Subpart A. General Provisions

Term 1. Legal Authority and Effect

A DOE financial assistance award is valid only if it is in writing and is signed, either in writing or electronically, by a DOE Grants Officer.

The recipient may accept or reject the award. A request to draw down DOE funds or acknowledgement of award documents by the recipient's authorized representative through electronic systems used by DOE, specifically FedConnect, constitutes the recipient's acceptance of the terms and conditions of this award. Acknowledgement via FedConnect by the recipient's authorized representative constitutes the recipient's electronic signature.

Term 2. Flow Down Requirement

The recipient agrees to apply the terms and conditions of this award, including the Intellectual Property Provisions, to all subrecipients (and contractors, as appropriate). See, 2 CFR 200.101(b)(2) through (b)(5), 2 CFR 200.327, and 2 CFR 200.332.

Term 3. Pre-Award Information

Prior to award, the recipient was required to provide certain information, disclosures, representations, and certifications. Certification of the information was required by the recipient's authorized representative on behalf of the recipient, via the pre-award information sheet. If there are any changes to the provided information, disclosures, representations, and/or certifications throughout the life of the award, the recipient must notify the DOE Grants Officer, in writing, within fifteen (15) business days of the changes, unless a different notification period is specified in an applicable law or controlling term, in which case the specific period controls.

Term 4. Compliance with Federal, State, and Municipal Law

The recipient is required to comply with applicable federal, state, and local laws and regulations for all work performed under this award. The recipient is required to obtain all necessary federal, state, and local permits, authorizations, and approvals for all work performed under this award.

Term 5. Inconsistency with Federal Law

Any apparent inconsistency between federal statutes and regulations and the terms and conditions contained in this award must be referred to the DOE award Administrator for guidance.

Term 6. Federal Stewardship

DOE will exercise normal federal stewardship in overseeing the project activities performed under this award. Stewardship activities include, but are not limited to, conducting site visits; reviewing performance and financial reports; providing technical assistance and/or temporary intervention in unusual circumstances to address deficiencies that develop during the project;

Award No. DE-EE0010780.0000 With City of Clearwater

assuring compliance with terms and conditions; and reviewing technical performance after project completion to ensure that the project objectives have been accomplished.

Term 7. Whistleblower Protections

As provided in 2 CFR 200.217, an employee of a recipient or subrecipient must not be discharged, demoted, or otherwise discriminated against as a reprisal for disclosing information that the employee reasonably believes is evidence of gross mismanagement of a federal contract or grant, a gross waste of federal funds, an abuse of authority relating to a federal contract or grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal contract (including the competition for or negotiation of a contract) or grant. The recipient and subrecipient must inform their employees in writing of employee whistleblower rights and protections.

Term 8. Termination

This award may be terminated in part or in its entirety in accordance with 2 CFR 200.340.

Term 9. Federal Involvement

A. Review Meetings

The recipient, including but not limited to the principal investigator (or, if applicable, coprincipal investigators), is required to participate in periodic review meetings with DOE. Review meetings enable DOE to assess the work performed under this award and determine whether the recipient has timely achieved the technical objectives and milestones and deliverables stated in Attachment 1 to this award.

DOE shall determine the frequency of review meetings and select the day, time, and location of each review meeting and shall do so in a reasonable and good faith manner. DOE will provide the recipient with reasonable notice of the review meetings.

For each review meeting, the recipient is required to provide a comprehensive overview of the project, including:

- 1. The recipient's technical progress compared to the technical objectives and Milestone Summary Table stated in Attachment 1 to this award.
- 2. The recipient's actual expenditures compared to the approved budget in Attachment 3 to this award.
- 3. Other subject matter specified by the DOE Technology Manager/Federal Project Manager.

B. Project Meetings

The recipient is required to notify DOE in advance of scheduled tests and internal project meetings that would entail discussion of topics that could result in major changes to the baseline project technical scope/approach, cost, or schedule. Upon request by DOE, the recipient is required to provide DOE with reasonable access (by telephone, webinar, or

Award No. DE-EE0010780.0000 With City of Clearwater

otherwise) to the tests and project meetings. The recipient is not expected to delay any work under this award for the purpose of government insight.

C. Site Visits

DOE's authorized representatives have the right to make site visits at reasonable times to review project accomplishments and management control systems and to provide technical assistance, if required. The recipient must provide, and must require subrecipients to provide, reasonable access to facilities, office space, resources, and assistance for the safety and convenience of the government representatives in the performance of their duties. All site visits and evaluations must be performed in a manner that does not unduly interfere with or delay the work.

D. Technical Milestones and Deliverables

Attachment 1 to this award establishes technical milestones and deliverables. If the recipient fails to achieve two or more technical milestones and deliverables, DOE may renegotiate the Statement of Project Objectives and/or Milestone Summary Table in Attachment 1 to this award. In the alternative, DOE may deem the recipient's failure to achieve these technical milestones and deliverables to be material noncompliance with the terms and conditions of this award and take action to suspend or terminate the award.

E. DOE Access

The recipient must provide any information, documents, site access, or other assistance requested by DOE for the purpose of its federal stewardship or substantial involvement.

Term 10. Risk-Based Review of Project Participation

All project participants are subject to a DOE risk review. The risk review of covered individuals includes but is not limited to the review of resumes and disclosures, as required in the award. DOE reserves the right to ask for disclosures on project participants not defined as covered individuals. The recipient need not submit any additional information on non-covered individuals, unless requested by DOE. The volume and type of information collected may depend on various factors associated with the award.

Note this review is separate and distinct from DOE Order 142.3B "Unclassified Foreign National Access Program".

Term 11. Post-Award Due Diligence Reviews

During the period of performance of the award, DOE may conduct ongoing due diligence reviews, through Government resources, to identify potential risks of undue foreign influence. In the event a risk is identified, DOE may require risk mitigation measures, including but not limited to, requiring an individual or entity not participate in the award. As part of the research, technology, and economic security risk review, DOE may contact the recipient project team members for additional information to inform the review.

Term 12. NEPA Requirements

DOE must comply with the National Environmental Policy Act (NEPA) prior to authorizing the use of federal funds. Based on all information provided by the recipient, DOE has made a NEPA determination by issuing a categorical exclusion (CX) for all activities listed in the Statement of Project Objectives (SOPO) approved by the Grants Officer and the DOE NEPA Determination. The recipient is thereby authorized to use federal funds for the defined project activities, except where such activity is subject to a restriction set forth elsewhere in this award.

