

# MetalCraft Marine

I N C O R P O R A T E D

Date: September 16, 2016

## **Agreement Between**

Clearwater Fire and Rescue Department (CFRD)

1140 Court Street

Clearwater Florida 33756

and

MetalCraft Marine Inc. (MCM) (Builder)

583 East Broadway

Cape Vincent, NY 13618

This is an agreement to enter into a contract for the construction of one MetalCraft Marine Model FireStorm 32 diesel waterjet. The boat shall be built in accordance with the terms & conditions included herein. Any modification to this contract shall be done in writing with the acknowledgement of both parties on MCM's standard Design Change Form, sample enclosed.

## **ADDITIONAL DETAILS;**

The parties agree that the contract will be subject to the laws of Florida.

## **Contract Inclusions;**

- Signed General Arrangement of craft
- MCM Specification
- Commercial Warranty
- Design Change Form
- Acceptance Document

## **Contract Conditions:**

- 1) All construction is to United States Coast Guard (USCG) Code of Federal Regulations (CFR-46), Sub-chapters applicable to Recreational Boating Safety Regulations, ISO 12215 structural standard and the American Boat & Yachting Council or TP 1332, Standards as applicable.
- 2) All electrical work as specified is supplied and installed and fully tested and conforms to American Bureau and Yachting Council, Marine Electrical Standard E-2. All wiring will be labeled for easy identification.

- 3) All welding and vessel structure will comply with the American Bureau of Shipping standards for high speed aluminum vessels, Building & Classing of High Speed Aluminum Vessels.
- 4) MCM will provide the appropriate Hull Identification Number and documentation for the customer's purpose of registering the boats in their home State/Province.
- 5) MCM reserves the right to select all parts and gear not specifically referenced in the specification. MCM shall build the boat according to the attached specification. The customer has full rights to request specific gear during the contract period with considerations for price and delivery adjustment.
- 6) We approve the customer's right of complete access to the vessel during normal hours or by prior arrangement.
- 7) Any and all changes to the contract or the specification will be documented on MCM's standard Design Change form, copy enclosed. All changes will require the owner or its representative's authorized signature prior to work commencing. Changes that require fixed cost estimates in advance of approval by the customer will permit the builder to charge for his time and material in establishing the fixed cost estimate, as many estimates will require some engineering or engineering considerations. All DCR's will establish any resultant schedule changes.
- 8) The Parties agree that Time is of the essence. The builder shall do everything in its power to expedite all materials to the factory and maintain its production schedule. Any delays that are beyond the control of MetalCraft Marine shall be conveyed to the customer as soon as these are known. MCM is responsible for timely placement of Purchase Orders relating to the equipment specified.

All written questions requiring advice from the customer, requires a written response within 48 hours to prevent any potential delay. This includes drawing approvals.

Any delay to drawings approvals, including requests for additional information that is critical to the schedule beyond 48 hours extends the Contract by that number of days. All MetalCraft drawings are subject to change based on changes in equipment supplier's specifications and availability and continuous improvements to our product line.

The Technical Representative of the end user and or Representative of the Buyer shall meet with the MCM Technical Representative for an Engineering Conference within three weeks of Contract signing to review and confirm all design and specification items. Location shall be determined or held by conference call if it is not possible to co-ordinate schedules.

Written information will be accepted by fax or headed e-mail. Phone number for questions are; MCM 800-410-8464. CFRD contact: Chief Kent Watts, 727-562-4334 Ext 3156. E-mail addresses for questions are; MCM, [bob@metalcraftmarine.com](mailto:bob@metalcraftmarine.com) CFRD Contact, [Kent.Watts@MyClearwater.com](mailto:Kent.Watts@MyClearwater.com).

