjustments that will satisfy these projected requirements during each year of the 5-year planning period and the 10-year forecast.

**Conduct a Residential Solid Waste and Recycling Fee Survey** – That compares the City's residential monthly solid waste and recycling fees to other solid waste and recycling services in the City's surrounding geographic area.

## 2. REVENUE SUFFICIENCY ANALYSIS

This section presents the financial management plan developed and described herein, which includes the source data and assumptions, as well as conclusions and recommendations of the RSA. The Appendix includes detailed supporting schedules regarding the financial management plan presented in this report.

### 2.1 SOURCE DATA & ASSUMPTIONS

The following key assumptions were relied upon for the purposes of this analysis:

#### 2.1.1 Beginning Fund Balances

The FY 2023 Comprehensive Annual Financial Report Statement of Net Position and supporting trial balance schedules provided by City staff were used to establish the beginning FY 2024 fund balances of the Fund as of October 1, 2023. It is important to note that funds reserved or encumbered for specific capital projects were included in the beginning fund balances and the associated capital project costs were also included in the capital improvement program.

#### 2.1.2 Revenues

Fund revenues consist of solid waste and recycling service revenues, miscellaneous operating revenues, other non-operating revenues, and interest earnings.

FY 2024 projected solid waste and recycling revenues reflect the average of FY 2022 and FY 2023 receipts, adjusted for a 3.75% rate increase effective at the beginning of FY 2024 (10/1/2023) and an assumed change in accounts. However, FY 2024 projected recycling revenues reflect only 6 months of revenues (April 2024 thru September 2024), because recycling fees were waived for October 2023 thru March 2024, per direction of City Council. As such, recycling revenues for FY 2025 reflect a one-time adjustment to include a full 12 months of revenues. Each year thereafter, both solid waste and recycling fee revenues are adjusted per assumed annual rate increases as presented on Schedules 3 and 7 of the Appendix and projected change in accounts presented on Schedules 1 and 3 of the Appendix.

The FY 2024 Budget serves as the basis for most other operating and non-operating revenue projections with a few exceptions. Contractor collect fee revenues are directly correlated with roll-off revenues per discussion with staff. As such, the projection of contractor collect fees are adjusted annually based on assumed annual changes in roll-off accounts as presented on Schedule 1 of the Appendix. Moreover, the commercial sale of recyclables includes revenues from cardboards and metals, both of which experience large variability in pricing. As such, revenues reflect guidance provided by City staff.

### 2.1.3 Interest Earnings

Annual interest earnings in each year of the projection were calculated based upon projected average annual fund balances and assumed annual interest rates. Projected annual fund balances include funds dedicated to capital improvements. Interest rate assumptions were provided by City staff and reflect a rate of 2.25% in FY 2024 thru the remainder of the projection period. Annual projected interest earnings are presented in Schedule 3 of the Appendix

### 2.1.4 Operating Expenditures

The Fund's operating expenditures include all operating and maintenance (O&M) expenses, debt service on the lease purchase program, interim financing costs, and inter-fund transfers, including payment in lieu of taxes (PILOT). The RSA based the operating expenditure projections on the individual expense categories and amounts contained in the FY 2024 Budget. Starting in FY 2025, each expense line item is adjusted annually based upon assumed future cost escalation factors discussed in Section 2.1.5 of this report. A complete list of all projected operating expenditures is presented in Schedule 4 of the Appendix.

### 2.1.5 Cost Escalation

Annual cost escalation factors for the various types of operating expenses were developed in collaboration with City staff. In general, all of the operating expenses, with the exception of pension plan expenditures, are projected to track with overall inflation patterns, and most other expenditure line items are projected to increase at annual rates of 3.00% to 8.00%. The employee pension plan expenditures are calculated as a percentage of salaries and wages in each year. The specific escalation factors assumed for the various categories of expenses are presented on Schedule 5 of the Appendix.

### 2.1.6 Payment in Lieu of Taxes (PILOT)

The FY 2024 payment in lieu of taxes reflects the FY 2024 Budget as provided by City staff. Per City policy, the annual calculation of PILOT is based upon 5.5% of the prior year's audited total operating revenues. Given a delay in audited results, these transfers are calculated based on a two fiscal year lag. Thus, FY 2025 reflects 5.5% of actual FY 2023 operating revenues, FY 2026 reflects 5.5% of FY 2024 projected operating revenue, FY 2027 reflects 5.5% of FY 2025 projected operating revenues, so on and so forth through the projection period. The total annual payments allocated by the department are presented in Schedule 4 of the Appendix.