This authorization is specific to the project activities and locations as described in the SOPO approved by the Grants Officer and the DOE NEPA Determination.

If the recipient later intends to add to or modify the activities or locations as described in the approved SOPO and the DOE NEPA Determination, those new activities/locations or modified activities/locations are subject to additional NEPA review and are not authorized for federal funding until the Grants Officer provides written authorization on those additions or modifications. Should the recipient elect to undertake activities or change locations prior to written authorization from the Grants Officer, the recipient does so at risk of not receiving federal funding for those activities, and such costs may not be recognized as allowable cost share.

Term 13. Performance of Work in United States

A. Requirement

All work performed under this award must be performed in the United States unless the Grants Officer provides a waiver. This requirement does not apply to the purchase of supplies and equipment; however, the recipient should make every effort to purchase supplies and equipment within the United States. The recipient must flow down this requirement to its subrecipients.

B. Failure to Comply

If the recipient fails to comply with the requirements of this term, the Grants Officer may deny reimbursement for the work conducted outside the United States and such costs may not be recognized as allowable recipient cost share regardless of if the work is performed by the recipient, subrecipients, contractors or other project partners.

C. Waiver for Work Outside the U.S.

All work performed under this award must be performed in the United States. However, the Grants Officer may approve the recipient to perform a portion of the work outside the United States under limited circumstances. The recipient must obtain a waiver from the Grants Officer prior to conducting any work outside the United States. To request a waiver, the recipient must submit a written waiver request to the Grants Officer, which includes the information as required in the NOFO that the award was selected under.

For the rationale, the recipient must demonstrate to the satisfaction of the Grants Officer that the performance of work outside the United States would further the purposes of the NOFO that the award was selected under and is in the economic interests of the United States. The Grants Officer may require additional information before considering such request.

Term 14. Notice Regarding the Purchase of American-Made Equipment and Products – Sense of Congress

It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available under this award should be American-made.

Term 15. Reporting Requirements

A. Requirements

The reporting requirements for this award are identified on the Federal Assistance Reporting Checklist, attached to this award. Failure to comply with these reporting requirements is considered a material noncompliance with the terms of the award. Noncompliance may result in withholding of future payments, suspension, or termination of the current award, and withholding of future awards. A willful failure to perform, a history of failure to perform, or unsatisfactory performance of this and/or other financial assistance awards, may also result in a debarment action to preclude future awards by federal agencies.

B. Dissemination of Scientific and Technical Information

Scientific and Technical Information (STI) generated under this award will be submitted to DOE via the Office of Scientific and Technical Information's Energy Link (<u>E-Link</u>) system. STI submitted under this award will be disseminated via DOE's <u>OSTI.gov</u> website subject to approved access limitations. Citations for journal articles produced under the award will appear on the <u>DOE PAGES</u> website.

C. Restrictions

Scientific and Technical Information submitted to E-Link must not contain any Protected Personal Identifiable Information (PII), limited rights data (proprietary data), classified information, information subject to export control classification, or other information not subject to release.

Term 16. Lobbying

By accepting funds under this award, the recipient agrees that none of the funds obligated on the award shall be expended, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. § 1913. This restriction is in addition to those prescribed elsewhere in statute and regulation.

DOE Special Terms and Conditions Award No. DE-EE0010780.0000 With City of Clearwater

Term 17. Publications

The recipient is required to include the following acknowledgement in publications arising out of, or relating to, work performed under this award, whether copyrighted or not:

- Acknowledgment: "This material is based upon work supported by the U.S. Department
 of Energy's Office of Energy Efficiency and Renewable Energy (EERE) under the Solar
 Energy Technology Office (SETO) and City of Clearwater award Number DE-EE0010780."
- Full Legal Disclaimer: "This report was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof."

Abridged Legal Disclaimer: "The views expressed herein do not necessarily represent the views of the U.S. Department of Energy or the United States Government."

The recipient should make every effort to include the full Legal Disclaimer. However, in the event that recipients are constrained by formatting and/or page limitations set by the publisher, the abridged Legal Disclaimer is an acceptable alternative.

The award may be subject to a Data Management Plan as part of the Intellectual Property clause set that explains how data generated in the course of the work performed under this award will be shared or preserved or, when justified, explains why data sharing or preservation is not possible or scientifically appropriate.

Term 18. One Time No-Cost Extension

As provided in 2 CFR 200.308(g)(2), the recipient must provide the Grants Officer with written notice in advance if it intends to utilize a one-time, no-cost extension of this award. The notification must include the supporting justification and a revised period of performance. The recipient must submit this notification in writing to the Grants Officer and DOE Technology Manager/Federal Project Manager at least 10 days before the end of the current budget period. This paragraph does not preclude the federal agency from approving further no-cost extensions to the federal award.

Any no-cost extension will not alter the project scope, deliverables, budget, or milestones (if applicable) of this award.

Award No. DE-EE0010780.0000 With City of Clearwater

Term 19. Property Standards

The complete text of the Property Standards can be found at 2 CFR 200.310 through 200.316. Also see 2 CFR 910.360 for additional requirements for real property and equipment for forprofit recipients

Term 20. Insurance Coverage

See 2 CFR 200.310 for insurance requirements for real property and equipment acquired or improved with federal funds. Also see 2 CFR 910.360(d) for additional requirements for real property and equipment for for-profit recipients

Term 21. Real Property

Subject to the conditions set forth in 2 CFR 200.311, title to real property acquired or improved under the federal award will conditionally vest upon acquisition in the recipient or subrecipient. The recipient or subrecipient cannot encumber its title or other interests and must follow the requirements of 2 CFR 200.311 before disposing of the property.

Except as otherwise provided by federal statutes or the federal agency, real property must be used for the originally authorized purpose as long as it is needed for that purpose. When real property is no longer needed for the originally authorized purpose, the recipient or subrecipient must obtain disposition instructions from DOE or pass-through entity.

See 2 CFR 200.311 for additional requirements pertaining to real property acquired or improved under a federal award. Also see 2 CFR 910.360 for additional requirements for real property for for-profit recipients.

Term 22. Equipment

Subject to the conditions provided in 2 CFR 200.313, and 2 CFR 910.360 (as applicable), title to equipment (property) acquired under the federal award will conditionally vest upon acquisition with the recipient or subrecipient. The recipient or subrecipient must not encumber this property or permit encumbrance without prior written approval of the Grants Officer and must follow the requirements of 2 CFR 200.313 before disposing of the property.

A state must use equipment acquired under a federal award by the state in accordance with state laws and procedures.

