No person shall operate a boat or allow a boat to be operated in any water area of the city designated and posted as a **slow speed - minimum wake zone** at a speed greater than that speed which is reasonable and prudent under the existing circumstances to avoid an excessive wake. A boat shall be deemed to be operated in compliance with this subsection if the boat is operated completely off a plane and settled into the water while producing no wake or a minimum wake. A boat shall be deemed to be operated in violation of this subsection if the boat is operated on a plane.

No person shall operate a boat or allow a boat to be operated in any water area of the city designated and posted as an **idle speed - no wake zone** at a speed greater than the slowest speed necessary to maintain steerageway.