### 2.1.7 Pinellas County Dumping Fee

The waste collected by the City and throughout the City is dumped, or tipped, at the Pinellas County Solid Waste Facility (PCSW) and the County charges the City a dump/tip fee per ton to receive that waste. In FY 2021, the County adopted a 6.00% annual increase to its tipping fee, effective through FY 2023. Per discussion with staff, latest guidance provided by the County to City staff, and current market dynamics

around the costs of operating waste disposal sites, as well as increased global concern with waste disposal and its impacts on the environment, the analysis assumes that annual adjustment will increase be 7.8% in FY 2025 and 2026 and 8.00% in FY 2027, continuing at that level throughout the remainder of the projection period. Notably, these charges represent approximately 20% of the Utility's O&M expenses in FY 2024.

### **2.1.8 Transfer Station Upgrade**

The City's solid waste transfer station upgrade was completed in FY2020. The City received interim financing for the transfer station upgrade that requires an annual interim financing repayment of \$396,810 for ten years, which began in FY 2019. These payments are reflected in the financial management plan ending after FY 2028 and can be found in Schedule 4 of the Appendix.

### **2.1.9 Capital Improvement Program**

The Capital Improvement Program (CIP) was provided by City staff through FY 2030. The CIP includes a Solid Waste Admin Complex Rebuild project, as well as other ongoing renewal and replacement projects. Starting in FY 2031 this analysis assumes a recurring level of ongoing renewal and replacement needs based on input from City staff. In total, the assumed CIP spending for FY 2024 through FY 2034 is approximately \$28.2 million (in current day dollars). It is important to note that starting in FY 2025, the RSA includes an annual cost inflation factor of 3.0% applied to the CIP project costs to account for the inflation in the future cost of construction. A full list of the cash funded capital projects is presented on Schedule 6 of the Appendix.

### **2.1.10 Customer Growth**

Customer growth projections (future expectations) were based upon a review of historical data and input from City staff. For purposes of this analysis, the City believes that the service area is built out and the potential for new solid waste and recycling accounts is rather limited. As such, an assumption of 0.10% growth in accounts each year was applied to solid waste and recycling services thru FY 2028.

In addition to solid waste and recycling, the City's fee revenues include roll-off service revenues. In the last three to five years, the Fund experienced a high demand for roll-off services as large development projects throughout the City were still underway and revenue receipts from these past few years reflect historical highs. As portions of this large development have been completed, City staff expects a reduction to roll-off revenues. As such, the analysis reflects roll-off revenue reductions of 5.0% per year starting in FY 2024 per discussion with City staff.

### 2.1.11 Minimum Reserve Policy

Reserve balances for enterprise funds are funds set aside for a specific cash flow requirement, financial need, project(s), task, or legal covenant. The level of reserves maintained by an enterprise fund is an important component and consideration of developing a multi-year financial management plan.

Many enterprise funds place significant emphasis on having sufficient reserves available for potentially adverse conditions. The rationale related to the maintenance of adequate reserves is twofold. First, it helps to assure an enterprise fund that it will have adequate funds available to meet its financial obligations during unusual periods (i.e. when revenues are unusually low and/or expenditures are unusually high). Second, it provides funds that can be used for emergency repairs or replacements, including those stemming from major storm events or from red tide events, which require additional cleanup efforts at the beaches of Clearwater.

Based upon Stantec’s industry experience, efficient enterprise funds often target a minimum operating reserve in the range of 3 – 12 months of annual O&M expenses, depending on other reserve funds and practices, local economic conditions and other financial management policies and procedures. For the City of Clearwater, the RSA reflects a minimum operating reserve target equal to six months of O&M expenses. This objective is generally not established as a strict minimum, as many factors could create circumstances under which a utility may elect to allow fund balances below that target for a defined period of time.

Given the projections discussed herein, existing operating reserves will be maintained in excess of the six months target throughout the 5-year planning period (FY 2024 thru FY 2029) but are projected to fall below that target by FY 2034, as shown by the Operating Fund chart below. This is because projected expenses (Cash Out) starting in FY 2030 outpace projected revenues (Cash In) forcing the Fund to use reserves, as shown by the Revenues vs. Expenses chart below. Although this projected use of reserves is an item of note as part of this RSA, it is something to be monitored as part of future RSA updates.