Indian Tribes must use, manage, and dispose of equipment acquired under a federal award in accordance with tribal laws and procedures. If such laws and procedures do not exist, Indian Tribes must follow the guidance in 2 CFR 200.313.

The recipient or subrecipient must use equipment for the project or program for which it was acquired and for as long as needed, whether or not the project or program continues to be supported by the federal award. When no longer needed for the originally original project or program, the equipment may be used by programs supported by DOE in the priority order specified in 2 CFR 200.313(c)(1)(i) and (ii).

Award No. DE-EE0010780.0000 With City of Clearwater

Equipment with a current per unit fair market value of \$10,000 or less (per unit) may be retained, sold, or otherwise disposed of with no further responsibility to the federal awarding agency or pass-through entity, as specified in 2 CFR 200.313(e)(1) and 2 CFR 910.360 (as applicable).

Management requirements, including inventory and control systems, for equipment are provided in 2 CFR 200.313(d).

When equipment acquired under a federal award is no longer needed, the recipient or subrecipient must obtain disposition instructions from DOE or pass-through entity. However, pursuant to the FY23 Consolidation Appropriations Act (Pub. L. No. 117-328), Division D, Title III, Section 309, the Secretary, or a designee of the Secretary may, at their discretion, vest unconditional title or other property interests acquired under this project regardless of the fair market value of the property at the end of the award period of performance.

Subject to vesting of any property pursuant to Section 309 of the FY23 Consolidated Appropriations Act (Pub. L. No. 117-328), Division D, Title III, disposition will be made as follows: (a) items of equipment with a current fair market value of \$10,000 or less (per unit) may be retained, sold, or otherwise disposed of with no further obligation to the federal agency or pass-through entity; (b) the recipient or subrecipient may retain title or sell the equipment after compensating the federal agency as described in 2 CFR 200.313(e)(2); or (c) transfer title to the federal agency or to an eligible third Party as specified in 2 CFR 200.313(e)(3).

See 2 CFR 200.313 for additional requirements pertaining to equipment acquired under a federal award. Also see 2 CFR 910.360 for additional requirements for for-profit recipients. See also 2 CFR 200.439 Equipment and other capital expenditures.

Term 23. Supplies

See 2 CFR 200.314 for requirements pertaining to supplies acquired under a federal award. See also 2 CFR 200.453 Materials and supplies costs, including costs of computing devices.

Term 24. Continued Use of Real Property and Equipment

Real property and equipment purchased with project funds (federal share and recipient cost share) under this award are subject to the requirements at 2 CFR 200.311, 200.313, and 200.316 (recipient or subrecipient, except for-profit entities) and 2 CFR 910.360 (for-profit entities). The recipient may continue to use the real property and equipment after the conclusion of the award period of performance so long as the recipient and/or subrecipient:

- 1. continues to use the property for the authorized project purposes;
- 2. complies with the applicable reporting requirements and regulatory property standards;
- 3. as applicable to for-profit entities, UCC filing statements are maintained; and
- 4. submits a written Request for Continued Use for DOE authorization, which is approved by the DOE Grants Officer.

DOE Special Terms and Conditions Award No. DE-EE0010780.0000 With City of Clearwater

The recipient must request authorization from the Grants Officer to continue to use the property for the authorized project purposes beyond the award period of performance ("Request for Continued Use"). The recipient's written Request for Continued Use must identify the property and include: a summary of how the property will be used (must align with the authorized project purposes); a proposed use period (e.g., perpetuity, until fully depreciated, or a calendar date where the recipient expects to submit disposition instructions); acknowledgement that the recipient shall not sell or encumber the property or permit any encumbrance without prior written DOE approval; current fair market value of the property; and an Estimated Useful Life or depreciation schedule for equipment.

When the property is no longer needed for authorized project purposes, the recipient must request disposition instructions from DOE. For-profit entity disposition requirements are set forth at 2 CFR 910.360. Property disposition requirements for other entities are set forth in 2 CFR 200.310 – 200.316.

Term 25. Property Trust Relationship

Real property, equipment, and intangible property acquired or improved with the federal award must be held in trust by the recipient or subrecipient as trustee for the beneficiaries of the project or program under which the property was acquired or improved. See 2 CFR 200.316 for additional requirements pertaining to real property, equipment, and intangible property acquired or improved under a federal award.

Term 26. Record Retention

Consistent with 2 CFR 200.334 through 200.338, the recipient and subrecipient must retain all federal award records.

Term 27. Audits

A. Government-Initiated Audits

The recipient must provide any information, documents, site access, or other assistance requested by DOE or federal auditing agencies (e.g., DOE Inspector General, Government Accountability Office) for the purpose of audits and investigations. Such assistance may include, but is not limited to, reasonable access to the recipient's records relating to this award.

Consistent with 2 CFR part 200 as adopted and supplemented by 2 CFR part 910, DOE may audit or review the recipient's financial records or administrative records relating to this award at any time. Audits or reviews may be performed to determine if the recipient has an adequate financial management system to estimate, bill, and record federal government expenditures in accordance with the criteria in 2 CFR 200.302, Generally Accepted Accounting Principles (GAAP), Generally Accepted Government Accounting Standards (GAGAS), and Standard Form 1408. Government-initiated audits are generally paid for by DOE.

Award No. DE-EE0010780.0000 With City of Clearwater

DOE may conduct a final audit at the end of the period of performance (or the termination of the award, if applicable). Upon completion of the audit, the recipient is required to refund to DOE any payments for costs that were determined to be unallowable. If the audit has not been performed or completed prior to the closeout of the award, DOE retains the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

DOE will provide reasonable advance notice of audits and will minimize interference with ongoing work, to the maximum extent practicable.

B. Annual Independent Audits (Single Audit or Compliance Audit)

The recipient must comply with the annual independent audit requirements in 2 CFR 200.500 through .521. In the alternative, a for-profit recipient that expends \$1,000,000 or more in federal awards during that entity's fiscal year may have a compliance audit conducted for that year in accordance with 2 CFR 910.500 through 910.521.

The annual independent audits are separate from Government-initiated audits discussed in part A. of this Term and must be paid for by the recipient. To minimize expense, the recipient may have a Compliance audit in conjunction with its annual audit of financial statements. The financial statement audit is **not** a substitute for the Compliance audit. If the audit (Single audit or Compliance audit, depending on recipient entity type) has not been performed or completed prior to the closeout of the award, DOE may impose one or more of the actions outlined in 2 CFR 200.339, Remedies for Noncompliance.

