ITEM NO. 4. Question and Answers:

Bidders Proposal:

Bid item no. 8 – Conduits – contractor to verify existing conduits runs from electrical panel location of new relocated pole location. This line item is for any additional conduits not existing and the contractor shall provide a drawing showing all additional conduits run in this line item price.

Question: May we safely assume the 'As-Built' Drawings are accurate, and we can just provide \$0.00 cost for this line item?

Answer: The Owner and Engineer are fairly confident the 'As-Built' Drawings are accurate, however the contract scope of work requires the contractor to locate the existing conduits and provide a third party company to provide a GPR of any existing utilities 48 hours prior to any excavations. Bid item no 8 is to accommodate any cost associated in location of existing underground utilities in performance of the work.

It is noted any conduits shown existing are not there will be an additional scope of work item. Contractor must request any additional scope of work item in writing for approval by the Engineer or Owner. Engineer or Owner must provide written approval for any additional scope of work items to utilize contingency funds. Any contingency funds remaining shall be turned back to the Owner by closing out the purchase order short.