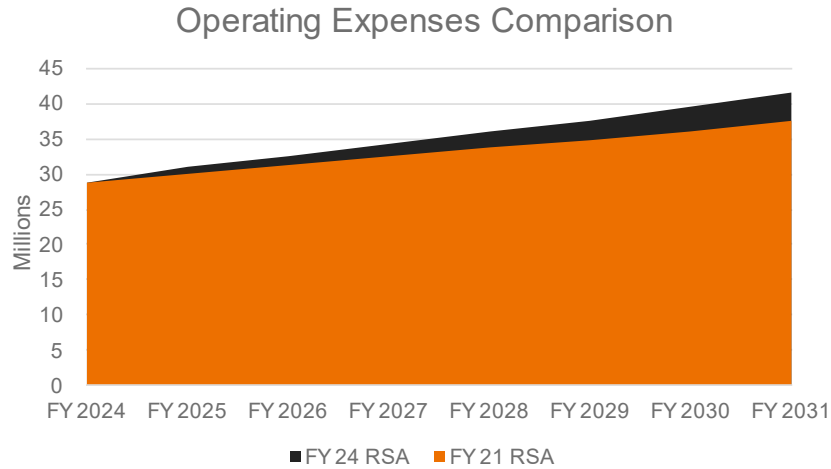

## 2.2 CONCLUSION & RECOMMENDATIONS

As previously stated, the FY 2021 RSA (Prior RSA or FY 21 RSA) performed by Stantec for the City confirmed the adequacy of the 3.75% revenue adjustment for FY 2022, FY 2023 and FY 2024, all of which have been implemented by the City. Since the completion of the FY 2021 RSA, the cost of goods and services have risen sharply both locally (in the Clearwater region) and broadly throughout the state of

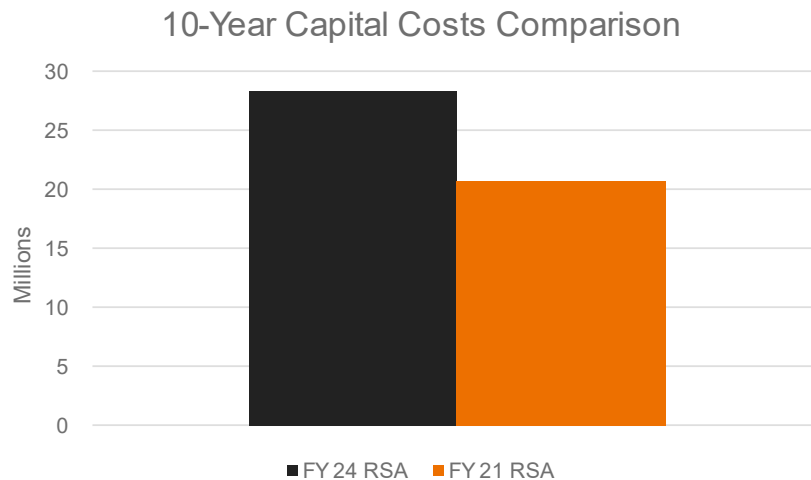

Florida and the United States. The same inflationary pressures are now expected to drive operating expenses of the Solid Waste & Recycling Fund to levels higher than those projected by the Prior RSA, as presented by the Operating Expenses Comparison chart below.

The Operating Expenses Comparison chart shows that although FY 2024 operating expenses start out at almost the same level as they did in the Prior RSA for FY 2024, in every year thereafter, the costs are projected to grow faster than those projected by the Prior Study (the black surface area has a steeper slope). The 10-year weighted average operating expenses inflationary increase for the Prior RSA was 4.4% versus the current projection of 5.4%.

In addition to the pressures projected to operating expenses, the Solid Waste and Recycling 10-Year Capital Improvement Program (Capital Costs) is higher by approximately \$7.6M (in present day dollars), as compared to the Prior RSA. The 10-Year Capital Costs Comparison chart below, presents this information.

