Coachman Park Add-back Discussion

**No Council action requested
at this time.**

We will provide a final recommendation with the last estimate of cost and a contingency amount when proposed by Skanska with the third and final GMP in August.

Conservancy

**No Council action requested
at this time.**

We want to update you on the conservancy
consultant selection process.

Fundraising Consultant

No Council action requested at this time.

We will discuss potential scope of project and process to obtain bids. For work that would be over \$50,000, we will return to council for authorization for formal bids. Should it be indicated that estimates could be under that amount, a less formal but still deliberate selection process would be warranted. Future authorization for expenditure of funds would still be necessary.

Coachman Memorial and Legislative Recognition Monument

**No Council action requested
at this time.**

We want to discuss with council the vision for recognition of the Coachman family, as well as nature and location of a founders monument to the new park and waterfront.

Marina Access and Parking During Construction

**No Council action requested
at this time.**

We will update council on the plan for
accommodation of marina tenants
during the period of construction.
