December 3, 2015

Dear Claire,

In response to your November 20 letter, enclosed are our "support document" and a note to the Council to accompany that letter. I'm assuming that you intend to present whatever "support documents" you receive from the neighborhood to the Council before or at the 12/15 meeting, so I've sent it to you for an attachment.

I don't know whether I should also email the contents of that note to Kyle Brotherton to be sure the Council has it before the meeting, which we cannot attend because we'll be in Maryland.

Please drop me an email or call to let me know if I should send it to Kyle.

Hope this all works out to be best for both sides of the controversy.

Dick

SENIOR HOUSING PROJECT

conditionally

I/we, the undersigned, agree to support the re-zoning to Senior Housing. My conditions of support:

☒ Wall — Height 6', not more than 8'; ventilation required to avoid blocking all air flow; vines or maintainable greenery on homeowner's side.

☒ Landscape — Trees or other shielding growth on development side to block view of buildings.

☒ Other concern: TRAFFIC, and parking directly behind our houses

Sirens and/or lights of emergency vehicles which are to be expected.

Possible lowering of our property values, a distinct concern.