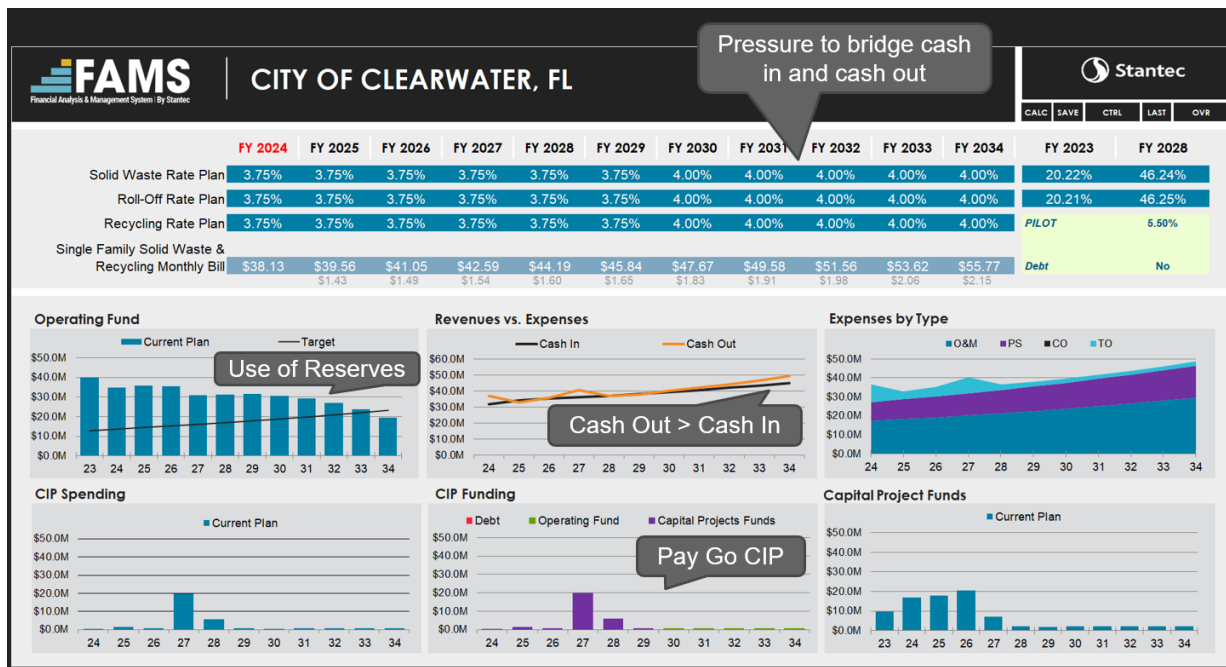

Despite the increases to both projected operating expenses and the 10-year capital costs of the Fund, and based upon the assumptions and data presented herein, Stantec has concluded that the extension of the 3.75% annual rate adjustments thru FY 2029 is sufficient to meet projected revenue requirements of the Solid Waste & Recycling Fund thru FY 2029.

Beyond, FY 2029, however, projected expenses are expected to outpace revenues, as discussed in Section 2.1.11 of this report. Therefore, rate revenue adjustments beyond FY 2029 may need to be higher than the 3.75% recommended thru FY 2029. Although this projected use of reserves is an item of note as part of this RSA, it is something to be monitored as part of future RSA updates.

The results of the Solid Waste & Recycling revenue sufficiency analysis are summarized in Figure 1 below and the recommended new 5-year plan of rate adjustments is presented in Table 2.1.

**Figure 1 FY 2024 RSA Solid Waste & Recycling Results**

**Table 2.1 – Proposed 5-Year Rate Adjustments & Customer Impacts**

Fiscal Year	2025	2026	2027	2028	2029
Rate Adjustment	3.75%	3.75%	3.75%	3.75%	3.75%
Monthly Solid Waste & Recycling Bill	\$39.56	\$41.05	\$42.59	\$44.19	\$45.84
\$ Change	\$1.43	\$1.49	\$1.54	\$1.60	\$1.65

Lastly, Stantec recommends that the City continue to perform annual or biennial updates to the revenue sufficiency analysis to re-evaluate the adequacy of its solid waste & recycling fee adjustment plan. Doing so will allow for the incorporation of updated revenue and expense information, as well as changes in

economic conditions, customer accounts and usage levels, regulatory requirements, and other factors that can materially affect the financial management plan. This will also ensure that the City's Solid Waste & Recycling Fund will be able to meet its financial and operating requirements in the future and minimize rate impacts to customers from future events occurring differently than currently projected.

It is important to note that the projections of future conditions underlying this analysis are not intended to be predictions. Applicable to many funds, there are multiple factors beyond the City's control, such as weather, regulatory changes, national, regional, and local economic conditions, the rate of growth in new customers, customer reaction to rate adjustments, operating and capital cost inflation, and changes in the timing and composition of the fund's capital improvement program, that will have material impacts on the future financial condition of the City's fund operations. Further, the projections in this Study rely upon data and guidance provided during the course of the Study, and while the information utilized in this Study is believed to be reliable, detailed independent reviews or auditing of the data were not conducted.

