1	Affordable housing is, by far, the community's greatest need in this moment. I would actually suggest that more money be dedicated to this issue. While some of the items I ranked at the bottom would be nice, I do not consider them to be in line with the emergency-focused purpose of the ARPA dollars.	6/30/2022 2:53 PM
2	Education funding should be number one to make the public schools better	6/30/2022 12:40 PM
3	Housing is our most pressing challenge. We must allocate funding to help people secure housing and in homeless diversion and prevention. You chosen to not allocate funds for mental health - that's a problem.	6/28/2022 11:58 AM
4	ranked items with concrete immediate needs first. would actually have eliminated items at the bottom of my list. eg., the library "info" floor is not necessary now, especially with all the construction, attendance at the main library is and will continue to severely drop.	6/25/2022 8:07 PM
5	Affordable housing is by far the biggest struggle for most citizens. We don't need any more \$2000 a month luxury apartments, we need places where people can actually afford to live. Too many corporations buying up the single family homes just to rent for insane profits. The city needs to regulate this as well. Many people cannot afford to live under these conditions. Infrastructure needs support as well. Employees of the city deserve better conditions. Community needs more resources.	6/23/2022 9:54 AM
6	Nature is the most important thing to me followed by caring for others. Improve parks. Add more if you could.	6/21/2022 12:10 AM
7	I ranked them the way I did because we have a major crisis. Housing alone with mental health in our communities which I did not see on this survey. my 2nd was our community streets sidewalk improvement. we have children that walk to school, especially on Overbrook. I put education as 3rd which it goes with 1 and 2. all are important.	6/16/2022 8:40 AM
8	It's important to help people find housing or there will be even more homeless people here. Its embarrassing and makes people not want to go downtown. I know three people who's rent doubled (\$600 to \$1200) and we have to help those people who don't have an extra \$600, my one friend joked about becoming a prostitute - that is horrible! Maybe improving Greenwood will provide more affordable housing.	6/14/2022 8:33 AM
9	Renewable energy and infrastructure upgrades affect the greater population. Land preservation is key to maintaining green space for a livable community. (1-6)	6/11/2022 7:07 AM
10	The city police and police communications is overworked and understaffed already. More housing especially low income will be a huge burden on all emergency operations.	6/8/2022 6:09 AM
11	Traffic and sidewalks should be at the top do to safety concerns. Covid money should be reimbursed, Housing is also important. Info hub will not be used enough so it should not even be on the list.	6/2/2022 8:14 AM
12	Cops and Infrastructure is what is needed.	6/1/2022 9:14 PM
13	The county is facing a crisis in affordable housing & its effecting attracting top talent for jobs in the area. Affordable, attainable housing needs to be a priority.	6/1/2022 7:55 PM
14	For this money the focus should be on short term improvements for the broad community. Followed by anything that can reduce climate impacts.	6/1/2022 12:38 PM
15	Direct impact on our residents	6/1/2022 12:22 PM
16	8/9/10/11 should NOT be funded as they should come from budgeted items or are not justified from ARPA. The \$4.325 million should be reallocated to Pinellas Community Foundation \$2	6/1/2022 11:22 AM

million Educational Grants from Pandemic \$1.325 million and Homeless Assistance Funding \$1million.

