SUBJECT/RECOMMENDATION:

Approve the annexation, initial Future Land Use Map designations of Residential Low (RL) and Water/Drainage Feature Overlay and initial Zoning Atlas designation of Low Medium Density Residential (LMDR) District for 1719 Owen Drive, and pass Ordinances 9656-23, 9657-23, and 9658-23 on first reading. (ANX2023-01002)

SUMMARY:

This voluntary annexation petition involves a 0.201-acre property consisting of one parcel of land occupied by a detached dwelling. The property is located on the east side of Owen Drive approximately 340 feet north of State Road 590. The applicant is requesting annexation in order to receive sanitary sewer and solid waste service from the city. The property is contiguous to existing city boundaries to the north and east. It is proposed that the property be assigned Future Land Use Map designations of Residential Low (RL) and Water/Drainage Feature Overlay and a Zoning Atlas designation of Low Medium Density Residential (LMDR).

The Planning and Development Department determined that the proposed annexation is consistent with the provisions of Community Development Code Section 4-604.E as follows:

- The property currently receives water service from the county. The closest sanitary sewer line is located in the adjacent Owen Drive right-of-way. The applicant is aware that the city's sewer impact and assessment fees must be paid in full prior to connection and of the additional costs to extend city sewer service to this property. The property is located within Police District III and service will be administered through the district headquarters located at 2851 McMullen Booth Road. Fire and

emergency medical services will be provided to this property by Station #48 located at 1700 North Belcher Road. The city has adequate capacity to serve this property with sanitary sewer, solid waste, police, and fire and EMS service. The proposed annexation will not have an adverse effect on public facilities and their levels of service; and

- The proposed annexation is consistent with and promotes the following objectives and policy of the Clearwater Comprehensive Plan:

Objective A.2.2 Future land use in the City of Clearwater shall be guided by the city's Future Land Use Map, which shall be consistent with the Countywide Plan for Pinellas County (The Countywide Plan) including the Countywide Plan Map and shall be implemented through the city's Community Development Code.

Objective A.6.4 Due to the built-out character of the City of Clearwater, compact urban development within the urban service area shall be promoted through application of the Clearwater Community Development Code.

Objective A.7.2 Diversify and expand the City's tax base through the annexation of a variety of land uses located within the Clearwater Planning Area.

Policy A.7.2.3 Continue to process voluntary annexations for single-family residential properties upon request.

- The proposed Residential Low (RL) Future Land Use Map category is consistent with the current Countywide Plan designation of the property. This designation primarily permits residential uses at a density of 5 units per acre. The Water/Drainage Feature Overlay proposed to be applied to the property will recognize the existing drainage easement on the property. The proposed zoning district to be assigned to the property is the Low Medium Density Residential (LMDR) District. The use of the subject property is consistent with the uses allowed in the district and the property exceeds the district's minimum dimensional requirements. The proposed annexation is therefore consistent with the Countywide Plan and the City's Comprehensive Plan and Community Development Code; and
- The property proposed for annexation is contiguous to existing city boundaries to the north and east; therefore, the annexation is consistent with Florida Statutes Chapter 171.044.