As a result, there will usually be differences between forecast and actual results, because events and circumstances frequently do not occur as expected, and these differences may be material. While we have no responsibility to update this report for events and circumstances occurring after the date of this report, future management actions must be informed by and adjusted to reflect future results as they occur. These comments are provided to emphasize the importance of active management informed by the actual future results of fund operations by the City. While the planning effort supported by this Study will serve to guide and inform the City in balancing future revenue and spending decisions, it is only through observation of future results that the City will be able to determine the actions required to ensure its financial and operational objectives are met.

The Appendix includes detailed schedules presenting all components of the financial management plan developed for the Solid Waste & Recycling Fund.

### 3. RESIDENTIAL SOLID WASTE & RECYCLING FEE SURVEY

As part of the RSA, Stantec also performed a comparative survey of residential solid waste and recycling fees within the City’s surrounding geographic area. The survey reflects the monthly solid waste & recycling bill in effect for each community as of October 1, 2023 (FY 2024), based on information available to Stantec as of June 28, 2024. It is important to note that the bill comparisons presented in Figure 3.1 do not consider the frequency of trash and recycling pick up service or any additional sanitation services/charges implemented by each community. In other words, the level of service provided varies by community.

**Figure 3.1 – FY 2024 Monthly Residential Solid Waste & Recycling Fee Survey**

The survey demonstrates that the City’s solid waste and recycling fees are comparable to surrounding communities. Stantec expects most of the communities included in this survey to adjust rates in an upward trend in order to keep up with increasing costs of providing services and maintain appropriate levels of reserves. Although Stantec doesn’t have guidance for each entity in this survey, the average increase in fees, for FY 2025 based on publicly available data is 8.3%, which is well above the 3.75% recommended for the City of Clearwater.

**Disclaimer**

*This document was produced by Stantec Consulting Services Inc. (“Stantec”) for the City of Clearwater, FL and is based on a specific scope agreed upon by both parties. Stantec’s scope of work and services do not include serving as a “municipal advisor” for purposes of the registration requirements of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission. Stantec is not advising the City of Clearwater, FL, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, terms, or other similar matters concerning such products or issuances.*

*In preparing this report, Stantec utilized information and data obtained from the City of Clearwater, FL or public and/or industry sources. Stantec has relied on the information and data without independent verification, except only to the extent such verification is expressly described in this document. Any projections of future conditions presented in the document are not intended as predictions, as there may be differences between forecasted and actual results, and those differences may be material.*

*Additionally, the purpose of this document is to summarize Stantec’s analysis and findings related to this project, and it is not intended to address all aspects that may surround the subject area. Therefore, this document may have limitations, assumptions, or reliances on data that are not readily apparent on the face of it. Moreover, the reader should understand that Stantec was called on to provide judgments on a variety of critical factors that are incapable of precise measurement. As such, the use of this document and its findings by the City of Clearwater, FL should only occur after consultation with Stantec, and any use of this document and findings by any other person is done so entirely at their own risk.*

<sup>1</sup> FY 2024 fee revenue reflects two year average of actual FY 2022 and FY 2023 receipts, adjusted for projected account growth (as shown on Schedule 1 of this report and in the "Fee Revenue Growth Assumptions" section above) and the approved 3.75% rate increase effective 10/1/2023. Each year thereafter fee revenue is adjusted by assumed change in accounts as shown in the "Fee Revenue Growth Assumptions" section above and assumed annual rate adjustments as shown in the "Assumed Annual Fee Increases" section above.

<sup>2</sup> City Council approved a temporary (6-months) halt of recycling fee collection for the periods of October 2023 and April 2024, which is half of Fiscal Year 2024. As such FY 2024 revenues reflect a half year and FY 2025 has been adjusted to reflect a full fiscal year as fees are projected to be collected for all 12 months of the fiscal year.

<sup>3</sup> Contractor Collect Fee revenue is directly correlated to roll-off fee revenue, per input from City staff. As such, roll-off growth assumptions as shown in the "Fee Revenue Growth Assumptions" section above also apply to this revenue projection.

<sup>4</sup> Sale of Recyclables reflects revenues from the sale of cardboards and metals, both of which experience large variability in pricing. As such, revenues reflect guidance provided by City staff.
