INSTRUCTIONS – EVALUATION

- i.21 **EVALUATION PROCESS.** Bids will be reviewed by the Procurement Division and representative(s) of the respective department(s). The City staff may or may not initiate discussions with bidders for clarification purposes. Clarification is not an opportunity to change the bid. Bidders shall not initiate discussions with any City employee or official.
- i.22 **PRESENTATIONS/INTERVIEWS.** The bidder must provide a formal presentation/interview upon request.
- i.23 **CRITERIA FOR EVALUATION AND AWARD.** The City evaluates three (3) categories of information: responsiveness, responsibility, and price. All bids must meet the following responsiveness and responsibility criteria to be considered further.
- a) **Responsiveness.** The City will determine whether the bid complies with the instructions for submitting bids including completeness of bid which encompasses the inclusion of all required attachments and submissions. The City must reject any bids that are submitted late. Failure to meet other requirements may result in rejection.
 - b) **Responsibility.** The City will determine whether the bidder is one with whom it can or should do business. Factors that the City may evaluate to determine "responsibility" include, but are not limited to: excessively high or low priced bids, past performance, references (including those found outside the bid), compliance with applicable laws-including tax laws, bidder's record of performance and integrity - e.g. has the bidder been delinquent or unfaithful to any contract with the City, whether the bidder is qualified legally to contract with the City, financial stability and the perceived ability to perform completely as specified. A bidder must at all times have financial resources sufficient, in the opinion of the City, to ensure performance of the contract and must provide proof upon request. City staff may also use Dun & Bradstreet and/or any generally available industry information. The City reserves the right to inspect and review bidder's facilities, equipment and personnel and those of any identified subcontractors. The City will determine whether any failure to supply information, or the quality of the information, will result in rejection.
 - c) **Price.** We will then evaluate the bids that have met the requirements above.
- i.24 **COST JUSTIFICATION.** In the event only one response is received, the City may require that the bidder submit a cost proposal in sufficient detail for the City to perform a cost/price analysis to determine if the bid price is fair and reasonable.
- i.25 **CONTRACT NEGOTIATIONS AND ACCEPTANCE.** Bidder must be prepared for the City to accept the bid as submitted. If bidder fails to sign all documents necessary to successfully execute the final contract within a reasonable time as specified, or negotiations do not result in an acceptable agreement, the City may reject bid or revoke the award, and may begin negotiations with another bidder. Final contract terms must be approved or signed by the appropriately authorized City official(s). No binding contract will exist between the bidder and the City until the City executes a written contract or purchase order.

- g) A contractor who fails to provide the public records to the public agency within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes.
- h) If a civil action is filed against a contractor to compel production of public records relating to a public agency's contract for services, the court shall assess and award against the contractor the reasonable costs of enforcement, including reasonable attorney fees, if:
 - 1. The court determines that the contractor unlawfully refused to comply with the public records request within a reasonable time; and
 - 2. At least eight (8) business days before filing the action, the plaintiff provided written notice of the public records request, including a statement that the contractor has not complied with the request, to the public agency and to the contractor.

The City or its authorized agent reserves the right to inspect any records related to the performance of work specified herein. Any officer, employee, or agent that fails the background check must be replaced immediately for any reasonable cause not prohibited by law.

STANDARD TERMS AND CONDITIONS

- S.16 **SECURITY CLEARANCE AND REMOVAL OF CONTRACTOR PERSONNEL.** The City will have final authority, based on security reasons: (i) to determine when security clearance of Contractor personnel is required; (ii) to determine the nature of the security clearance, up to and including fingerprinting Contractor personnel; and (iii) to determine whether or not any individual or entity may provide services under this Agreement. If the City objects to any Contractor personnel for any reasonable cause not prohibited by law, then Contractor will, upon notice from the City, remove any such individual from performance of services under this Agreement.
- S.17 **DEFAULT.**

The defaulting party will have thirty (30) days from receipt of the notice to cure the default; the thirty (30) day cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non-defaulting party to provide notice of the default does not waive any rights under the Agreement.
 - d. **Anticipatory Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event that the demand is made and no written assurance is given within five (5) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement.
- S.18 **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:
- a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.
 - b. The City may purchase the services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.
 - c. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.
 - d. Neither party will be liable for incidental, special, or consequential damages.

3.1.4 Repairs to Existing Facilities

All portions of the existing structure, facility services, utility roads, and irrigation systems shall always be protected against damage or interrupted service by the Contractor. 3.1.6 Traffic Control and Pedestrian Safety

The Contractor is responsible for establishing and maintaining safe work zones in vehicular traffic areas, as well as pedestrian and park user areas. The Contractor shall coordinate maintenance operations in certain high pedestrian use areas and peak time periods with the City (the winter tourist season is generally not an acceptable time to close traffic lanes for maintenance). The P&R Department reserves the right to limit the hours of operation in certain high pedestrian used areas.

