SOLE SOURCE SECTION

<p>What are we buying?</p> <p>ALLEN BRADLEY/ROCKWELL AUTOMATION PLC (PROGRAMMABLE LOGIC CONTROLLER) EQUIPMENT AND ACCESSORIES</p>
<p>How do you intend to use the product/service?</p> <p>UPGRADING EXISTING ALLEN BRADLEY / ROCKWELL AUTOMATION PLCs AND ACCESSORIES.</p>
<p>Estimated cost/timeframe? \$ 95,100.69</p>
<p>What is the benefit for the agency/city/public?</p> <p>THIS EQUIPMENT IS A CRITICAL FUNCTION IN THE PLANT AUTOMATION AND PRODUCING DRINKING WATER.</p>
<p>What about this vendor makes them a single source?</p> <p>REXEL IS THE SOLE SOURCE VENDOR FOR ALLEN BRADLEY / ROCKWELL AUTOMATION.</p>
<p>What is unique about the product?</p> <p>PUBLIC UTILITIES HAVE STANDARDIZED USING ALLEN BRADLEY PLCs FOR ALL PLANT AUTOMATION.</p>
<p>Is there an alternative available?</p> <p>NO</p>
<p>If so, why is not acceptable?</p>

1365 Hamlet Ave. Clearwater, Fl. 33756 (727) 442-7196

WORK ORDER INITIATION FORM for the CITY OF CLEARWATER

Date: November 1, 2018
Consultant Project Number: 160358
City Project Number: 17-0041-UT
City Plan Set Number: 2017020

1. PROJECT TITLE:

WTP No. 1 SCADA System PLC Upgrades

2. SCOPE OF SERVICES:

The City of Clearwater's Water Treatment Plant (WTP) No. 1 control system includes programmable logic controller equipment (PLC) that is being phased out of standard production by the manufacturer (Allen Bradley/Rockwell Automation SLC 500). The City has recognized the obsolescence of this PLC equipment and the importance it serves for the monitoring and control of City facilities. The City therefore desires to perform upgrades to Water Treatment Plant No. 1, including PLC equipment, remote I/O devices and network communications for the plant control system.

The City has requested that McKim & Creed provide equipment selection assistance as well as software implementation and conversion services for upgrading the existing controller-related systems from the older Allen Bradley platforms to current technology CompactLogix/ControlLogix series units with similar input/output components. All upgrades, including related communications equipment, will support the upgraded PLCs with all communications over Ethernet.

McKim & Creed will assist the City in selecting components and provide drawing documentation indicating the communication connections, an upgraded network diagram, the PLC component layout and the I/O module signal termination points. The City will procure all equipment and perform all equipment installation, communications cabling and field wiring/terminations. On completion of the City's installation work, McKim & Creed will test the PLC software programs and confirm the interface to the plant SCADA computer systems.

Upgrades will include the following locations and activities:

- Electrical Room PLC system
 - Convert CP-100 PLC from SLC 5/05 to a CompactLogix L33ER
 - Include a third-party Modbus serial module to maintain communications to the switchgear and MCC power monitors

Clearwater, FL 33755

Re: Rockwell Automation Authorized Allen-Bradley Distributors

Rockwell Automation extends and enhances its own significant automation capabilities by partnering with a network of authorized distributors. Some of the many benefits that customers enjoy working with their local authorized Allen-Bradley distributor include:

- Access to local distributor inventory (including spares and replacement parts)
- Technical assistance from local distributor product specialists
- A knowledgeable staff that has access to factory training
- Rockwell Automation support of local distributor activities

Rexel USA Inc – Tampa, FL is the only distributor authorized by Rockwell Automation to sell **Allen-Bradley** and **Rockwell Software** products, along with related services, in the geographic area in which your facility is located. As a matter of Company policy, Rockwell Automation only provides product and sales support to the local authorized distributor, and it is our practice and policy to always promote and recommend that customers buy from their local authorized Allen-Bradley / Rockwell Automation distributor. Rockwell Automation discourages purchasing from non-authorized sources, including distributors who may hold an Allen-Bradley appointment in another area.

If you purchase Allen-Bradley / Rockwell Automation products from an unauthorized source, you may not receive the latest version. The latest version of Allen-Bradley products, along with related factory product services, only is available through your local authorized Allen-Bradley / Rockwell Automation distributor.

Also, products that are not purchased directly from Rockwell Automation or its local authorized distributor may not be covered by a manufacturer's warranty. Rockwell Automation's standard manufacturer's warranty covers new Allen-Bradley products for a period of one year from the date of Rockwell Automation's or its authorized

Allen-Bradley distributor's invoice to the customer. As a result, there is no assurance that products sourced from unauthorized parties will carry a valid and unexpired manufacturer's warranty. Customers purchasing products from unauthorized sources should not assume that they will receive any rights under any Rockwell Automation factory warranty. Only an authorized Allen-Bradley distributor may offer access to factory warranty coverage on Allen-Bradley products.

We recognize that price can be an important consideration in any purchasing decision; however, it also is important that customers understand what they are getting for that price (or in the case of purchases from an unauthorized source, what they're not getting). Rockwell Automation firmly believes that the best customer value in the long-run is achieved by dealing with the local authorized Allen-Bradley distributor.

Should you have any further questions, please do not hesitate to contact Rexel USA Inc. at 813.249.3200 or your local Rockwell Automation sales office at 813.466.6400.

Respectfully,

Sandy Edwards

Territory Sales Manager