17	With the increase in residents now working from home (and, just in general, the shift from manual to online services), there is more stress on our internet services. With the market out of control, lower and middle class citizens need affordable housing. With the continuous increase in residents, streets and sidewalks need TLC. Those are my top priorities.	6/1/2022 10:08 AM
18	Traffic congestion and delays are an underlying, common issue all citizens can benefit from its improvement.	5/31/2022 5:55 PM
19	All public not just minorities should benefit	5/31/2022 5:33 PM
20	I think monies should be spent on things that benefit ALL residents and not just those living in higher risk communities. There are all ready tons of programs, supports, funding sources for programming, educational financial aid (scholarships), housing, financial assistance, etc in place for a certain percent of the population, yet I would like to see more emphasis being put on things like safety, events, programs, nice spaces, for ALL populations- the hard working people who pay a lot of taxes should also benefit from programming and things that make their surroundings nicer, safer, more enjoyable, more appealing.	5/31/2022 11:51 AM
21	I think students who have proven themselves should get more opportunities to pursue what they want. Don't use that education money towards those who haven't shown the stats. Give it to the kids who show leadership qualities. I like the improvements to our city lots if people moving here. I also think we need some more actual hang out spots for the teens. Like a diner or something fun maybe next to police station so they keep themselves under check. We need to actually look at handling this homeless person situation downtown. With improvements u think they will go elsewhere but they need some other location to be hanging out. Maybe their own park with awnings so they can be safe but not in the center of downtown. I don't think solar panels are a major priority. Honestly look into the future waste of them. They give immediate help but have a shelf life. I think we should but some money towards a group or the groups that help do the clean ups. The trash on the ground is gross and I personally know that is it very appreciated whenever these clean ups happen. Make this weekly encourage people to keep their spaces looking good so our community and get more money in the long run from tourism!	5/26/2022 11:16 PM
22	We need better broadband services in this area as we are one of the only without them. It would allow consumers to have more choices and also probably be sturdier after inclement weather.	5/26/2022 9:55 PM
23	Affordable housing is upmost importance right now. I know people who have either become homeless or had to move in with family due to not finding an affordable apartment. Rent is too high. There should be some sort of voucher program for people over 65, and low means	5/26/2022 9:05 PM
24	I work for housing in Clearwater and our housing is 3 to 5 years out. I have seen people sleeping under trees, very elderly many times, and this is very distressing. I also believe the city needs to be reimbursed for Covid funding so that our needs for investing in the overall economics of Clearwater. It would be great if our police officers got a raise this year to include more training of how to deal with mentally ill, hard of hearing, elderly etc. and have a better understanding of the people they work with, and so they can start interacting more with the community. Our infrastructure is extremely important to take care of now before any incidents occur. The education grants, are going to help improve our opportunities. Putting solar panels in will help reduce the overall city cost in the long run, and that is something I hope to see get done. Lastly while many people have started using their own wifi, and readig books on Kindle, the library is a great need for children and families over the years. I can see that homelessness (and mental health issues that cause it) need to be addressed. Homelessness leads to drug use and increased theft.	5/26/2022 12:59 PM
25	I work in the affordable housing industry and I receive at least 5 or more calls per day inquiring about unit availability. Then the next question is do I know of any other places. We need more affordable housing in the community.	5/26/2022 9:14 AM
26	Streets are crumbling. City is focusing on ghost town properties too much. Countryside area roads are terrible. Stop wasting mo way on downtown	5/26/2022 6:29 AM
27	I live walking distance From Downtown yet the curbs and Sidewalks in this area Are A mess it's shameful how certain neighborhoods are ignored and the amount you propose Is not enough	5/25/2022 10:24 PM

How Should Clearwater Spend the City's American Rescue Plan Act Funds?

