* There were five units which were allocated from the Reserve, returned to the Reserve and then reallocated from the Reserve to the same project 300 Hamden (Hotel A) and 316 Hamden (Hotel B) and later addressed as 309 Coronado. In order to not erroneously double count these units the original allocation (five units) is not included. In addition, a permit related to the construction of those five units has not yet been submitted so those five units are included in the "Allocated but Unbuilt" figure.

Please see line seven and eight, above for specifics of Hotel A and Hotel B. These two hotels were developed originally as two separate, albeit physically connected, buildings on two separate properties. Subsequent to construction the two properties were joined together through a Unity of Title without City approval. Case FLD2019-11030, currently in review, seeks to rectify this as well as other issues. The two hotels were allocated a total of 174 units from the Reserve and a total of 260 units were proposed. A total of 255 units were actually built. Each respective DVA includes a provision (Section 6.1.5) that provides that any unbuilt units be returned to the Reserve.