Term 28. Site Visits and Recipient Administrative Organizational Reviews

DOE's authorized representatives have the right to make site visits and conduct recipient Administrative Organizational Reviews to review the project and management control systems and to provide technical assistance, as appropriate. The recipient must provide, and must require its subrecipients and contractors to provide, reasonable access to facilities, office space, resources, and assistance for the safety and convenience of the government representatives in the performance of their duties. DOE will make reasonable efforts to ensure these site visits do not interfere with or unduly delay project work.

Subpart B. Financial Provisions

Term 29. Maximum Obligation

The maximum obligation of DOE for this award is the total "Funds Obligated" stated in Block 13 of the Assistance Agreement to this award.

Term 30. Cost Sharing

A. Cost Sharing Obligations

The recipient must provide the "Cost Share" amount stated in Block 12 of the Assistance

Agreement to this award. DOE and the recipient's cost share for the total estimated project costs are listed below.

Table 1

DOE Cost Share		Recipient Cost Share		Total Estimated Costs
\$	%	\$	%	Total Estimated Costs
\$949,500	47.6%	\$1,046,848	52.4%	\$1,996,348

B. Cost Share Obligation If Award Terminated or Discontinued

If the award is terminated or is otherwise not funded to completion, the recipient is not required to provide the entire "Cost Share" amount stated in Block 12 of the Assistance Agreement to this award; however, the recipient must provide its share (i.e., percentage as shown in Table 1 above) of the total project cost reimbursed as of the date of the termination or discontinuation.

C. Source of Cost Share

The recipient may not use federal funds to meet its cost sharing obligations, unless otherwise allowed by federal law.

D. Inability to Comply with Cost Sharing Obligations

If the recipient determines that it is unable to meet its cost sharing obligations, the recipient must notify the DOE Award Administrator in writing immediately. The notification must include the following information: (1) whether the recipient intends to continue or phase out the project, and (2) if the recipient intends to continue the project, how the recipient will pay (or secure replacement funding for) the recipient's share of the total project cost.

If the recipient fails to meet its cost sharing obligations, DOE may recover some or all of the financial assistance provided under this award. The amount DOE would seek to recover under this Term would be predicated on DOE's analysis of the recipient's compliance with their cost sharing obligation under the award.

Term 31. Refund Obligation

The recipient must refund any excess payments received from DOE, including any costs determined unallowable by the Grants Officer. At the end of the period of performance (or the termination of the award, if applicable), the recipient must refund to DOE the difference between (1) the total payments received from DOE, and (2) the federal share of the costs incurred. Refund obligations under this Term do not supersede the annual reconciliation or true up process if specified under the Indirect Cost Term.

Term 32. Allowable Costs

DOE determines the allowability of costs in accordance with 2 CFR Part 200 as adopted and supplemented by 2 CFR Part 910. All project costs must be allowable, allocable, and reasonable. The recipient must document and maintain records of all project costs, including, but not limited to, the costs paid by federal funds, costs claimed by its subrecipients and project costs that the recipient claims as cost sharing, including in-kind contributions. The recipient is

Award No. DE-EE0010780.0000 With City of Clearwater

responsible for maintaining records adequate to demonstrate that costs claimed have been incurred, are reasonable, allowable, and allocable, and comply with the appropriate cost principles. Upon request, the recipient is required to provide such records to DOE. Such records are subject to audit. Failure to provide DOE adequate supporting documentation may result in a determination by the Grants Officer that those costs are unallowable.

Term 33. Foreign Travel

The recipient is required to obtain the prior written approval of the Grants Officer for any foreign travel costs.

- To initiate a foreign travel request, submit a foreign work waiver. See Performance of Work in the United States (Foreign Work Waiver) above for details.
- Foreign travel that typically isn't subject to foreign work waivers (e.g., foreign travel to conferences, scholarly workshops, or symposia) still requires a foreign work waiver if the travel is to a foreign country of risk (China, Russia, North Korea, Iran).

All international travel must comply with the International Air Transportation Fair Competitive Practices Act of 1974 (49 USC 40118), commonly referred to as the "Fly America Act," and implementing regulations at 41 CFR 301-10.131 through 301-10.143. The law and regulations require air transport of people or property to, from, between, or within a country other than the United States, the cost of which is supported under this award, to be performed by or under a cost-sharing arrangement with a U.S. flag carrier, if service is available.

Term 34. Indirect Costs

A. Indirect Cost Allocation:

The budget for this award does not include an allocation of segregated indirect billing rates. Therefore, indirect charges shall not be charged under allocated billing rates, nor shall reimbursement be requested for this project for segregated indirect cost billing rates, nor shall any indirect charges for this project be allocated to any other federal-federally sponsored project. The recipient cannot claim indirect costs separately as cost share.

The personnel labor rates have been fully burdened to include associated fringe and/or overhead costs which have been broken out in the approved budget as a percentage of the labor rates.

B. Fringe Cost Allocation:

The budget for this award does not include an allocation of segregated fringe billing rates. Fringe benefit costs have been found reasonable as incorporated in the recipient's burdened labor rate or under an allocated indirect cost billing rate. Therefore, fringe benefit costs shall not be charged as a separate rate allocation to this award. DOE will not reimburse fringe benefit costs as a separate budget item. Fringe benefit costs for this award cannot be allocated as a separate rate allocation to any other federally-sponsored project.

Award No. DE-EE0010780.0000 With City of Clearwater

C. Subrecipient Indirect Costs (If Applicable):

The recipient must ensure its subrecipient's indirect costs are appropriately managed, have been found to be allowable, and comply with the requirements of this award and 2 CFR Part 200 as adopted and supplemented by 2 CFR Part 910.

D. Indirect Cost Stipulations:

1. Modification to Indirect Cost Billing Rates

DOE will not modify this award solely to provide additional funds to cover increases in the recipient's indirect cost billing rate(s). Adjustments to the indirect cost billing rates must be approved by the recipient's Cognizant Agency or Cognizant Federal Agency Official.

The recipient must provide a copy of an updated NICRA or indirect rate proposal to the DOE Award Administrator to increase indirect cost billing rates. If the Grants Officer provides prior written approval, the recipient may incur an increase in the indirect cost billing rates. Reimbursement will be limited by the budgeted dollar amount for indirect costs for each budget period as shown in Attachment 3 to this award.

2. Award Closeout

The closeout of the DOE award does not affect (1) the right of the DOE to disallow costs and recover funds on the basis of a later audit or other review; (2) the requirement for the recipient to return any funds due as a result of later refunds, corrections or other transactions including final indirect cost billing rate adjustments; and (3) the ability of the DOE to make financial adjustments to a previously closed award resolving indirect cost payments and making final payments.