28	Community improvements were needed.	5/25/2022 4:24 PM
29	Affordable housing is so important right now more than ever, and it ties to the homeless situation. I've lived here since 1980s and Greenwood is coming to be a much better place but it is still very underserved. I do not believe we should be using these funds for covid reimbursement because we need to use it on the people who live here so that they can have affordable homes. Streets and sidewalks are also very important for people who don't have cars but I'm interested to see they didn't have anything about public transportation on here which is an ongoing issue.	5/25/2022 1:08 PM
30	Education is primarily the bassist of understanding and learning. The transmission of knowledge is secondary to facilitate learning and understanding.	5/25/2022 3:30 AM
31	Affordable housing needs to be the biggest priority. The city should not take the reimbursement but direct those funds to Affordable housing needs. The income target should be those with the greatest need--the 80% AMI and below.	5/24/2022 8:13 PM
32	In truth, it would have been better to have ranked them in order of importance vs not necessary instead of numerically. It would have been a more accurate result, in my opinion. Further, the majority of these don't seem to really be in alignment with the intention of the ARPA and not a good usage of the available funds. IMO, it's a VERY POOR set of suggestions compared to the opportunities that could be presented to alleviate some financial burdens and stress factors for the citizens of Clearwater. That should be the topic of discussion at these meetings is really how best to use these monies to benefit the citizens of Clearwater who have been impacted by the pandemic and are struggling to make ends meet still vs fixing a sidewalk or putting a fiber cable underground or how to plan a concert and get it back going again when we have people not able to buy food/pay bills/move to affordable housing, etc. THESE latter issues are what we should be diving into - that and helping the small businesses and self-employed through grants and LOW or NO Interest loans.	5/24/2022 4:49 PM
33	order of importance and amount stated.	5/24/2022 3:26 PM
34	Would love to see more funding for cultural nonprofits in Clearwater	5/24/2022 3:11 PM
35	We need affordable housing urgently, our local parks are deteriorating, Broadband is in desperate need of upgrading and many streets and sidewalks need repair.	5/24/2022 2:56 PM
36	It is a huge problem that there is no cap on rent increase. A lot of people can't afford to live in their homes any longer. Landlords can raise the rents without limits and force people to leave their homes. Homelessness will be a huge problem in Florida very soon. There should be a solution for that!	5/24/2022 12:00 PM
37	use funds that truly rescue something, not more things that will then have legacy costs	5/24/2022 11:51 AM
38	Need for affordable housing becomes greater everyday.	5/24/2022 10:43 AM
39	The City should be reimbursed for Covid-related expenses, but the second priority should be on spending for affordable housing because residents are in crisis. Essential workers are being priced out of rentals and cannot compete for homes with big hedge funds and REITS for single family homes. Families and children are living out of motels and out of vans and RVs. The City must act now or we will see levels of homeless increase. As much as we need renewable energy and beautiful safe sidewalks and upgraded parks, using Maslow's hierarchy of needs, safe housing is a fundamental need in our community and is a human right. Please allocate more ARPA funds towards this human right. Double the proposed amount towards affordable housing for buying and preserving land for it, or by buying land and working with nonprofits like Habitat for Humanity. Use the money to help residents add ADUs and to convert properties into cottage courts, duplexes, and add to our housing stock.	5/24/2022 10:06 AM
40	items 5-11 are not critical to the community.	5/24/2022 9:36 AM
41	I have worked in North Greenwood for over 9 years with a church deacon, who did a lot for that community but I found the community not really involved in their own improvements and problems, and felt the grants were used to make personal gain not for their community. They would hire friends etc through grants who did not have the interests of their community in mind. So I leave them last in importance. This is my personal opinion only. My other opinion is Clearwater residents have all taken a toll on their finances due to Covid. Why not a portion of the funds back to the citizens who have struggled? Did the government officials take a pay cut during Covid, like most Americans?	5/24/2022 9:34 AM

How Should Clearwater Spend the City's American Rescue Plan Act Funds?

42	I believe that affordable housing is our most pressing problem right now. We are a tourist industry, which needs to be looked up with a little more criticism as for our dependency. However people who are needed to work in these services can't afford to live here.	5/24/2022 9:07 AM
43	We need to focus on the bigger issues addressing the City. The nonsense for Imagine Clearwater is an expensive cost to have a splash park for the homeless to wash themselves each day. Better decision making on helping build this community and help improve opportunities to help children.	5/24/2022 8:41 AM
44	I believe Clearwater should look to it's sister city Dunedin and grant non-profits a portion of the funds.	5/24/2022 7:46 AM
45	The number one was paying a debt. Part of the budget if you have money would be to pay your debt. Art and education are pretty important. Solar panels will be obsolete very soon so there's no point in spending money on that . I believe the same for fiber optic. There's a new Internet system that's coming up in the next year or two so no point in spending money there. I know that from a good source very high in the government	5/23/2022 9:22 PM
46	Affordable housing, education and county grants are critical for the community.	5/23/2022 8:54 PM
47	Fix the roads and sidewalks are important to safety. Solar panels will pay you back in 10 years and save forever after that.	5/23/2022 5:08 PM
48	Streets and sidewalks should always be the priority of a city's government.	5/23/2022 5:08 PM
49	Projects should put people and neighborhoods first.	5/23/2022 11:12 AM
50	First reimburse the City for their expenses, then focus on ensuring internet is available in all communities, and improve the conditions in Greenwood.	5/23/2022 9:04 AM
51	Keeping abreast of technology and affordable housing are necessary for the city to continue equitable growth.	5/23/2022 9:01 AM
52	I ranked based on what more could we get from the entities funded to make the money go further and increase economic and family development. If we fix a blighted area (N. Greenwood), the people young and old can get an education, better jobs, better families and give back more to the city at large.	5/23/2022 8:55 AM
53	Using the funds to build affordable/workforce housing and improve infrastructure will strengthen our local economy and uplift the lives of our citizens.	5/23/2022 6:54 AM
54	Housing. Affordable housing. Why isn't ordinance update in it? Where shall your future taxpayers live. Tiny homes? ADUs?!?!?	5/23/2022 5:44 AM
55	Affordable housing is so important for our community's well being. I ranked them in an order I thought would be most impactful to the community.	5/22/2022 9:43 PM
56	Roads and sidewalks affect all citizens and visitors. Solar on city buildings is long overdue in the sunshine state. Broadband and fiber optics will enable any users faster connection and help educate	5/22/2022 8:29 PM
57	As a licensed realtor, I find the cost of housing in our area to far exceed many working family's ability to pay. Housing should be 25% of a family's income, and right now we're closer to 60% in our area. So, families need to come first, and it is our responsibility to help them. Next, many of us are having to tighten our belts financially. For a fair number of us, this means relying on e-bikes s an alternative transportation. We need safe bike paths to ride on as narrow bike lanes are not safe. More and more people are bicycling and walking, so we need a better infrastructure for this.	5/22/2022 3:43 PM
58	Florida Senior Citizens are threatened with homelessness. Its terrifying.	5/22/2022 12:11 PM
59	Overall community improvement by improving parks and sidewalks will benefit everyone in the city.	5/22/2022 11:57 AM
60	North greenwood is important due to I have property in that area that I would like to build housing for low income seniors and veterans. Funding for incorporated pinellas county initiatives has not been readily available to do so. I believe withe this grant I would ve able to secure a loan to do so.	5/22/2022 9:43 AM

