

FY2018 SUNCOM E-rate Contracts

Acronym Key:

ACD = Allowable Contract Date - the earliest date that an applicant can sign a contract for contracted services or enter into an arrangement for tariffed (T) or month-to-month (MTM) services with a service provider. This date must be a minimum of 28 days after the posting of the FCC Form 470 and/or the public availability of the RFP (if one is issued), whichever is later. From the USAC E-rate Glossary of Terms (Addend PDF Document)

AD = Award Date: Earliest date you can begin using the contract after all signatures have been received

SPIN = Service Provider Identification Number

Service	Company	SPIN	Contract Number	Form 470 Number	Allowable Contract Date	AD	Termination Date	How many bids were received for this 470?	Does this contract include voluntary extensions? Yes or No	How many Renewals are left on the contract?	If yes in column k: What is the contract expiration date if all extensions are exercised?	Is there a statute, rule, or other restriction which prohibits publication of the specific pricing information for this contract? Yes or No

§ Some customers may be billed directly by the provider. Customers billed directly by the provider should file their own E-rate application for the direct-billed service. If you are unsure if

§ In some situations, customers may be directly billed by provider for this service, rather than receiving bills from DMS. Direct-billing by provider may occur if any of the following are true:

§ Only Wireless Air Cards are billed through DMS. All other equipment or services will be directly billed to the customer by the provider.