DETAILED SPECIFICATIONS

Two-way traffic shall be maintained at all times through intersections and roadways. Closure is not permitted.

The Contractor shall be fully acquainted and comply with City of Clearwater's safety requirements and Maintenance of Traffic (MOT). The Contractor shall maintain all work sites free of hazards to persons and/or property resulting from performance of work. Any hazardous condition noted by the Contractor, which is not a result of performance of work, shall immediately be reported to the P&R department representative.

3.1.8 Failure to Perform Satisfactorily

All maintenance shall be performed in a good and workmanlike manner, consistent with trade practices and prevailing industry standards.

It is agreed and understood that in the short term, if the Contractor fails to perform the work as specified herein, the P&R Department will only pay for the amount of service received as determined by the representative, with an appropriate downward adjustment in contract price, or may have such work performed by a third party vendor at the expense of the Contractor.

3.1.9 Maintenance Scheduling

Each location has been designated a level of service identifying the frequency of maintenance it will receive. Designations are: Level 1P, 2P, 3P; Level 1G, 2G, and 3G, etc. The specific level of service and scheduling is established by the City. Monthly visits should occur within the designated week, as identified in Exhibit B, Landscaping Maintenance Services Calendar unless approved by the P&R Department. The City reserves the right to increase or decrease the number of visits based on local conditions or other variables and such change(s) will be reflected in a base bid adjustment.

The Contractor will adhere to the work schedule provided by the City (Exhibit B, Landscaping Maintenance Services Calendar). Authorized representatives of both parties must approve any variations to that schedule in writing.

3.2 Work Specifications. The Contractor shall provide the following full scope of services at each designated location during each scheduled visit. ALL services are required – the variance is only in frequency and schedule for each location.

3.2.1 Litter Removal

Cleaning of the entire grounds shall be performed as part of regular maintenance. During each scheduled maintenance visit, remove trash and debris from the site. Properly dispose of the trash and debris, including cigarette butts, loose paper, and other bits of small debris. All paper, trash, leaves, twigs, branches, dead plants, trimmings, pruning and other objectionable materials shall be

DETAILED SPECIFICATIONS

picked up and removed from all landscape areas as well as adjacent parking lots, driveways, underside of bridges, pedestrian bridge, sidewalks and entrances within the site limits. Remove all debris, which accumulates in the corners of the parking lots and besides parking stops. Remove all broken glass that is present in parking lot and on walkways, curbs, or other hard surfaces. All sand, gravel, and soils shall be thoroughly cleaned, swept or blown off all pavements adjacent to maintenance areas and disposed of properly off site.

The Contractor shall not allow landscape debris and trash to accumulate in any area. All parking lots shall be cleaned of debris on each service event, preferably when a minimal number of cars are parked in the lots. All waste materials generated by the Contractor's operations will be disposed of properly off-site. Under no circumstances will trash or debris be swept in or disposed of in catch basins, drainpipes, storm drains or open culverts of storm sewers.

Extraordinary amounts of debris caused by hurricanes, tornadoes, vandalism, special events or roadside dumping will not be the responsibility of the Contractor and removal may be requested by the City as additional services. The Contractor should report such accumulations of debris when encountered. Quotations for any extraordinary cleanup from the Contractor will be considered.

3.2.2 Turf Maintenance

Lawn mower blades shall be clean, kept sharp, and well-adjusted to provide a clean cut. No more than one-third (1/3) of the total grass blade shall be removed per mowing, while cutting grass too closely (scalping) shall be avoided. Mowing patterns shall be changed regularly to avoid rutting. Use small mowers for difficult or tight areas where larger commercial mowing units cannot maneuver.

Turf areas shall be maintained at the appropriate height indicated below:

<u>TURFGRASS</u>	<u>MOWING HEIGHT</u>
------------------	----------------------

St. Augustine	Three (3) to four (4) inches*
---------------	-------------------------------

Bahia	Three (3) to four (4) inches*
-------	-------------------------------

*Higher cutting heights to be used during dry conditions

Mowing shall be done optimally when the grass is dry; however, mowing wet turf is acceptable. Bagging is not required, and grass clippings can be left on the grass so long as no readily visible clumps remain on the grass surface after mowing. If clippings are excessive or diseased, they shall be removed after mowing to enhance overall turf appearance and to prevent matting, clumping, and thatch buildup. In the case of fungal disease outbreaks, clippings will be collected and disposed of offsite until the disease is controlled.