64	Affordable housing is a major issue that needs to be addressed, so that was my priority. After that, I tried to choose projects that would benefit the largest number of citizens as well as move Clearwater forward in redeveloping downtown & nearby areas.	5/21/2022 10:43 AM

68	essentials before "fluff"	5/21/2022 8:56 AM
69	I live in north greenwood. It's important to me that the community will flourish and businesses moving into the empty businesses.	5/20/2022 10:14 PM
70	Largest impact on the most residents	5/20/2022 8:28 PM
71	Education first. Our kids our future. We have crisis here. Same for affordable gousing. Sidwalks also big problem, parks to enjoy yhe city. Everything else seem to be relatively the same in priority.	5/20/2022 8:25 PM
72	Most of those projects look to be pet projects that don't benefit the whole city, but small segments of the city. I have no parks to walk to, there a foot deep hole in the sidewalk- the city focused too much on downtown and the beach.	5/20/2022 7:36 PM
73	Affordable housing should be the main focus. Cost of living is through the roof and we need to do better!	5/20/2022 6:45 PM

75	In order of importance	5/20/2022 5:58 PM
76	I think the funds should be used to benefit the community as a whole before benefiting the city/government.	5/20/2022 5:51 PM
77	The lack of affordable housing is ruining many lives. We allowed investors to buy up homes, raise the prices, making it very difficult for the average person to own their own home.	5/20/2022 5:48 PM
78	The city and its residents will better equipped for the future with better streets, better sidewalks, better connectivity and sustainable practices.	5/20/2022 5:39 PM
79	I ranked them in order of importance to residents. Upgrading a park is nice but doesn't help residents with their daily life struggles. Right now there is a lack of affordable housing. That is number 1. Things like upgrading internet will help a lot of people as will the library project. Adding solar panels to city buildings will save costs in the long run and reimbursing the city for COVID expenses is also important to remain fiscally whole. Greenwood redevelopment is good, but there are a lot of neighborhoods in the city that are also in need of assistance.	5/20/2022 5:12 PM
80	These all sound like worthy investments. I ranked according to what I believe is the biggest need and what benefits the most citizens of Clearwater.	5/20/2022 5:09 PM
81	Because I feel the City of Clearwater tends to focus it's spending on helping the poor which is virtuous but it is not enhancing our city. As a Realtor for almost 2 decades I can tell you that the reason Downtown and Clearwater fail to thrive is demographics. Retailers refuse to move there due to the income of the surrounding areas. It's time we focus our spending on cleaning up the crime, prostitution and drugs surrounding Clearwater to draw in more money.	5/20/2022 5:09 PM
82	We need more green space improvements. This survey has nothing for a community as a whole. It will only serve some of the population. What a waste if taxpayers money.	5/20/2022 2:20 PM
83	The money is suppose to be used to fix what was thrown off by the pandemic or extra expenses incurred. It shouldn't be used for pet projects that were not impacted by the	5/20/2022 9:31 AM