Term 35. Pre-Award Costs

As stated in the Grants Officer's Pre-Award Costs Letter dated September 8, 2025, the recipient is authorized to request reimbursement for costs incurred on or after December 29, 2022, if (1) such costs are allowable in accordance with 2 CFR Part 200 as adopted and supplemented by 2 CFR Part 910, (2) such costs are not otherwise restricted by Term titled "National Environmental Policy Act (NEPA) Requirements," and (3) such costs are not otherwise restricted by any other Term. If the recipient elects to undertake activities that are not authorized for federal funding by the Grants Officer in advance of DOE completing the NEPA review, the recipient is doing so at risk of not receiving federal funding and such costs may not be recognized as allowable cost share. Nothing contained in the pre-award cost reimbursement regulations or any pre-award costs approval letter from the Grants Officer override these NEPA requirements to obtain the written authorization from the Grants Officer prior to taking any action that may have an adverse effect on the environment or limit the choice of reasonable alternatives.

Term 36. Use of Program Income

If the recipient earns program income during the period of performance as a result of this award, the recipient must use the program income to meet its cost sharing requirement (see 2

DOE Special Terms and Conditions Award No. DE-EE0010780.0000 With City of Clearwater

CFR 200.307 (b)(3)).

Term 37. Payment Procedures

A. Method of Payment

Payment will be made by reimbursement through the Department of Treasury's ASAP system.

B. Requesting Reimbursement

Requests for reimbursements must be made through the ASAP system.

C. Adjusting Payment Requests for Available Cash

The recipient must disburse any funds that are available from repayments to, and interest earned on a revolving fund, program income, rebates, refunds, contract settlements, audit recoveries, credits, discounts, and interest earned on any of those funds before requesting additional cash payments from DOE.

D. Payments

All payments are made by electronic funds transfer to the bank account identified on the Bank Information Form that the recipient filed with the U.S. Department of Treasury.

E. Unauthorized Drawdown of Federal Funds

For each budget period, the recipient may not spend more than the federal share authorized to that particular budget period, without specific written approval from the Grants Officer. The recipient must immediately refund DOE any amounts spent or drawn down in excess of the authorized amount for a budget period. The recipient and subrecipients shall promptly, but at least quarterly, remit to DOE interest earned on advances drawn in excess of disbursement needs and shall comply with the procedure for remitting interest earned to the federal government per 2 CFR 200.305, as applicable.

F. Supporting Documents for Agency Approval of Payments

DOE may require Agency pre-approval of payments. If the Agency approval requirement is in effect for the recipient's award, the ASAP system will indicate that Agency approval is required when the recipient submits a request for payment.

The recipient must notify the DOE Federal Project Manager and DOE Award Administrator identified on the Assistance Agreement that a payment request has been submitted.

The following items are required to be submitted to the DOE Federal Project Manager and DOE Award Administrator identified on the Assistance Agreement:

- 1. Summary cost data, for the billing period and cumulative cost data, showing all categories listed in the SF-424A and identifying federal, non-federal, and total amounts.
- 2. SF-270.

Award No. DE-EE0010780.0000 With City of Clearwater

- 3. Applicable to for-profit recipients and subrecipients: UCC filing proof for all equipment acquired with project funds (i.e., federal share or recipient share) and equipment offered as cost share.
- 4. Invoices or summary cost data showing all categories listed in the SF-424A for subrecipients with over \$250,000 total project costs or >25% of total project costs.
- 5. Invoices for Contractors with over \$250,000 total project costs.
- 6. Invoices/receipts for Equipment over \$50,000.
- 7. Explanation of cost share for invoicing period, including cost category and rationale if cost share exceeds or is below award requirement.
- 8. If there are unauthorized phases and/or tasks for the current budget period in the NEPA Requirements term in these Special Terms and Conditions, a statement affirming that no invoiced costs are related to tasks or activities prohibited by the NEPA Requirements term.
- 9. Recipient must submit Buy America Certifications of Compliance with invoices for payment.

The DOE payment authorizing official may request additional information from the recipient to support the payment requests prior to release of funds, as deemed necessary. The recipient is required to comply with these requests. Supporting documents include invoices, copies of contracts, contractor quotes, and other expenditure explanations that justify the payment requests.

Term 38. Budget Changes

A. Budget Changes Generally

The Grants Officer has reviewed and approved the SF-424A in Attachment 3 to this award.

Any increase in the total project cost, whether DOE share or Cost Share, which is stated as "Total" in Block 12 to the Assistance Agreement of this award, must be approved in advance and in writing by the Grants Officer.

Any change that alters the project scope, milestones or deliverables requires prior written approval of the Grants Officer. DOE may deny reimbursement for any failure to comply with the requirements in this term.

B. Transfers of Funds Among Direct Cost Categories

The recipient is required to obtain the prior written approval of the Grants Officer for any transfer of funds among direct cost categories where the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total project cost, which is stated as "Total" in Block 12 to the Assistance Agreement of this award.

The recipient is required to <u>notify</u> the DOE Technology Manager/Federal Project Manager of any transfer of funds among direct cost categories where the cumulative amount of such transfers is equal to or below 10 percent of the total project cost, which is stated as "Total" in Block 12 to the Assistance Agreement of this award.

Award No. DE-EE0010780.0000 With City of Clearwater

C. Transfer of Funds Between Direct and Indirect Cost Categories

The recipient is required to obtain the prior written approval of the Grants Officer for any transfer of funds between direct and indirect cost categories. If the recipient's actual allowable indirect costs are less than those budgeted in Attachment 3 to this award, the recipient may use the difference to pay additional allowable direct costs during the period of performance so long as the total difference is less than 10% of total project costs and the difference is reflected in actual requests for reimbursement to DOE.

Subpart C. Miscellaneous Provisions

Term 39. Environmental, Safety and Health Performance of Work at DOE Facilities

With respect to the performance of any portion of the work under this award which is performed at a DOE-owned or controlled site, the recipient agrees to comply with all State and Federal Environmental, Safety and Health (ES&H) regulations and with all other ES&H requirements of the operator of such site.

Prior to the performance on any work at a DOE-owned or controlled site, the recipient shall contact the site facility manager for information on DOE and site-specific ES&H requirements.

The recipient is required to apply this provision to its subrecipients and contractors.