The Contractor will clean all clippings, dirt and debris from sidewalks, curbs, storm drains, valve boxes and roadways after mowing and/or edging. Mowers should not direct discharge into the street or landscape beds, unless unavoidable. Approved deflector chutes must be attached on the discharge points of the mower. Clippings, dirt, and debris will not be swept, blown or otherwise disposed of in any landscaped bed areas, roadways, sewer drains, catch basins, drain pipes, storm drains or open culverts of storm sewers. The final appearance after mowing shall present a neat appearance.

In the event that the turf becomes sparse or barren due to neglect by the Contractor, the Contractor shall repair or replace sod to meet its previous healthy condition at no additional cost to the City. Turf areas shall be kept at all times as green and healthy as possible, while maintaining a high level of appearance.

Care shall be taken with mowing equipment to avoid obstructions such as trees, shrubs, utility boxes, signage, buildings, etc. Contractor shall be responsible for damage caused by its operations.

DETAILED SPECIFICATIONS

Seeding and sodding is not a requirement of this Invitation to Bid. Such work may result in an additional charge to the contract, based on a request from the City for quotations and must be approved by the City in writing.

Turf edging shall be performed at the same frequency as mowing and shall include walks, drives, curbs, planting bed perimeters, tree rings, storm drains, valve boxes, bollards, air reliefs, and other structures that accumulate grass around them. String trimming is not to be performed against the base of any tree or shrub. Isolated trees and shrubs growing in lawn areas require a mulched buffer area around the base of the plant to avoid bark injury from mowers and to reduce root competition from turfgrass (minimum one (1) foot radius from edge of trunk or shrub drip line). Grass adjacent to all valve boxes and quick couplers shall be trimmed to maintain a clean appearance. Grass adjacent to structures, poles, etc. that cannot be serviced by standard mowing procedures, shall be regularly trimmed using a line trimmer to eliminate uneven edges or an approved herbicide may be used to create a buffer around infrastructure and trees. Herbicides shall not be used as an "edger" adjacent to walks and curbs but may be used around shrubs and trees by a certified applicator with the written approval of the City.

3.2.3 Palm Maintenance

Palm Pruning is required to regularly remove dead fronds and sucker growth to provide an attractive and clean trunk as characteristic of each particular palm species, limited to fronds reachable under twelve (12) feet high. Remove dead or unsightly fronds and seed heads from palms. No green palm fronds shall be removed unless the foliage is interfering with access for pedestrians, bike riders or vehicular traffic. Dead, yellowing or unsightly fronds should be removed as needed in routine maintenance. The objective is to retain the arching form of the fronds. Care shall be taken not to cause trauma or damage to the bud during pruning. Saws shall be sterilized, using standard ISA sterilization protocols, between each *Phoenix dactylifera* 'Medjool' palms as to not cross contaminate other trees. Remove only the dead descending fronds below the "9-to-3 o'clock" horizontal line; only palms dead or yellowing shall be removed above the "9-to-3 o'clock" horizontal line under twelve (12) feet high. No spikes or sharp objects are to be used that would penetrate the trunk during pruning; ladders or "cherry picker" type vehicles shall be used to accomplish this task. Palm trunks shall be maintained with a neat, rounded classic cut on all boots. All dead and/or pruned fronds, seeds, seed heads and suckers are to be removed from the site the same day and disposed of properly by the Contractor. Contractor shall be responsible for removing any fronds that are nicked by the saws but do not drop until later. Additionally, palms should be routinely checked for signs of distress or disease in the trunks, buds or fronds. Any evidence of disease affecting the palms is to be promptly reported to the respective department representative.

In the event an extraordinary amount of debris caused by severe storm damage, hurricanes, tornadoes or vandalism; clean up and removal of all fallen or broken palm tree branches shall be the responsibility of the City. The Contractor shall notify the City of any large amounts of debris. Such work may result in a request from the City for quotations and must be approved by the City in writing.

3.2.4 Shrub and Groundcover Maintenance

Pruning is defined as the selective elimination of branches to maintain or improve the size or shape of a plant. Trimming is defined for shrubs and ground cover as cutting of the overall tips of a plant to give a smooth, squared, hedge-like appearance. The growth characteristics of some plant species require pruning; others require trimming to look their best. All plant materials shall be maintained in a neat, well-manicured fashion at all times.

All shrubs and ground covers shall be pruned to maintain the suitable size and character of the plant. No shrubs or groundcovers shall be allowed to grow above the Florida Department of Transportation (FDOT) "Clear Sight Window" criteria when in sight visibility triangle.