The city has a ticking time bomb of all these properties not having the ability to pay property taxes. It's happening in cities across North America where the big box store are closing up and cities that depended on that tax revenue have issues. We need to convert some or all of this space and part of the mall to high end office space.	6/1/2022 6:14 PM
22	Put a team together go through all city parks and remove all the dead branches from the trees (this is urgent as hurricane season is now) Many are 4" in diameter and currently are so far gone they just fall of the trees. Sometimes onto the sidewalks !!!! Clearwater seems to have stopped this activity for the last couple of years. I assume due to budget cuts. Fixing sidewalks is great but if one of these branches falls on someone a twisted ankle would be nothing compared to the injuries (death?) that one could sustain.	6/1/2022 12:49 PM

34	Dear City Council, We come to a point with what to do with the blessing of the government money and I can only think of the verse in the Bible about giving a small amount of money to 3 people. One saved it. One doubled it. And one tripled it. _ I would connect the World Class Clearwater Beach to the main Land (Downtown Clearwater) with a MonoRail Identical to Disney's but in our colors. Now that we are putting Billion Dollar Investments on this beach like the new norm I would like the Downtown to get this blessing too. With the Roundabout, I would put up a Castle very similar to Disney's in the center. You could access it under the street for tours. Waiting in traffic staring at the Castle would be amazing day or night too. People would want to come here just to see that. What Chief of Police Slaughter stated to you last meeting is we have a theme park on the beach. Or a football game here every single day on the beach. Listen to him, please. Did you hear the lady that took over 2 hours to go to the other side of the roundabout on the beach? OMG! If the monorail could also go into the disenfranchised area and back then the home values in these areas would double in a heartbeat. They can now go to the beach and back easy and free. Yes free. How later. The world-class tourist on the beach can go downtown to restaurants, and shops and the new park I bet that will be a must-see also. Summary: I would put the money into a MASSIVE people moving extremely high technological monorail system the very BEST in the nation connecting the Exploding World-Class Clearwater Beach to the new Park and the downtown area. I want to triple the money the Government has given us in a year. By putting that much down the Government would give us \$500 million to complete this, FREE! Putting skin in the deal and they are all in. Most cities are broke. Summary: By putting down that much money the Government will gladly give us at least half a Billion TO BUILD IT BACK BETTER. So by giving us free money we could easily triple it FREE by butting it down on a project or something like what I suggest that is sympathetic with this current administration in Washington DC. AI running all the Clearwater Beach (City) parking is a must. Best wishes, Blain Enderle	5/27/2022 5:27 PM

98	I know the city tried with Rec centers, but they are second class to largo highland rec. why don't we have an indoor track or a partnership with PCS to open tracks up to the community. Running is equitable exercise- no special equipment needed. This is the first place I've lived without access to a track and it sucks. Running on the multiuse trails doesn't work- too many dogs, strollers and bikes- not to mention how dangerous those crossings are with Florida drivers. I just want to run in circles- the city provides spaces for everyone else- even fake sports like pickle ball. We have parcourse, a skatepark- does Clearwater hate runners? Literally, everyone else gets a "regulation" type spot for their sport. In other areas of the country, where I can run after hours on a school track- I've never encountered vagrants- a veteran working out his prosthetic for wounded warrior games, an Olympian training for shot put, an engineer working off steam. Put a small track around tennis courts. Safety harbor has an open track, Tampa does- why can't we? Put some of the money towards making that happen, improving the health of your community would certainly cost less than the coachman park project. Not being able to run safely in my community sucks, especially when in this time of equity awareness , it's one of the few exercise options that doesn't require equipment. I moved to Clearwater to access the YMCA's track before I learned about safety harbors open track, and I don't have access without driving 20 minutes each way since the Y shut down. I know your comp plan says to co-locate facilities with schools- get a few open tracks throughout the city to have equitable access to exercise. I live near oak grove middle school- we don't have parks close by. How about a dog park near the morningside area? The only facilities provided by the city in our section, cost money. How about putting some of the \$ to offset user fees at rec centers? I have a theme to my ideas- because I have gotten so unhealthy living here with lack of access and there's no reason- most of the tracks are publicly owned. If safety harbor can do it, so can Clearwater. Please. Google it, there are threads of people looking for tracks. They allow churches to use their facilities, open parking lots during rays games and have Christmas tree sellers on school property- other places open tracks after hours. I'm not looking to run during school hours- after work and weekends. There are plenty of models around the country.	5/20/2022 8:10 PM

