Length of Residency - please select one. * 6+ years**Do you own or represent a business in Clearwater?** Yes No**If yes, where is the business located? Do you conduct business with the City?**

Which Boards would you like to apply for?

Environmental Advisory Board: Submitted

WSP USA

Employer

Associate Consultant -
Environmental Scientist

Job Title

Occupation - If retired, enter former occupation.

Environmental professional

Have you served or do you serve on a board in Clearwater? Yes No**If yes, please list the name of the board.**

Why do you wish to serve on this board/committee? If seeking reappointment, state why you should be reappointed.

I wish to serve on the board because, as an active environmental professional, I believe that I can bring an informed perspective to issues affecting my community. As a lifelong resident of Pinellas County and a resident of Clearwater for the past 12 years, I have developed a interest in then environmental issues of the Tampa Bay area. I believe that lasting change can be made through responsible incremental actions and I believe that I can lend my voice and perspective to the benefit of my community.

What personal qualifications can you bring to this board or committee?

I have a B.S. in Environmental Science and Policy from the University of South Florida. I have been an environmental professional for the past 9 years and have logged many hours of volunteer service with environmental organizations such as Clearwater Marine Aquarium and Honeymoon Island State Park. I also hold certifications for OSHA Hazardous Waste Operations & Emergency Response (HAZWOPER) and FDEP Qualified Stormwater Management Inspector.

List Community Activities

Past: Clearwater Marine Aquarium - Volunteer: Water Quality, Sea Turtle Rehabilitation
Honeymoon Island State Park - Intern: Park Ranger Current: Plato Academy Clearwater - All Pro Dad Chapter Captain, PTO Member, School Volunteer

CAREER SUMMARY

Jason is an environmental scientist with experience on more than 200 projects in phase I environmental site assessments, construction oversight, groundwater sampling, soil sampling, PFOA/PFOS assessments, concrete scanning, ground penetrating radar (GPR) scanning, report writing, electrical resistivity imaging, materials testing, and landfill gas sampling. His recent experience includes complete infiltration studies of water movement at Lake Manatee Dam.

Mr. Drizd has served FDOT in its Municipal Separate Storm Sewer System (MS4) program including inspections, illicit discharge detection and elimination, MS4 inventory collection/database management, new projects permit compliance, pollution prevention/good housekeeping inspections, and annual report preparation.

EDUCATION

BS, Environmental Science and Policy, University of South Florida

May 7, 2021

PROFESSIONAL EXPERIENCE

- **Florida Department of Transportation District 7, Districtwide NPDES Consultant, Florida:** As Associate Project Manager, Jason has assisted the Project Team in providing comprehensive management assistance of the NPDES program in five Florida counties. His efforts have included assisting in the program management of stormwater facility scheduling and inspections, coordination with subconsultants on subconsultant deliverables, and NPDES database compliance information entry. He is directly involved with annual report preparation, TMDL prioritization efforts, and overall MS4 program compliance. He participates in the development of Supplemental Stormwater Management Plans for Priority TMDL waterbodies as well as attends statewide NPDES conference calls to help ensure District consistency with Department NPDES policy and effective SAMS implementation. He prepares Statement of Inspection (SOI) for Proper Operation and Maintenance forms and submit them to the regulatory agencies. He also coordinates SOI due dates with SWFWMD to develop schedules that fit FDOT's overall inspection schedule and optimizes the SMF inspection groupings by geographic location for reduced system costs.
- **Florida Department of Transportation, Anclote River Freshwater Segment Bacterial Pollution Control Plan (BPCP), Pasco County, Florida:** As Project Manager, Jason prepared this BPCP at FDEP's request after FDEP changed course and rejected FDOT's past position that the State Highway System is not a source of bacterial pollution and therefore FDOT did not have to prepare BPCPs. Mr. Drizd prepared the BPCP with plan elements that concentrated on potential bacteria sources located on or immediately adjacent to the FDOT Right-of-way. However the plan does not overcommit FDOT to burdensome recurrent tasks relative to the plan. Potential sources of fecal contamination were reported to Pasco County Environmental Management and Compliance Program which has the authority and staffing to pursue such matters.
- **Southeast Grocers Association, Stormwater Facility Inspections, West Central Florida:** As Project Manager, Jason oversaw and implemented the inspections of private stormwater management facilities (SMFs) operated by a grocery store chain with stores in West Central Florida. Mr. Drizd evaluated the SMFs for vegetation, structural, water quality, aesthetics, erosion/sediment, and hydrology conditions and compared the evaluation to the SWFWMD

JASON DRIZD

SENIOR PROJECT SCIENTIST

ERP permitted conditions. A Statement of Inspection for Proper Operation and Maintenance (SOI) was prepared and submitted for all permit-compliant facilities. A maintenance work order document was prepared for the client for all non-conforming SMFs so that they could be repaired by the client. Mr. Drizd uses WSPs SMF inspection guidelines, the same ones used for FDOT SMF inspections, to complete this type of work because it consistently provides a thorough inspection and documentation and provides the client the desired end result which is permit compliance.

- **Duke Energy LLC, Stormwater Temporary Construction BMP Inspections, West Central Florida:** As Project Professional, Jason assisted the project team in conducting inspections of the temporary erosion and sediment control BMPs on Duke's linear power line transmission project improvements. Some of these projects required oversight of a contractor to install the BMPs in conformance with the contract documents. Permit compliance was achieved through consistent BMP inspection processes and constant communication with Duke contractors for any BMP adjustment needs.

- **Various Projects and Clients, Florida:** Field technician for a wide range of projects in Florida. Responsibilities included leading groundwater and soil sampling team for environmental monitoring and remediation; creating sampling grids using aerial photography; and leading GPR and concrete scanning projects, as well as training others on the technical equipment capabilities. Also monitored contractor progress on geotechnical sinkhole remediation in compliance with engineering designs and act as a liaison between client, contractor, and property owner. Select projects include:
 - Coronet Vane Shear Testing Task 1 Field Investigation
 - White Rock Quarries Lime Rock Evaluation
 - Grout Monitoring for Various Properties
 - Navarro Rental Prop Stabilization
 - Former Zero System Optimization O&M
 - Bryan Dairy Road Methane Monitoring
 - Coca Cola Offsite Assessment
 - Lutz Prep School Phase II ESA
 - TG Lee Orange City UST Removal
 - Carollo Lake Manatee Dam Phase II Repairs
 - NuWest Phase III Gypsum Stack Expansion
 - Hazen & Sawyer Bluefield Water Farm Design/Permitting, Environmental Sampling, and ERA
 - Florida Chem Supply Geotechnical Investigation
 - Project Infinity CQA
 - Winspear Post Stabilization Visit
 - Spisak Prop Settlement Assessment
 - Hampton Park Depression Assessment
 - Jahagirdar Prop Sinkhole Evaluation
 - Remy Property CGCC and Structural
 - Mosaic Data Management and Reporting
 - East Lake Nutrient Source Evaluation
 - Lake Hiawath Preserve Task 1 – Second Annual
 - Lake Gwyn Park Design and Engineering Services
 - Hilochee WMA Design and Permit Services
 - WMD Restoration and Enhancement Phase III
 - Community Center Test Water Well Engineering
 - FAR AFFF Release Areas – Cape Canaveral AFS Site Work
