### September Monthly Passengers

September was the highest growth in ridership (for the same month, one year over the next) in 2018 so far for Clearwater Ferry. We saw another consecutive month of growth in September of 2018 with over 88.7% growth rate from 2017. September 2018 was also a record-breaking month in regard to temperatures, labeled the warmest month on record for Tampa Bay by the National Weather Service with 85.9°F average.

The above figure shows our busiest days for ridership in September 2018, which were 9/29, 9/30, 9/15, 9/3, 9/28 and 9/2, in that order and at the noted numbers of riders. September 28-30 was the weekend of the National Super Boat Races, explaining the influx of visitors to our area and thus the high ridership. The other dates happened to be beautiful weather days with high temperatures, which shows how much good weather impacts our ridership.