I feel if some of those businesses were put back in the community it could jump-start the community. not so much as bars- but businesses. 9	Along with affordable housing goes public transportation. Nothing has changed in 20 years. Still busses every hour with no service late or holidays. How are people working after hours or super early going to get to work and back? The city could partner with Uber or something to help people without cars get to work, they want to work but don't have transportation. I don't want my tax dollars putting DUI people back in jail for driving without a license. Lets get a uber or lyft city funded program for the elderly who shouldn't drive or people who don't have a license for medical or other reasons.	6/14/2022 8:37 AM

15	Safety should be a priority - people who work hard, contribute to society and to tax base should have more access to safe events, safe cultural events, should have law enforcement present in their neighborhoods too. Our children should have safe places to go and should not be afraid that they may be assaulted if they go to the beach or to an event (festival, activity, etc). I am tired of so much funding going into programs to help those "at risk, in need, etc" It seems we have gotten to the point where we are enabling people and they don't have to work hard (you can get way more financial aid for private school and college if your parents are not married, if only one claims you on income taxes, you have lower income on paper because your family is self employed and is able to not claim some income) It is sickening that we are	5/31/2022 12:15 PM

How Should Clearwater Spend the City's American Rescue Plan Act Funds?

at the point where honest, hard working, law abiding, tax paying citizens are not able to live in clean, safe, environments where there is cultural and social programming readily available for them to enjoy. I am tired of seeing homeless walking around, seeing litter on the streets, feeling unsafe, having public schools that either the wealthy or those who have parents who financially qualify for income based scholarships are leaving public school to go to private schools - I am tired of people getting slapped on the wrist for crime and am sick to my stomach when I see people walking around with Anke monitors because our jails are overpopulated. I am tired of the mental health system where people have such difficulty accessing timely and appropriate services. I think it is horrible that there are many people who want help, but who can not afford to take on the additional cost of counseling. For working people who have to pay large health insurance deductibles or who have to self pay for mental health care the additional 75 -200 a week just isn't possible. Put some money into mental health care, pay therapists more (master level therapists make less than new teachers and they get less time off, work long hours).

16	In Clearwater, I pay more money per month for my water/garbage than anyone else i know that lives in pinellas county. \$150 per month for a single household is a lot. 37	thanks for asking for input	5/21/2022 11:50 AM
38	Re ensnare the employees fired or released at Clearwater Gas.Find a replacement for Micha the acting head of Engineering with a competent engineer and non political person.	5/21/2022 9:36 AM
39	Please slow down on constant development. We need to look at more public green space rather than constant new building, especially on the beaches. Climate change is real yet Clearwater behaves as if it will not affect us.	5/21/2022 8:09 AM
40	Projects that encompass the city as a whole would benefit a greater range of residents and an overall improvement such as streets and affordable broadband.	5/20/2022 11:39 PM
41	Ofrer more things to do besides the beach like make Clearwater like Channelside or more nightclubs, restaurants. Put more things on Gluf to Bay.	5/20/2022 8:44 PM
42	Please don't use it all on politicians pet projects. The rest of us live here too. Make it transparent online when the projects are selected	5/20/2022 8:12 PM
43	Please make sure that Scientology does not get money	5/20/2022 7:14 PM
44	Why can't some of the funding go towards a place for our homeless in Clearwater?	5/20/2022 7:08 PM
45	Underground utilities to be installed on the barrier islands of Clearwater Beach and Island Estates.	5/20/2022 6:30 PM
46	Come up with a bright idea that makes buying a home something the person or family will live in, not a commodity to make \$.	5/20/2022 5:51 PM
47	I have lived in Clearwater for 21 years on the border of North Greenwood. I often debate moving because nothing is being done to handle the crimes surrounding my family home. I would rather stay. I like my home and its proximity to things I like but this is a prime example of what happens. The higher income families move out of Clearwater because no clean up is occuring after several decades.	5/20/2022 5:13 PM
48	We appreciate you using these funds to help Clearwater shine!	5/20/2022 5:10 PM
49	Why isn't all of Clearwater incorporated? How can that be addressed and possible make all of Clearwater incorporated.	5/20/2022 4:04 PM
50	Don't forget about your employees. They worked hard throughout the pandemic and were not rewarded for their hard work.	5/20/2022 3:01 PM

Q8 If you'd like to stay updated about the city's spending of ARPA monies, please leave us your contact information.
