Project: **RO1 Dual Media Filter Rehab**

Scope of Work

This proposal includes all labor, materials, equipment, and supervision necessary to perform the following scope of work on filter media tank #1 and tank #2:

1. General condition and mobilization associated with the filter rehabilitation work, including project coordination, delivery of materials and equipment, setup, and demobilization upon completion.
2. Furnish and install new pressure filter gravel media in the existing filter vessels in accordance with the project specifications and manufacturer recommendations.
3. Furnish and install new pressure filter sand media in the existing filter vessels in accordance with the project specifications and manufacturer recommendations.
4. Furnish and install new pressure filter anthracite media in the existing filter vessels in accordance with the project specifications and manufacturer recommendations.

Razorback requests an additional twenty (20) calendar days of contract time associated with the above referenced scope of work.

All work shall be completed in accordance with the contract documents, applicable codes and standards, and manufacturer requirements.
