To Whom It May Concern:

This letter is to inform you that we are the sole source manufacturer and supplier of the Load and Pack system refuse vehicle and parts. We provide these systems to the major parks, trail systems and beaches throughout the USA. The biggest sales features of the vehicle are it can pick up speed, labor savings and reduction on major work comp. claims.

This unique vehicle is a one-man unit that is second to none and evolves from improvements and updates on a continuous basis. The standard life of a unit is 7-9 years depending on maintenance and environment. Your pay back is normally 2 ½ years or less depending on your current system in use and care of the machine.

Thank you for your continued interest in Broyhill vehicles and products. Please check our website for a full line up of our equipment at www.broyhill.com.

Sincerely,

Craig G. Broyhill
President
