# Questionnaire

**Question 1.** What is your understanding of the duties and responsibilities of the Board(s)?

Answer 1. \*  
Review various plans, proposals, topics, and similar requests for applicability and conformance to appropriate requirements and standards as they apply relative to the situation. Consider whether or not these requests are in the best interests of, and will ultimately benefit, the citizens of Clearwater. Render an opinion based on professional and personal experience.

**Question 2.** Have you ever observed a board meeting either in person or on C-View, the City's TV station?

Answer 2. \*  
☒ Yes ☐ No

**Question 3.** What background, experience, or education qualifies you to serve on the Board(s)?

Answer 3. \*  
As a Professional Engineer I am required to perform my duties and render decisions in a manner that always holds paramount the safety, health, and welfare of the public and conducts themselves honorably, responsibly, ethically, and lawfully. (FL PE 49999)

**Question 4.** Why do you want to serve on the Board(s)?

Answer 4. \*  
I feel that many recent (and earlier) development decisions have not adequately considered the affects of, nor taken input from, those that are most affected by those decisions. These aspects have been overlooked too many times or have even been considered as 'non-important' or 'irrelevant'. The ramifications of these decisions on citizens and residents most affected by them have often been downplayed or totally neglected. I would like to change that.