Plants that have a natural "unpruned" form should be selectively pruned, except for removal of dead or damaged branches and leaves or to maintain a certain height required by the plant material usage. These shrubs will be pruned with hand shears as needed to provide an informal shape,

DETAILED SPECIFICATIONS

fullness and bloom. Examples of these types of plants are Parson's Juniper, Bird of Paradise, Crinum Lily, Cardboard Palm, King Sago, Heavenly Bamboo, Split- Leaf Philodendron, Red Fountain Grass and Schefflera.

Plants used as linear hedges or borders should be trimmed squarely with top of hedge slightly narrower than the bottom to facilitate exposure to sun and prevent heavy shading of lower foliage. Use a "rounding" method when the hedge forms the bordering edge of a serpentine bed design, in which case round only vertical faces of border. As new foliage fills in, remove excessively long branches to encourage fullness and good shape. Examples of these types of plants are Pittosporum, Podocarpus, Silverthorn, Oleander, Boxthorn, Viburnum and Indian Hawthorn.

Groundcover species shall be confined within the perimeter of the planting bed and shall be maintained a minimum of twelve (12) inches away from building structures. Groundcovers shall be edged and maintained along all hardscapes with each site visit. Supplemental top shearing may be required to present a neat appearance. In addition, all climbing vine-like groundcovers shall not climb up through other plant species within planting bed or structures, unless specified by the City of Clearwater. Examples of groundcover types include Confederate Jasmine, Lantana, Liriope, Aztec grass, Ivy, Ornamental Sweet Potato and Perennial Peanut.

During the growing season (March-October), all high maintenance shrubs and groundcovers may require additional trimming during each visit. All low maintenance shrubs and groundcovers will be trimmed as needed. During the winter season (November-February) all shrubs and groundcovers shall be trimmed as needed to maintain a neat appearance. Ornamental grass species shall be renewal pruned down to eight (8) to twelve (12) inches in height in late February each year. Perennial Peanut shall be maintained between three (3) to six (6) inches in height and shall be mowed and/or line trimmed during one (1) monthly visit in the months of April, June, and August, or unless changed by the request of the respective department representative.

Do not trim or shear shrubs into topiary forms unless specifically requested by the City. Allow shrubs to form a dense mass of plants at the height determined by the City.

3.2.5 Weed Control in Landscaped Areas

The Contractor shall monitor the landscape for weeds at each scheduled service visit. All planting beds and tree rings are to be kept weed-free throughout the year to avoid competition with desirable plants, as well as to enhance the appearance of the overall design. All weeds shall be removed from landscape beds and properly disposed from the site, on the same day by the Contractor.

Undesirable weed species shall be removed by hand or through chemical applications using City approved products according to manufacturer's recommendations and label instructions. Chemical products such as a selective, non-selective or a pre-emergent approved by the Environmental Protection Agency may be used for weed control with the City's approval. Approved herbicide treatment shall be applied by an experienced applicator under the direct supervision of a licensed, certified pest control professional and only with the City's approval.

Weeds, which have been chemically treated, shall be removed from the landscape *after* overall plant color quality has changed from green to yellow. Should these chemicals damage any desirable plant material, including sod, the Contractor at no cost to the City, shall immediately replace the same size, quantity and quality of plants.

"Volunteers", invasive plants and trees which germinated from seeds dropped by birds or spread by wind in a planting bed and are not of the same species, shall be declared and removed like a weed, including the roots through treatment or hand removal methods.

Weeds on hardscapes such as walkways, permanent and temporary parking lots, adjacent public and private roadways, pavement cracks and any other paved areas, including rights-of-way and adjacent work areas within the contract limits, shall be removed by hand or chemically killed and removed with each service.

3.2.6 Fertilization Program

The Contractor shall perform routine inspections during site visits and notify City staff of any findings – to include but not limited to: stressed plants, dying sod, etc. – which require the City's attention. Fertilizer shall be applied by City staff.

3.2.7 Diseases and Pests

The Contractor shall practice Integrated Pest Management (I.P.M.) to control insects and diseases at each site. Upon confirmation of a specific problem requiring treatment, the Contractor shall report to the City the proposed treatment.

Fire ants and wasps, as well as any other damaging or health-endangering pest, will be treated promptly by the Contractor so as not to present a hazard. If the population appears to be too large for an application, it must be reported to the City for prompt treatment. The City will make alternative arrangements for any bee removal necessary.

All damage occurring from improper or careless application of chemicals shall be the responsibility of the Contractor.

Turf. The Contractor shall inspect turf each visit for indications of pest infestation. Diagnosis and any specific treatments shall be submitted in writing or by phone to the City for approval prior to application.