Such notification shall be in writing and shall: (1) specifically set out the details of the occurrence of an event referenced in paragraph A; (2) provide the facts surrounding that event; and (3) provide the impact such event will have on the project being funded by this award.

Upon the occurrence of any of the four events described in paragraph A. of this term, DOE reserves the right to conduct a review of the recipient's award to determine the recipient's compliance with the required elements of the award (including such items as cost share, progress towards technical project objectives, and submission of required reports). If the DOE review determines that there are significant deficiencies or concerns with the recipient's performance under the award, DOE reserves the right to impose additional requirements, as needed, including (1) change of payment method; or (2) institute payment controls.

Award No. DE-EE0010780.0000 With City of Clearwater

Award No. DE-EE0010780.0000 With City of Clearwater

In order to satisfy this notification requirement, the recipient documentation must, at a minimum, include the following:

¹ It is DOE's position that the existence of a "covered relationship" as defined in 5 CFR 2635.502(a)&(b) between a member of the recipient's owners or senior management and a member of a subrecipient's owners or senior management creates at a minimum an apparent conflict of interest that would require the recipient to notify the Grants Officer and provide detailed information and justification (including, for example, mitigation measures) as to why the subrecipient agreement does not create an actual conflict of interest. The recipient must also notify the Grants Officer of any new subrecipient agreement with: (1) an entity that is owned or otherwise controlled by the recipient; or (2) an entity that is owned or otherwise controlled by another entity that also owns or otherwise controls the recipient, as it is DOE's position that these situations also create at a minimum an apparent conflict of interest.

3. Covered Individual:

Covered Individual means an individual who (i) contributes in a substantive, meaningful way to the development or execution of the scope of work of a project funded by DOE, and (ii) is designated as a covered individual by DOE.

DOE designates as covered individuals any principal investigator (PI); project director (PD); co-principal investigator (Co-PI); co-project director (Co-PD); project manager; and any individual regardless of title that is functionally performing as a PI, PD, Co-PI, Co-PD, or project manager. Status as a consultant, graduate (master's or PhD) student, or postdoctoral associate does not automatically disqualify a person from being designated as a "covered individual" if they meet the definition in (i) above.

The recipient is responsible for assessing the applicability of (i) against each person listed on the project (i.e., listed by the recipient in the application for federal financial assistance, approved budget, progress report, or any other report submitted to DOE by the recipient regarding the subject project). Further, the recipient is responsible for identifying any such individual to DOE for designation as a covered individual, if not already designated by DOE as described above.

The recipient's submission of a current and pending support disclosure and/or biosketch/resume for a particular person serves as an acknowledgement that DOE designates that person as a covered individual.

DOE may further designate covered individuals during the award period of performance.

B. Disclosure Requirements

Prior to award, the Recipient was required to provide current and pending support disclosure statements for each covered individual, as defined by the award Terms and Conditions, at the recipient and subrecipient level, regardless of funding source.

New Covered Individuals:

Prior to starting work on the project, new covered individuals must submit a current and pending support disclosure and biosketch/resume and must receive approval from DOE. R&D covered individuals are encouraged to comply with the Digital Persistent Identifier (PID) and Research Security Training Requirements Terms. The PID and Research Training will be required for all R&D covered individuals on May 1, 2025

Existing Covered Individuals:

Submit an updated current and pending support disclosure within thirty (30) calendar days after the end of the quarterly reporting period in which the change occurred.

Term 49. Interim Conflict of Interest Policy for Financial Assistance

The DOE interim Conflict of Interest Policy for Financial Assistance (COI Policy) can be found at https://www.energy.gov/management/department-energy-interim-conflict-interest-policy-requirements-financial-assistance. This policy is applicable to all recipients applying for, or that receive, DOE funding by means of a financial assistance award (e.g., a grant, cooperative agreement, technology investment agreement, or other transaction authority) and, through the implementation of this policy by the recipient, to each Investigator who is planning to participate in, or is participating in, the project funded wholly or in part under this award. The term "Investigator" means the PI and any other person, regardless of title or position, who is responsible for the purpose, design, conduct, or reporting of a project funded by DOE or proposed for funding by DOE.

The recipient must flow down the requirements of the interim COI Policy to any subrecipient, with the exception of DOE National Laboratories. Further, the recipient must identify all financial conflicts of interests (FCOI), i.e., managed and unmanaged/unmanageable, in its initial and ongoing FCOI reports.

Prior to award, the recipient was required to: 1) ensure all Investigators on this award completed their significant financial disclosures; 2) review the disclosures; 3) determine whether a FCOI exists; 4) develop and implement a management plan for FCOIs; and 5) provide DOE with an initial FCOI report that includes all FCOIs (i.e., managed and unmanaged/unmanageable). Within 180 days of the date of the award, the recipient must be in full compliance with the other requirements set forth in DOE's interim COI Policy.

Term 50. Organizational Conflict of Interest

Organizational conflicts of interest are those where, because of relationships with a parent company, affiliate, or subsidiary organization, the recipient is unable or appears to be unable to be impartial in conducting procurement action involving a related organization (2 CFR 200.318(c)(2)).

The recipient must disclose in writing any potential or actual organizational conflict of interest to the DOE Grants Officer. The recipient must provide the disclosure prior to engaging in a procurement or transaction using project funds with a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe. For a list of the information that must be included the disclosure, see Section VI. of the DOE interim Conflict of Interest Policy for Financial Assistance at https://www.energy.gov/management/department-energy-interim-conflict-interest-policy-requirements-financial-assistance.

If the effects of the potential or actual organizational conflict of interest cannot be avoided, neutralized, or mitigated, the recipient must procure goods and services from other sources when using project funds. Otherwise, DOE may terminate the award in accordance with 2 CFR 200.340 unless continued performance is determined to be in the best interest of the federal government.

The recipient must flow down the requirements of the interim COI Policy to any subrecipient, with the exception of DOE National Laboratories, if applicable. The recipient is responsible for ensuring subrecipient compliance with this term.

If the recipient has a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe, the recipient must maintain written standards of conduct covering organizational conflicts of interest.

Term 51. Prohibition on Certain Telecommunications and Video Surveillance Equipment or Services

As set forth in 2 CFR 200.216, recipients and subrecipients are prohibited from obligating or expending project funds (federal and non-federal funds) to:

- 4. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

For the purposes of this section, "covered telecommunications equipment or services" also include systems that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

In implementing the prohibition under section 889 of Public Law 115-232, heads of executive agencies administering loan, grant, or subsidy programs must prioritize available funding and technical support to assist affected businesses, institutions, and organizations as is reasonably necessary for those affected entities to transition from covered telecommunications equipment or services, to procure replacement equipment or services, and to ensure that communications service to users and customers is sustained.