- 9) MCM maintains a comprehensive Ship Builder's Risk insurance policy covering all aspects of the vessel, from commencement of construction. Our insurer is Arthur J Gallagher of London. Shipping insurance covers all aspects of loss and liability not covered by the licensed carriers of the vessel, including both trucking and transport by ship. The Ship Builder's Risk policy ends when the boat has been loaded upon its conveyance which meets the requirement of FOB, (Free On Board); at this point the shipping insurance covers the vessel, from time of departure from the MCM yards to signed receipt by the purchaser at its destination. **This contract includes shipping insurance and freight costs.** Any damages or deficiencies found after receipt of the vessels at the delivery port shall be rectified by MCM and so noted on the receipt document. MCM will endeavor to correct such deficiencies immediately, but certain items may require outside equipment that is beyond MCM's control.
- 9.1) A Warranty Statement is attached as a Contract Inclusion. It includes a Warranty Claim form, which should be submitted to MCM when submitting a warranty claim with all details. Each of the Equipment suppliers individual warranties apply and transfer to the customer.
- 10) The vessel will be trialed and accepted by the customer or customer's representative at the contractor's facility. This signed acceptance will be known as the Preliminary Acceptance and indicates the customer or customer's representative has inspected the vessel and indicated by his/her signature that the vessel meets the specifications in all respects and is ready for shipment. Any deficiencies found by this inspection shall be rectified by the contractor at the contractor's expense and completed in a timely manner prior to shipment of the vessel.
- 11) The customer is responsible to provide his own inspection during construction.
- 12) The Contract covers 3 days of operator training in Clearwater FL. We recommend no more than four persons for operator training for more positive results. MetalCraft shall also commission the vessel at Clearwater after delivery; perform restart of engines and all systems.
- 13) Payments based on submitted invoices and approved documentation shall be made within 10 days of submission of appropriate documentation. We have included our banking information for wire transfers.

#### BANK TRANSFER DETAIL

- 14) If the Builder (MCM) is found to be in Breach of the Contract the Buyer must notify the Builder in writing clearly stating the clause breached. The Builder shall have 30 days from receipt of Notice by the Buyer to rectify the Breach noted.
- 15) If the customer, CFRD terminates the contract for convenience, they shall notify MCM immediately by certified or registered mail and, or courier. MCM shall immediately stop work upon receipt of the notice. The customer shall be responsible for all costs incurred up to that time including labor and any materials on hand or that have been ordered by MCM purchase order that cannot be cancelled and any restocking charges levied against MCM by its suppliers, plus a reasonable profit that is the same level of profit that MCM would have made on the contract, had it been completed.
- 16) The 8 month delivery period is subject to conditions beyond the control of MetalCraft Marine as described in this Contract, including shipping delays of the carrier. Such delays beyond the Builder's control are considered Force Majeure.
- 17) The contract price and payments are to be made in US Dollars.

**Contract Pricing and Terms: \$606,248.00**

**Payment Terms:**

Draws as per schedule;

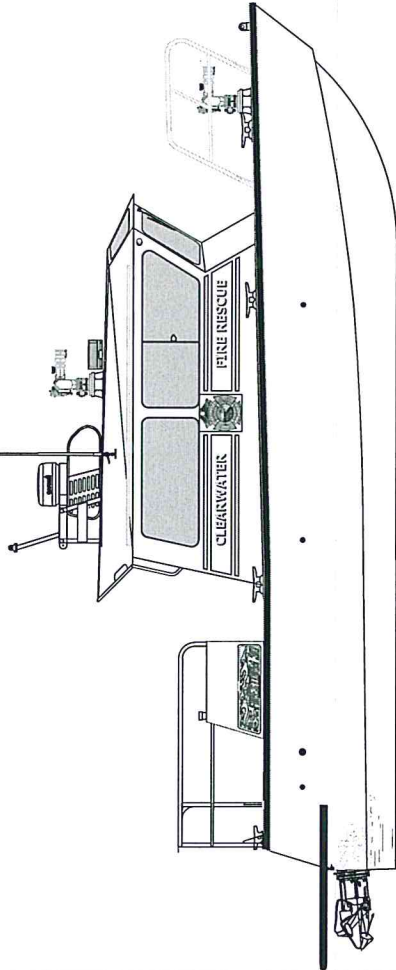

15% after signing of Contract,  
15% after receipt of cut parts,  
30% Metal structure complete,  
30% Engines, on site,  
10% upon Final Acceptance after delivery, commissioning and completion  
of training

