SUBJECT/RECOMMENDATION:

Approve Engineer of Record (EOR) work order to Biller Reinhart Engineering Group, Inc., for 2021 Bridges Repair (20-0027-EN) in the amount of \$161,150 and authorize the appropriate officials to execute same. (consent)

SUMMARY:

The Engineering Department is responsible for inspection and maintenance of twenty-six vehicular and pedestrian bridges.

Based on bridge inspection reports, provided by (EOR) Biller Reinhart Engineering Group and the Florida Department of Transportation (FDOT), fourteen bridges require preventative maintenance. This periodic maintenance project maximizes service life of city-owned bridges.

This work order provides design, bidding services and construction engineering services for the bridge maintenance project.

Staff plans to procure a Construction Manager firm, via the City's Construction Manager at Risk (CMAR) Continuing Services Contract to construct the repairs once the design is complete in early 2021.

APPROPRIATION CODE AND AMOUNT:

ENRD180002-DSGN-PROSVC \$161,150

Funding is available in Capital Improvement project ENRD180002, Bridge Maintenance & Improvements, to fund the work order.