When the recipient or subrecipient accepts a loan or grant, it is certifying that it will comply with the prohibition on covered telecommunications equipment and services in this section. The recipient or subrecipient is not required to certify that funds will not be expended on covered telecommunications equipment or services beyond the certification provided upon accepting the loan or grant and those provided upon submitting payment requests and financial reports.

For additional information, see section 889 of Public Law 115-232 and § 200.471.

Term 56. Buy America Requirement for Infrastructure Projects

A. Approved Waivers

This award falls under the purview of BABA Waiver 2025-9. Approved on December 31, 2024, the waiver applies to Fiscal Year 2023 Congressionally Directed Spending projects. It waives the 55% domestic content requirement for solar modules, subject to the following conditions:

- The modules must be purchased by December 31, 2025 (the end of the effective date of the waiver);
- The modules must be installed by June 30, 2026. Per the waiver, "installed by" means modules being permanently fastened to an outdoor support structure at the project site; and
- The modules must be domestically assembled, meaning that all operations involved in the transformation of individual solar cells and all other module components into a fully functional encapsulated module must occur in the United States.

U.S. DEPARTMENT OF ENERGY

DOE Special Terms and Conditions

Award No. DE-EE0010780.0000 With City of Clearwater

The recipient is advised that failure to adhere to the conditions above will result in an invalidation of the waiver. If the waiver is invalidated prior to any expenditures on solar modules, an individualized project-specific waiver may still be sought but is not guaranteed to be granted. If the waiver is invalided after expenditures on solar modules have already been made, a project-specific waiver will not be available, and the costs will be disallowed

Accordingly, the recipient's BABA obligations under this term are waived to the extent provided in the General Applicability waiver. (For example, if the General Applicability waiver provides a full waiver of the BABA requirements, then the recipient does not need to comply with BABA requirements in the execution of this award; if the General Applicability waiver only waives a subset of the BABA requirements, then that subset is waived under this award, but any unwaived requirements continue to be applicable. The recipient is responsible for understanding the scope of its BABA obligations as modified by the General Applicability waiver named above.

Definitions

There are several terms of art that are given specific definitions with respect to the application and execution of BABA. <u>Full definitions of these terms can be found by following this hyperlink to the relevant section (2 CFR 184.3) of the Code of Federal Regulations</u>. Any additional context not present in the Code of Federal Regulations definition for a given term is provided below.

- a. Buy America Preference (Sometimes also referred to as the Buy America Requirement or Domestic Content Procurement Preference). Note that, despite the use of the word "Preference," this is very much a mandatory compliance requirement. The statute, implementing regulations, and OMB guidance characterize this requirement as the "Buy America Preference," and so that terminology is reflected here to ensure consistency with the statute and existing guidance.
- b. Component
- c. Construction Materials
- d. Infrastructure Project
- e. Iron or steel products
- f. Manufactured Products
- g. Manufacturer
- h. Predominantly of iron or steel or a combination of both
- i. *Produced in the United States* (Sometimes also referred to as the "Domestic Production requirement")
- j. <u>Section 70917(c)</u> Materials (i.e., certain materials used in construction that are specifically excluded from being categorized as "construction materials"; as such, the Buy America Preference is not applied to these materials.

Additionally, the following terms are not defined in 2 CFR 184.3, but are important for a proper understanding of BABA and its application:

k. *Project* – means the construction, alteration, maintenance, or repair of public infrastructure in the United States.

I. Infrastructure – Infrastructure includes, at a minimum: the structures, facilities, and equipment for roads, highways, and bridges; public transportation; dams, ports, harbors, and other maritime facilities; intercity passenger and freight railroads; freight and intermodal facilities; airports; water systems, including drinking water and wastewater systems; electrical transmission facilities and systems; utilities; broadband infrastructure; buildings and real property; and structures, facilities, and equipment that generate, transport, and distribute energy, including electric vehicle (EV) charging.

- m. Public infrastructure The Buy America Preference does not apply to non-public (private) infrastructure. For purposes of compliance with BABA, infrastructure should be considered "public" if it is:
- (1) publicly owned (owned, operated, funded and managed, in whole or in part, by any unit or authority of a Federal, State, or Local government-including U.S. Territories and Indian Tribes); or
- (2) privately owned but utilized primarily for a public purpose. Infrastructure should be considered to be "utilized primarily for a public purpose", and therefore "public", if it is privately owned but operated on behalf of the public or is a place of public accommodation.

B. Buy America Preference

1. The Buy America Preference Generally

Subject to any applicable waiver, none of the funds provided under this award (federal share or recipient cost-share) may be used for a project for infrastructure unless all iron, steel, manufactured products, and/or construction materials are "produced in the United States." Standards to satisfy this requirement differ based on the category a given material falls under:

- All iron and steel used in the project is produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
- b. All manufactured products used in the project are produced in the United States—this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation. (Note: 2 CFR 184.5 provides specific guidance for determining the cost of components for manufactured products); and
- c. All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States.
 (Note: <u>2 CFR 184.6</u> provides additional standards that must be satisfied for some specified construction materials in order for those materials to be considered "produced"

in the United States").

Recipients are responsible for administering their award in accordance with the terms and conditions, including the Buy America Preference. The recipient must ensure that the Buy America Preference flows down to all subawards and that the subawardees and subrecipients comply with the Buy America Preference. The Buy America Preference term and condition must be included all sub-awards, contracts, subcontracts, and purchase orders for work performed under the infrastructure project.

2. Specific Application of the Buy America Preference

Recipients are not required to apply the Buy America Preference to each and every material, supply, or piece of equipment purchase for this award. Only items that are consumed in, incorporated into, or permanently affixed to the infrastructure in the project are required to meet the "produced in the United States" requirements that mandate domestic assembly and (in the case of manufactured products) domestic content thresholds.

As such, this requirement does not need to be applied to tools, equipment, and supplies—such as temporary scaffolding—brought into the construction site and removed at or before the completion of the infrastructure project. This is likewise inapplicable to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

3. Section 70917(c) Materials

The BABA Statute at Section 70917(c) provides a list of materials which are specifically excluded from categorization as "construction materials," and therefore may be used without meeting the relevant "produced in the United States" standard.

Generally referred to as "Section 70917(c) Materials," these are:

- cement and cementitious materials;
- aggregates such as stone, sand, or gravel; or
- aggregate binding agents or additives, as provided in Section 70917(c) of BABA.