## Standard Features

METAL HULL	\$91,174.72
------------	-------------

The FireStorm 32 boat is 35'-11" x 10'8" with a draft 22". It comes complete with 1/4" bottom and 3/16" hull sides. The deck is 3/16" non-skid plate. The entire structure complies with ABS welding standards, and conforms to ABYC standards. Furthermore, the boat meets USCG CFR 46. The boat is one of the most successful of all of the Firestorm line and has been tested in very heavy seas. The FireStorm 32 incorporates a push knee on the bow of the boat with heavy-duty rubber fendering. The push knee box is designed as a crumple zone in the event of a head on collision. The FireStorm 32 includes a full MetalCraft Marine 10 year hull warranty.

## Cleanwater Fire Firestorm 32

METAL OTHER	\$75,248.44
-------------	-------------

The FireStorm 32 has a raised cabin and pilothouse superstructure with 6'6" of clearance and also includes twin P&S consoles. From the bridge, there is 360° visibility. Raked forward windshield reduces glare, improving visibility and water clearing in rough seas. Standard bow rails will also be included on both the outside and inside of the cabin, ensuring additional safety. A hinged dive ladder works with the dive platform for improved survivor retrieval. The FS 32 comes with a large patient berth to port and a smaller one to starboard, both have storage under. There are multiple hatches throughout the boat; the main engine hatch includes gas shocks and retainer lock when open; Cabin fuel space deck hatch is a Heatercraft 41"x19" sized hatch; the anchor locker forward has a Freeman watertight hinged hatch as per ABYC. The FS 32 design also incorporates diagonal strakes on the both port and starboard hull for increased rigidity and vertical protection of the rubrail from shearing force. The proprietary sea chest provides a slight positive head to the pump intake and exceeds NFPA intake sizing, hence the pump can produce more than it's rated capacity.

INCORPORATED

## METALCRAFT MARINE WARRANTY

MetalCraft Marine Inc. (MCM) guarantees that the craft sold to the Buyer shall at the time of delivery, be free from defects in materials and/or workmanship. Such guarantees by the contract and MCM shall be in force for a **twelve (12) month** period from the date that the vessel enters service. MCM warrants its hull assembly and welds for a **ten (10) year** period from the date the vessel enters service.

### ***MetalCraft Marine Warranty***

Our boats are designed with a 25 year service life. We assure our boats to be free of defects in materials and/or workmanship for 12 months and warranty our hull seam welds for an **industry leading 10 years**. We have a customer support team that is available 24 hours a day, 7 days a week. Our policy is to take action on service calls within 24 hours. We have highly trained technicians that can be rapidly deployed to any location to ensure that our boats remain ready and able to fulfill their mission at all times. We build strong relationships with our customers and invite you to contact any or all of our references..

MCM makes no guarantee with respect to accessories or equipment manufactured by others, but hereby extends the manufacturer's guarantee, if any, to the Buyer. The propulsion system components carry a separate guarantee by their individual manufacturer's which transfer to the Buyer. These individual guarantees are included in the Buyer's manual's package. MCM assumes no liability for defects found with this equipment. Any malfunction within the propulsion system should be reported to the original equipment manufacturer (OEM) directly or to its local dealer or representative. The manual's package will include phone or fax numbers for contacts.

The Buyer will notify MCM of any defects that are discovered within the warranty period. The Buyer shall report the defect on the warranty claim form found in the manual. Whenever practicable, the Buyer shall, in addition to giving MCM notice of any defect, afford MCM an opportunity to examine the defect or provide evidence of the defect to MCM. Within a reasonable time after such notice MCM shall expeditiously proceed to correct the defect.

Should it not be possible or expeditious for the Buyer to return the defective part to MCM, MCM will authorize a local service center or the customer to carry out the necessary repairs, or send MCM employees to the craft's location at MCM's option. MCM's liability for a repair in the field shall not exceed the cost of repair had the work been conducted at MCM's building facility. The warranty period for the replaced or corrected supply shall remain in effect for one year.

MCM shall have no liability for defects caused by abuse, negligence, or collision occurring, non-approved operations in ice after transfer of title from MCM, or with respect to parts that have been altered or repaired by anyone other than MCM or its nominee.
