Attn: Leroy Chin

Re: New Gymnasium Floor – The Long Center

Mr. Chin,

Please consider this correspondence as an offer from Impact Sport Surfaces, Inc. to perform complete demolition and replacement of Maple Parquet flooring at the above referenced facility. The facility, "The Long Center" is located at 1501 N. Belcher Road in the City of Clearwater, 33765. The specific space within that location is known as "Room 120 Gymnasium."

Work will be completed within a 60-day window from notice to proceed, provided that the window does not begin prior to the first workday after the Labor Day weekend. Specifically, we would request a window of September 7th until November 5th to complete the scope of work. Barring unforeseen conditions, Impact will have the proposed scope of work completed and ready for use, including cure time, within that allotted time frame.

Impact will provide a "Payment and Performance" bond if required. The cost of this documentation / surety is not included in the proposal price. If requested / required, the cost would be \$ 4,528.00

Within our pricing proposal (Attachment A), we will include a separate 10% contingency for additional or unforeseen work. If such work is needed, Impact will request, in writing, to the Owner for additional scope and funding. In turn, the Owner will authorize, in writing that additional scope and the corresponding funding. Any remaining funds shall be returned to the Owner at the closeout of the job as unused.

Andrew Reid – VP / Partner