Asphalt concrete pavement mixes are typically composed of asphalt cement (a binding agent) and aggregates such as stone, sand, and gravel. Accordingly, asphalt is also excluded from the definition of Construction materials.

Section 70917(c) materials, on their own, are not manufactured products. Further, Section 70917(c) materials should not be considered manufactured products when they are used at or combined proximate to the work site—such as is the case with wet concrete or hot mix asphalt brought to the work site for incorporation. However, certain Section 70917(c) materials (such as stone, sand, and gravel) may be used to produce a manufactured product, such as is precast concrete. Precast concrete is made of components, is processed into a specific shape or form,

Award No. DE-EE0010780.0000 With City of Clearwater

and is in such state when brought to the work site. Furthermore, wet concrete should not be considered a manufactured product if not dried or set prior to reaching the work site.

Further clarification is provided in 2 CFR 184 on the circumstances under which a determination is made that Section 70917(c) materials should be treated as components of a manufactured product. That determination is based on consideration of: (i) the revised definition of the "manufactured products" at 2 CFR 184.3; (ii) a new definition of "Section 70917(c) materials" at 2 CFR 184.3; (iii) new instructions at 2 CFR 184.4(e) on how and when to categorize articles, materials, and supplies; and (iv) new instructions at 2 CFR 184.4(f) on how to apply the Buy America preference by category.

C. Certification of Compliance

Recipients must request a certification from a product manufacturer that the iron, steel, manufactured product or construction material they are acquiring from the manufacturer were "produced in the United States" (i.e., that they meet the requisite standards outlined at the beginning of Section 3, above). DOE will not provide any sort of "certification template" for this purpose; recipients are responsible for ensuring that a certification contains enough information that it properly validates the BABA compliance of the item(s) listed within the certification.

Although DOE does not require a specific format for the certification, the following elements must be present:

- A listing of all products covered by the certification, including their category (e.g., iron, steel, manufactured product, or construction material);
- A recitation of the relevant "produced in the United States" standard for any categories (iron, steel, manufactured product, or construction material) provided in the above list, to ensure the manufacturer properly understands the standards to be met;
- A clear statement that the products listed meet the relevant "produced in the United States" standard(s);
- A signature from an authorized representative of the manufacturer certifying the contents of the compliance statement; and
- Any other information the recipient deems necessary for the certification to demonstrate compliance with the BABA requirements.

Recipients must also maintain certifications or equivalent documentation for proof of compliance that those articles, materials, and supplies that are consumed in, incorporated into, affixed to, or otherwise used in the infrastructure project, not covered by a waiver or exemption, are produced in the United States. The certification or proof of compliance must be provided by the suppliers or manufacturers of the iron, steel, manufactured products and construction materials and flow up from all subawardees, contractors and vendors to the recipient. Recipients must keep these certifications with the award/project files and be able to produce them upon request from DOE, auditors or Office of Inspector General.

D. Waivers

When necessary, recipients may apply for, and DOE may grant, a waiver from the Buy America Preference. Requests to waive the application of the Buy America Preference must be in writing to the CO. Waiver requests are subject to review by DOE and the Office of Management and Budget, as well as a public comment period of no less than 15 calendar days.

Waivers must be based on one of the following justifications:

- a. Public Interest- Applying the Buy America Preference would be inconsistent with the public interest;
- Non-Availability- The types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or
- c. Unreasonable Cost- The inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

Waiver Requests may be submitted utilizing <u>BABA Waiver Form (gsa.gov)</u>, <u>Optional Form 2211 (OF2211)</u> or any other format to provide the required information for the project-specific waiver request.

For reference, requests to waive the Buy America Preference must include the following:

- Waiver type (Public Interest, Non-Availability, or Unreasonable Cost);
- Recipient name and Unique Entity Identifier (UEI);
- Award information (Federal Award Identification Number, Assistance Listing number);
- A brief description of the award project objectives, location, and the specific infrastructure project involved;
- Total estimated Financial Assistance award value, inclusive of recipient cost share;
- Total estimated infrastructure costs (estimated costs of the Iron, Steel, Manufactured Products and Construction Materials being purchased under the award and utilized in the infrastructure project);
- List and description of iron or steel item(s), manufactured goods, and/or construction material(s) the recipient seeks to waive from the Buy America Preference, including name, cost, quantity(ies), country(ies) of origin, and relevant Product Service Codes (PSC) and North American Industry Classification System (NAICS) codes for each;
- A detailed justification as to how the non-domestic item(s) is/are essential the project;
- A certification that the recipient made a good faith effort to solicit bids for domestic products supported by terms included in requests for proposals, contracts, and nonproprietary communications with potential suppliers;
- A justification statement—based on one of the applicable justifications outlined above—as to why the listed items cannot be procured domestically, including the due diligence performed (e.g., market research, industry outreach, cost analysis, cost-benefit analysis) by the recipient to attempt to avoid the need for a waiver. This justification

Award No. DE-EE0010780.0000 With City of Clearwater

- may cite, if applicable, the absence of any Buy America-compliant bids received for domestic products in response to a solicitation;
- A description of the market research conducted that includes who conducted the market research, when it was conducted, sources that were used, and the methods used to conduct the research; and
- Anticipated impact to the project if no waiver is issued.

The recipient should consider using the following principles as minimum requirements contained in their waiver request:

- Time-limited: Consider a waiver constrained principally by a length of time, or phasedout over time, rather than by the specific project/award to which it applies. Waivers of this type may be appropriate, for example, when an item that is "non-available" is widely used in the project. When requesting such a waiver, the recipient should identify a reasonable, definite time frame (e.g., no more than one to two years) designed so that the waiver is reviewed to ensure the condition for the waiver ("non-availability") has not changed (e.g., domestic supplies have become more available).
- Targeted: Waiver requests should apply only to the item(s), product(s), or material(s) or category(ies) of item(s), product(s), or material(s) as necessary and justified. Waivers should not be overly broad as this will undermine domestic preference policies.
- Conditional: The recipient may request a waiver with specific conditions that support the policies of IIJA/BABA.

DOE may request, and the recipient must provide additional information for consideration of this wavier. DOE may reject or grant waivers in whole or in part depending on its review, analysis, and/or feedback from OMB or the public. DOE's final determination regarding approval or rejection of the waiver request may not be appealed. The waiver request review and public comment process required for a waiver determination can take up to 90 calendar days.

Term 57. **Prohibition related to Malign Foreign Talent Recruitment Programs**
